A mo low was made that a special committee of

This gave rise to considerable discussion between Messrs. Armstrong, Henszey, Brown, and others. The motion was agreed to by a vote of 8 to.1. Messrs Armstrong, Gamble, Henszey, Hughn, were appointed on the committee.

Mr. Garvin submitted a resolution, requesting Councils to make appropriations to meet the dishurements and pay roll of the stewart for Orobar. Navember, and Docember, 1857. Agreed to. He supposed that the conduction the faithfully performed its duty, and that, if any report at all was to be presented, it would be one entirely vindicating the Board of Guardians from anything like disareditable conduct, and at once set to reat the assertions of partisans and a partisan press against men of known integrity. Mr. Brown spoke carnestly and at some length. Bills were the read, amounting to \$14.631.22, which were ordered to be hald. Adjourned.

The Sangerbund Association.—The branch of the General Sangerbund, known as the Philadelphia Sangerbund into at Lemon Hill yesterday, to celebrate their anniversary. There are numerous special clubs or bunds belonging to the gereral one. All the Mennerchor societies are parts of it. There were with this band about sixty of the Turn-versin and a number of the Sangerbund Sic This gave rise to considerable discussion between and perspired and women watered and sweared, and perspired and sweatered under a sun which drove the thermometer up to ninety. This was the more surprising when we consider that the raised platform, upon which the walking took place, was but partially shaded from the vertical rays of that sup. But all seemed to enjoy them selves hugely. When the interval between the dances game, the hundreds who had been mingling and completely be and constrained like. and commingling, who had been maring and laby-and commingling, who had been maring and laby-rinthizing, in the waltz, stepped quietly off the platfrm to indulge in their favorite beverage— lager. Hen women, and children, seemed alike to recognise it a familiar household friend, whose recognise it a familiar household friend, whose presence was ever and alike welcome.

Among other pleasant things we observed was the celebration of a practice peculiarly Germanic. The band left-the platform and went to a distant part of the grounds. They began to play, and drew about them acrowd. We mingled with the crowd, and found that a circle had been formed yound a long rope which payed between two trees. To this rope was attached a number of twine cords at these distances and from these wars depending. small bouquets: Young girls were blindfolded and with a pair of solssors were started from a point within the circle toward the rope. There goes now a pretty rosy-cheeked malden; she stumbles slowly on; she missas one of the cords; she has therefore let the game and retreats. Another advances and succeeds in cutting a string. Herefort is choered with applicate, and she receives the fallen bouquet with applause, and she receives the fallen bouquet as her reward and trips proudly and gaily away. This is continued amid much merriment until all the bouquets are outdown. It is a custom the observance of which brings much pleasure.

The only drawback to this amusement was the announcement by a member of the Sangerbund, both in German and English, that a number of light-angered gentry were present, and that people had better look out for their gooket-books. We observed some half a dozen frauen, who were arbitantly the purscholders of their families, who were amazingly distressed because some person or porsons unknown had heen transferring their porsons unknown had been transferring their pureos to their own pockets. After this announcement we heard of no further pocket-picking.

During the afternoon, the different societies, under the lead of Mr. Flummer, sang several picces of music in a most effective manner. We observed no police officers upon the ground during the day. We saw only one man sporting a starned the inscription showed that he was a member of the penule's police—a constable. There was most excellent order preserved during the day. We saw but one attempt at face-scratching and wool-pulling. German-like, after the inciplent belligerents were separated, they discussed the whole matter over a glass of lager, and settled it thus permanently. whole matter over a glass of lager, and settled it thus permanently.

At half-past six, when we left, the people were rapidly and quietly dispersing to their homes.

Fugitive from Justice.—A day or two since Officers Ellis and Kneass. of the independent police, arrested William Frazer, a well-known character, as a fugitive from justice from the State of New Jersey. He was found at his residence, within about ince miles of Ballimore, brought to this city, and on Saturday was once more secured in the jail at Morristown, from which he had previously escaped. The original charge against Frazer was that of passing spurious fifty-dollar notes on the Freehold bank to drovers, in payment for entile. At one time, the fugitive was in the employ of Prime Murat, at Bordentown, as a trainer of horses, and editor quite a reputation among the sporting circles. He is now in a fair way to get his desorts. his desorts.

A New House.—The members of the Columbia Engine Company, at present located in Filbert street above Eleventh, are actively engaged in making the necessary arrangements to build a new house. Efficient and prompt as this organization has always been in caros of need they lack proper accommodations for the handsome and serviceable apparatus which they now have in charge. Their membership is constantly increasing, and, we doubt not, that ere long, through the exertions of 1 few active friends, they will be able to perfect the plan which they now have in view.

The new steam fire engine, built for the Rope Hose Company, a full description of which has already been presented to the readers of The Press, we learn, will be housed on Wednesday or Thursday of the present week. This ovent is to be celebrated by a handsome entertainment. The Hope will then be ready for active service, and while it will fully confirm the expectations of its friends. Will also, add another evidence of the immense superiority of steam service over manual labor, in case of fire.

Prize Fight Stopped,—A couple of rowdies belonging to the Fifteenth ward, named Lavenny and Benner, went to the corner of Sixteenth street and Pennsylvania aronue, on Sunday afternoon, at two o'clock, for the purpose of indulging in the brutal sport attending a prize fight. GIRLS, GET MARKIED.—The statistics of the various hospitals show that the "unmarried are more than four times as liable to become insune as married people." The many young ladles in our city who affect great indifference on the subject of matrimony should make a note of it—and in order to preserve their intellects unimpaired, select husbands from among those who buy their clothing at the "Old Franklin Hall Clothing Bazaar," E. H.; Eldridge's, No. 321 Chestnut street. MR' Diokens's Trouble -Mr. Dickens says, in regard to the slow of his domestic troubles, that they have 'lately been brought to an arrangement which involves no anger or ni-will of any kind, and the whole origin, progress, and surrounding circumstances of which kave been, throughout, within the knowledge of his children." We hear it whispered that the great novelist and his wife reparated in consequence of his systematic detraction of the United States. He would systematic detraction of the United States. He would maintain that there was as good clothing to be found in England as at the Brown Stone Clothing Hall of, Rock-hill & Wilson, Nov. 603 and 605 Chestant street, Philadelphia. Mrs. D. couldn't stand any such nonsense a I'm sure I wouldn't choose him, But the very deuce is in it,

Singer's Sewing Machines.—After a fair trial of the several machines that have yet been offered to the public, the unanimous verdict of operators has been given in favor of Singer's. SINGER'S NEW FAMILY SEWING MACHINE is, beyond all question, the most complete article for astly operated, and superior, in every respect, to any other machine. On this statement we challenge the world. je7-6m DOMESTIG PORTS
