MABINE MISCELLANY.

MABINE MISCELLANY.

Cutler, Jan 6—The Br ship Gen Williams, loaded with deals, and bound to Liverpool, Eggland, went sahore near the mouth of this harbor, on its eastern side, at 10 o'clock last avening. She had stood in for the purpose of leaving her pilot, when a squall from the scattern's audednity came up, and there being a heavy swell heaving in, before the ship could be got about she was driven in upon the rocks. The ship had previously had her jib spilt, which prevented her somewhat from working well. Bue has bliged, and has some six feet of water around her at low tide this moraling, but will probably drive up next high water, as the sea is heaving in quite heavily. Should a gate come on from the 8 or SE. sho will probably go to pieces; but if the weather is fair she will be got off and taken into the harbor, after discharging cargo from between decks. She is being stripped of sails and riging to day.

A letter to Ellwood Walter, Esq. dated St Thomas, Dec 28, says: The Br ship Sultan has been taken on the dock, the leak extended the whole length of the garrived yesterday, leaking badly; will go on the dock The Louiss, of Boston, leaks in port, with a cargo of lumber, two feet in twelve hours; will need a thorough repair.

NAVAL.

The crew of the shop of war Cyane, at Norfolk, are to be paid off and discharged at that place.

The coast survey steamer Vixen, J R Duer, Lieut commanding, was to sail from Washington 7th inst. en route for Apalachicola, making deep sea soundings on the way. She is to run a line of soundings from the Tortugas Keys to the entrance of the harbor of Apalachicola, and will also survey the adjacent coast. The following is a list of her officers:—J K Duer, Lieuteom manding; J P K Mygatt. First Lieutenant; A W Muldaur, Second Lieutenant; Edwin L Brady, Chief Engineer; Wm Sinclair, First Assistant Engineer; John McKaig, Second Assistant Engineer; J W Bogert, Matter's Material Material State, Mr Malcolm, Coast Pilot.

The keel for one of the new steam sloops of war ordered to be built at the navy yard in Charlestown, Mass, bas been laid in the ship-house from which the steam figate Merrimac was launched. Upwards of eighty workmen are now engaged upon the yessel, which pumber will be increased as the work advances.
