as buried, from which he had taken and carried

desired to see John Dillin in regard to a fence which onclosed a half-care to tin which her child was buried, from which he had taken and carried awhy some rails.

At this time Dillin passed the house, and she jined him, the two walking in a donso piece of woods, on their way to the post office. Having arrived stythe centre of the woods, he knocked her down with a club, dragged her into the woods and stabbed her no' less than sixteen times. Ho then there her body into a cavity in the ground, caused by the upturning of the roots of a tree, and threw a log upon it, together with some bark, and other moterials acloulated to conceal it. Suspicious were excited at the time, from the fact that he was known to have entered the woods with her and to have arrived at the post office, much excited, and with middy and forn elothes, alone. It being known that had blood existed between them, some investigations were made, which resulted in no discoveries, and it was supposed she had found an opportunity, to ride to the nearest railroad station and gene-home. A day or two since, however, intelligence was feecived from her husband that ahe was not at home, and the same position it had been left by the murderor. One leg and arm were uncovered in the rubbish, but the body was unbouched. The persons engaged in the search which was being instituted. It was ascertained that he left direct for the hearest station on the petroit and Milwaukee Railroad, and taken back.

Dillin, who bad remained in the neighborhood during the two weeks, inferrenting between the murder and the discovery of the body-lect-arson and the was being instituted. It was ascertained that he search which was being instituted. It was ascertained that he left direct for the hearest station on the Detroit and Milwaukee Railroad, and taken back.

The ocroner's jury rendered a verdict of wilful murder against Dillin. The deed was a bratial and which and taken back.

The ocroner's jury rendered a verdict of wilful murder against Dillin. The deed was a bratial and which Railroad, and taken back.

The coroner's jury rendered a verdict of wilful murder against Dillin. The dood was a brutal and cold-blooded cue, and equals anything which has ever happened in our State in the horrors of its

An ther British Outrage on the Coast of Africa. [From the New Bedford Mercury, June 21.] From the New Bedford Mercury, June 21.]

Captain Charles W. Kempton, of whaling brig Amelia, arrived at Mattapolast ton Saturday night, informs us that when off. Cobenda, west coast of Africa, on the night of October 5; he was fired into by the British steamer Loxo, without any previous warning. The ball passed over the quarter-deck of the brig, and had apparently been discovered from a Minnie rifle. Subsequently a boat from the steamer, with an armed officer and ten men, boarded the brig and rudely forced themselves upon deck, requing a rope which was tendered to their assistance. After coming on board, the officer first proceeded forward and commenced interrogating the crew, and then proceeded aft, where Capt. Kempton invited him-into the oubin. Here his substicing concerning the brig were fully rehis questions concerning the brig were fully responded to by Capt. Kempton, and were followed by a demand for the brig's papers, which were shown, and the officer with the men then returned to their boat, and left the vessel. Among the to thor boat, and left the vessel. Among the boat's orew of the British steamer were recognised soveral seamen who had formerly comprised a portland of the orew of the brig, and by whom her obstacter must of course have been fully known and should have precluded the discourtesy shown by the training. The New Bedford Standard, of the evening of

are as follows:
Botroom the 1st and 10th of October last, near Mayomba, west coast of Africa, at 10 o'clock at night; very dark, the British steamer Lexo showed a signal light, which Daptain Kempton immediately nuwered, and then the steamer fired a gun, the ball from which passed to the leaward. Soon after a boat with about ten men came from the steamer and hearded the bire alimbing over the steamer and boarded the brig, climbing over the years of age, as soon as he recognised the master, went aft and interrogated Captain Kempton, noting his replies, and then deamnded to see his papers, which were shown, when the officer and his mon took leave. Capt. Kempton wishes us to say that the statement that a ball passed over his quarter deek is untrue, that the Brillish officer wont forward and interrogated his crew is also untrue, and that none of the crew of the boat ever belonged to the Amelia. A coloring is given to the whole affair which the facts will not warrant, and were not thus represented by Captain Kempton.

