John Y. Castor and Lucius Schwartz, convicted few weeks since of passing counterfeit gold and silver coin, were called up for sentence. Mr. Daniel Dougherty, in mitigation of sentence, urged on behalf of his olient, Castor, the facts that the jury had, on finding him guilty, recommended him to the mercy of the court, which ought always to be taken into consideration; that the evidence adduced against him on trial showed that he had passed only two counterfeit quarters; that his client had proved a most excellent character up to the time of the commission of this offence, and that his youth and the surrounding circumstances were in his favor towards reformation. He would, therefore, strongly urgo upon the court all these facts, and ask it to take them into consideration in passing sentence.

[Correspondence of the St. Paul (Min) Ploneer and Democrat.]

Banaroua, on Big Cottonwood river, Min., June 16, 1858

Day, before yesterday three thousand Yanktonais (the same Indians that caused the disturbances in this violnity last summer, and who seem to have come now but to execute the threats they then made) arrived bef-re Medary, and demanded recompense for intrusions upon soil which, they claimed, rightfully belonged to them; but which was soid to Government long ago by the lower Bioux Councils were held with their chiefs. They said their "lauds had been sold from them, were heling settled upon and dug up with roads, &c., &c., and that others were getting the pay-for the land and all extra privileges thereon.

"Government, or the "Great Father," had promised them money, but it had not come; and they were now going to take the mater into their own hand?" How the restre attitude them.

and and all extra privileges thereon.

"Government, or the 'Great Father,' had promised them more, but it had not come; and they were now going to take the ma'ter into their own hands." Upon this resolve, sithough they had been proviously almost prevsiled upon to pass on to the 'agencies, they commenced plundering the houses, from cellars to garrets. They demanded everything, even to our free-arms and teams, but upon being, sternly assured that the white man would die fighting before vielding his arms or his horse, they yielded this point. It was, however, with great difficulty that we could prevent, without violence, the young Indians from cutting the harness to pieces while hitching up our teams for departure, as we were insolently ordered to do.

The settlers, for several miles each way, were warned of the danger, and they fied to the town, leaving everything behind to be plundered and hurnt by the Indians, 'At, the moment we were ordered to leave, the toron was applied to every building in the town, and every claim cabin round bont, which, in our retreating steps, we witnessed fall to the ground; the 'toll of sur hands were heaps of ruins; the pioneers' homes were beds of ashes, to be scattered again to the prairies.

A train of immigrants coming into Medary, was also burnt down sand the inhabitants driven off The settlers between Flandrau and the Falls will probably go into the town at the Falls, and prepare for defence But I think the Indians will into go that far south, as it is out of their range of operations, for the present at least. They were to go directly from Medary to Yellow Medicine or the Upper Sioux Ageney, where they would demand the annuties which those other Sioux are receiving on said lands, or the treaty therefor, to he now and henceforward paid to them; and if the Government agents refused to acquiecce, they (the Indians) would sack every town on the Minnesota river, to the foot of the reserve, and every town and estitement on Vasida the tiven we are now encamped on) to its mouth.

CITY ITEMS.

THE COMING FOURTH .- As the Fourth of July approaches, the juvenile portion of the community-who seem in fact to have, of late years, monopolized the true patriotic spirit of "the day we celebrate are laying in a plenteous supply of dreworks. For their benefit we would say that the richest and most yaried stock of these patriotic combustibles in this city may be found at the well-known confectionery stablishment of Messrs. E. G. Whitman & Co., Second treet, below Chestaut.

.. An Improven Light.-We have on one or two former occasions referred to the excellent patent lamp salvertised in snother column by Mr. D. P. Peters, whose depot is now located on the southwest corner of condand Chestout streets The peculiarity of thi And I amp is that it does not burn the finid direct, but a self-generated gas, making the lawp non-explosive. This latter quality is slone sufficient to bring it into This latter quality is slone sufficient to bring it into general use where gra-lights have not been introduced. A very high endorsement of the character for this lamp is found in the lact, that in several cases where it has devoted upon committees to decide, fir. Peters' patent lamp has reen introduced into care and steamboats. We understand the proprietor has just concluded a contract thus to illuminate several of the New York ferry boats, also quite a number of cars on their passenger railwars. passenger railways.

WILEKSBARRE COAL .—Mossrs. Audenried & Rommel have just introduced into this market a new warfety of coal, which is said, by competent judges, to be of very superior quality. It is hard, strong, and for generating steam is unequalised by any other article. Measrs, Audenried & Rommel have the exclusive agency for its said.

Not a Connection.—We are induced to repea for reasons already given in a previous number of thi paper, that the new flouring mill, now engaging the universal attention of the public, is located in Pember tinversal attention of the public, is occupied in redmer-tion Court, off Ledge street, between Second and Third, close to the Exchange. Mr. Clark, the patentee, has his raduable mill in constant operation, daily, and, we are informed, is selling county and State rights on very reasonable terms. We would say to the curious, as well s those interested, to go and see this valuable mill emberton Court, at the Exchange, is the only place i

can be negotiated for in this city. · Sweltening -Monday and Tuesday the quick siver indicated 96 degrees in the shade. Palpitating humanity poured forth huge drops of sweat as it thought of the mosay della, gurgling brooks, and unprageous shades of the country, or the refreshing breeze and dashing aurf of the sea shore; we wished for wings to fly away, and mingle with the sparkling spray
—but we could'nt; and all' we can do is to advise our
readers, who can, to go to the '01d Franklin Hall Olothing Empgrium' of M. H. Eldridge, No. 321 Chestaut

atreet, and purchase a suit of elegant and cheap bathing rebes. The "Old Pranklin Hall" is the place. A SPECK OF WAR !- It is stated that the Amerian Minister to Moxico has demanded his passports, and is coming home. We have it from very excellent authority that Mr. Forsyth only returns home for the purpose of obtaining for himself a new outhit at the Brown Mone Clothing Hall of Rockhill & Wilson, Nos. 603

and 605 Chestnut street, above Sixth. A good book and a good woman are excellent hings for those who know how justly to appreciate their value—there are nien, however, who judge both from the beauty of their covering. So much does appearance govern us; hence we reiterate our oft-repeated advice, wear only the graceful atmuner styles of Granville Stokes, No. 607 Cheating strass.

WITH THE THERMOMETER at 105, it is pleasant to think of something cool. Thus, Polar Regions and Leeborgs have a refreshing sound, and Dr. Kano's Exrations meet with an attentive perusal;

Hong Rong, April 23—The second expedition of the Ann to the Prates proved unsuccessful, the wrecked Annerican ship Courser having been found burnt to the water's edge. The salvors, however, will probably get two-thirds of the value of the carge saved, which will amount to some \$10,000 and richly remunerate them for the tiouble and risk they ran.

The above firm are loaning money for Eastern parties, upon the security of Cultivated Farms in the ricinity of Bavenport Iona, and return FIFTREN FER GENT, per annum, in Eastern par funds. The security is perfectly safe, as no loans are made except upon unencumbered Real Eastet, nor to an amount greater than ONE-THER the intrinsie value of the land. The money borrowed is generally used in indroveing the farms, thus enhancing the value of the security. The securing instrument is a DEED OF TRUST, by which the Trustee is authorized to sell the land at public auction, without further legal process, in twenty days after default in the priment of either principal or interest. A full description of the farm and improvement is always sent to the pryment of either principal or interest. A full description of the farm and improvements is always sent to the leader when the loan is effected.
