Indeed, since our citizens have bed the opportunity of making its acquantiance practically, the idea of extending similar means of travel all through our principal thorough are has been agitated, and appears to be popularly entertained.

We learn, with pleasure, that our suggestions to the Oliv Bailread Company, in a late number of THE PARSE, are being favorably entertained, and will be ast soon as the company has a sufficient number, of cars completed to make the extended accommodations practicable. It is now the opinion of many whose judgment in the matter is unquestionable, that running the right cars will not only be rendering a great public convenience, but will, pay, handsomely for whatever additional expense may thereby be incurred.

Another praiseworthy decision has evidently been midd by this company, and which cannot but enlist the thinks of the better portion of our people, viz.—net for the better portion of our people, viz.—net for mid of swinding. The popular Sabbath conscience has been growing painfully classic of late years, at any rate; and every additional breach of right in that direction can only tend to accelerate the evil. Presentation to Eugene America, Eng.—This pleasant affair to which, we have previously aliveded, was attended by a lerge number of invited quests. Mr. Escot Blackman, in presenting a valuable and handsome gold watch to Mr. Ahern, said it was an agreeable task to him to bring to the abring of merit an offering, bern of the heart, to moral and intellectual excellence. After a few remarks relative to the appreciation of the services of Mr. Ahern, as commissioner of sity property, he said: "This gift, sir, though beautiful, is valueless in comparison to the feeling which dictated the presentation; it is a without, however, by your private matter you that I but express the soniture of all about his when I tender to you their heartful wishes for your health, happiness, and prospectly for many years to come."

Mr. Ahern made a feeling and eloquent speech in reply, accepting the testimonial; and assuring the donors, that to him it would ever be a reminder to deserve and preserve the good opinion of his follow men. The demands upon the Society for help are daily intreasing, while the contributions to meet them are totally insufficient. The Managers have, therefore, appointed two additional collectors, Mr. TROMAS ORR, and Mr. 18AAO BAK RR. who are calling upon our citisens for subscriptions. The Society cannot continue its operations without prompt and liberal help. The sick atoms requires more aid than it is able to afford them, consequently, hundreds who are really suffering must be turned away empty every day.

Persons wishing to acquaint themselves in regard to the operations of this Society are requested to call at the office, where every inquiry will be cheerfully responded to. Persons giving written recommendations to applicants for help will please state the residence as well as the name of the applicant.

But, independent of the immorality of the thing, various reasons night be given against running a public means of conveyance through the city on Sunday. The plain promptings of humanity dictate that the beasts should have, at least one day's rest in seven, considering that they are kept on an expeditious trof from Monday morning until Saturday night. Now does this demand apply with less force to the men connected with the road as drivers, conductors, &c. Besides this, the evils which would not consastly attend such a means of transporting crowds from one end of our city to the other, on what too many see wont to make a more holiday, could not but provate the constraint of pathle regret; if not creminally an actual detriment to the road itself.

For this resolution on the part of the reliread company, not to rue on Sunday, (and we trust we are rightly informed,) it deserves the thanks of an order laying and a law-abiding community; and, we doubt not, the community will express its approbation in a substantial way.

There Tam much pleased to send you the above en-ocuraging news, which shows that the banks are now really expanding in a manner calculated to do good to the country. Every one is rejoiced, and the old enemies of the banks are now willing to NOTICE.—WHEREAS, LETTERS OF Administration on the estate of THOMAS Mo-CHRAUGH, deceased, have been granted to the undersigned, all persons indebted to adid estate will please make payment, and those having claims or demands will make known the same without delay to JOHN B. The naws of "cheap money" in Europe, of plenty of builion; of settled prices for produce, and the reduction in the Bank of England rate of interest, is considered here, and justly, as very favorable. Under this genial influence every face was smiling on change and in the street to-day, and I sim very happy to add, among the merchants also.

Confidence is not quite as infectious as panio, but it is somewhat "catching," and many of our merchants have caught "a mild form" of it from 1 their letters from England. It is an epidemic which I should be glad to see spread, as there is not much fear styresent of its becoming accourage the There is no material change in the rates of interest, being open to many, who have not hitherto been considered "first-rate," and that many of those who have always enjoyed that enviable reputation, the community. Call-loans are far more abundant than call-borrowers. The consequence is that the few, who want money on call can get it almost for nothing. ja20-tu6w*