nissioner Mix, who has for a numbor of years been he efficient chief clerk of the Indian Bureau, and the efficient chief clork of the Indian Burcau, and whose appointment as commissioner has given such general satisfaction throughout the whole country, has concluded a treaty with the Minnesota Sioux Indians by which the lands they have held in common will be distributed among the different members of the tribe. The delegation (twenty-seven in number) are well pleased with the terms of the treaty, as it will canable them to become agriculturists, which has for years past been the leading object of these Indians. Their sim has been, and still is, to conform to all the habits and one-toins of civilized life; and in its furtherance, Mr. Commissioner Mix will make every exertion in his power: The Indians, in company with their incommissioner Mix will make every exertion in his power. The Indians, in company with their interpreter, left Washington eity on Monday for their homes in the far West, strengthened in their purpose by what they have seen during their solution.

CITY ITEMS.

A VALUABLE MEDICINE. -- In another part of our paper will be found the advertisement of Messrs.
N. L. Clark & Co., Boston, of a medicine entitled "Per-ruvian Syrup, or Protected Solution of Protoxide of Iron "? There are certain facts so fully attested by competent chemists with regard to the analysis of this reme dial agent, that, little as we are disposed to countenance quackery in any shape, we feel a particular interest in having the merits of this remedy tested by actual ex-periment on the part of our citizens. As regards the composition of the articles the facts claimed for it are these: That, it contains no mineral

or vegetable poison, and that its basis is well known, and extensively used, by the best medical practitioners in this country; also, that the discovery consists rather in the better preparation of a well-known medical agent (protoxide of iron) than in the production of a new. We are aware that throughout the New England States the Peruvian Syrup has been very extensively used, and in not a few instances attended with the most satisfactory results: As regards the specific allments which the "Syrup" is intended to reach, the reader will find them enumerated mainly in the advertisement, as also upon the circular accompanying the medicine.

We feel the more auxious that the effort, now being made by the proprietors to introduce the interest. them enumerated mainly in the advertisement, as also upon the circular accompanying the medicine.

We feel the more auxions that the effort, now being made by the proprietors to introduce it in this city, should succeed—which we don't not it will—from the fact that it comes to us endorsed and recommended, from personal experience, by some of the first and most favorably known men in this country, of whom we may mention, of Bostonians, the Rev Thomas Whitemore, Thomas A. Dexter, Kaq., Dr. S. H. Kendall, Peter Harvey, Kaq., Rev. John Pierpont, and others, the last named gentlemen testifying to a most remarkable cure upon his own person of a cutaneous disease known as few Prairie Planes. The section of a cutaneous disease known as the Prairie Planes. The section of a cutaneous disease known as the Prairie Planes. The section of a cutaneous disease known as the Prairie Planes. The section of a cutaneous disease known as the prairie Planes. The section of a cutaneous disease known as the prairie Planes. The section of a cutaneous disease known as the prairie Planes. The prai named gentermat restricting to a most remarkance cure
upon his own person of a cutaneous disease known as
salt rheum. The complete cure of many other diseases
by this medicine is equally well attested, and we expect, ore long, to hear of its, beneficial application
among our own citizens. It is sold here by Brown,

THE POOR AND RICH MAN'S MILL. We called to see Clark's new Patont Merchant Flouring Mill, now in constant operation in Pemberton court, close by the Exchange. It is truly a valuable invention, and we advise all to call and see it. It costs but a few hundred dollars all complete. The patentes can be con eulted at all times at the mill.

THE HOT WEATHER .- Early rising and wash-THE HOT WEATHER.—Larry rising and ween-ing in cold water (purified and scened with a few drops of the genuine." Baim of Thousand Flowers!) is re-commended by the first-physicians in the State as the best means of preserving health and strength during the excessive heats of summer. For salo at Petersons, 306

Barning Robes.-We would seain invite attention to the advertisement of Mr. John P. Slean, in another column. In this line of clothing Slean's establishment is unrivalled in this country.

A RELIC. A copy of the ancient well-known Hereford Missail of the date of 1508, has just been brought to light in Bristol, England, where it has been brought to light in Bristol, England, where it has been lying for many years smong a pile of old books and other refuse, on the floor of the house of a Roman tatholic clergyman. The work was sent up to London, and has been purchased by the trustees of the British Museum for \$1,500. It is designed to send, it to this city, where it will be on exhibition at the palatial clothing Emporium of Granville Stokes, No. 507 Chestual street.

STALE HOTS AND BLASTED HOPES .- A wealthy farmer in Otsego county, New York, has now on hand over \$60,000 worth of hops. He first refused 30 cents a pound, demanding 3814, and when offered that, he domanded 40 cents, and, when offered that, he, still rose

Special Notices.

Coffee Healthful. DR. HALL'S OPINION.

Considering our habits of life, Coffee, as a beverage or breakfast, is nutritious and healthful, and may be

taken, in moderation, for a lifetime without failing of its advantageous effects. A single cup, moderately strong, nover increased in strength, frequency, or quan-tity, is a positive good, and is far better than as much tity, is a positive good, and is far better than as much cold water at any meal, especially to invalids or persons of feoble digestion. Now and then a person will be found with whom it does not agree; then such a person should omit it, at least for a time. To obtain Coffee with its delicious aroms, it should be holled in a vessel which shall keep in all the steam, EVERY PARTICLE OF IT; and, then, the longer it is boiled the better it is—even for two hours. THE OLD DOMIN-ION COFFEE POT, manufactured by ARTHUR, BURNMAN, & GILROY, of Philadelphia, accomplishes this most certainly, as we personally know, and is claimed to be a saving of 25 per cent.—that is, three pounds will go as far a four. But to make it of any use whatever, one thing is essential: the purchaser must first over, one thing is essential: the purchaser must first learn how the Coffee is made, and then remain in the kitchen while the cook is directed how to make it, and ee that the directions are literally attended to. After see that the directions are interarry attended to. After this is done for two or three unornings, neither noistress nor maid will have any desire to return to the old plan of boiling all the best part away, and allowing its fines' arount to go up the chimney. One-quart size fast.50 and fifty cents for each additional quart. Ten-quarsize \$5 .- Hall's Journal of Health for Tue

ARTSHORNE'S CURE-ALL — THE
GREAT PAIN ANNIHILATOR: and Remedy
for DYSEPSIA, WEAK STOMACH AND WEAK
BOWELS
This article is the greatest discovery in Chemical or
Medical Science for the rapid Cure of RHEUMATISM,
NEURALGIA, TOOTH-ACHE, SORE THROAT, STIFF
NECK, or Pain in the LIMBS, SIDE, BACK, or any
part of the body. It acts upon the Blood, Nerves, Ajuscles, Sinews, and Bones, conquering all pain.
It is also an excellent preparation for Dysepsia and
Indigestion, which arises from a weak stomach or
howels. Thousands of persons who have used HARTSHORNE'S CURE-ALL have been astonlabed at its
wonderful power in removing any pain from the system.
Bottles 12, 25, 50 cents, and \$1, be soid by

ranted manner from \$25 \tau\$10. Support him, or you will
have the same charges to pay.

CONGRESS SPRINGS, SARATOGA, April 12, 1858. A CARD TO THE PUBLIC. During the last session an attempt was made to de-ceive the public, by persons offering what they called "CONGRESS WATER," from Fountains; and at the price of six conts per glass. The WHOLESALE price of the GENUINE CONGRESS WATER, at New York, being about 74 cents per glass, the imposition of thus of the GENUINE CONGRESS WATER, A New York, being about 7 ½ cents per gless, the imposition of thus pretonding to sell at retal, for less than cost, and without allowance for Freight, Cartage, and Breakage, is apparent; but their probable course has been to empty ONE bottle of genuine Congress Water into a Pountain, and thereby christening its total contents.

We have NEVER sold Congress Water in Fountains nor in vessels of ANY OTHER DESCRIPTIONS THAN ordinary-sized CLASS BOTTLES. The cork of story bottle of the genuine is branded "CONGRESS WATER O & W.," and if without these words and latters, it is GOUNTERPENT.

ap28-with tool-if Proprietors of Congress Spring. FRESH CONGRESS SPRING WATER, Recoited directly from the Spring at Saratoga, always on hand, in Pint and Quart Bottles, and for sale by F. BROWN, Ohemist and Druggist, M. E. corner OHESTNUT and FIFTH Streets my26-wth-toc 1 TOST POLICY OF INSURANCE.
