THE NEW DEMOCRATIC TEST - THE | The question of popular sovereignty, though A story is told of a sailor who, while witnessing the performances of a juggler, was blown through the roof of the house by the explosion of the juggler's combustible materials, and landed unburt in an adjoining garion. Getting up, and rubbing his eyes, thinking his sudden change of situation was but one of the juggler's tricks, he exclaimed, "I wonder what the devil the fellow will be at next!" So may every Democrat who has been suddenly thrown out of the Democratic party by one or another of the Lecompton explosions,

exclaim; "I wonder what will be done next?" . The first great Democratic test that was made ou the Kansas question was, that "all who the future will prove it is not. Shall it be were in favor of a submission of the Lecompton Constitution to a vote of the people, and only those, were in the party." This was the party Democratic "test" up

it should not be submitted to the people. who were in favor of submitting it to a vote of the people, and they only, were out of the party-no man was to be considered in the Democratic party who dared to suggest the propriethe people of Kansas in any way to accept or reject the Lecompton Constitution. Well, hardly had the party been fatrly put through this full "half wheel" mar œuvre, at the command of Messrs. Tooms and Sternens, and got fairly into line, in the new front, when lo, and behold! Mr. Enguish introduced a new move, and, presto, the orders were "quarter wheel back," and a new line was to be formed, as they say out West, of "sort" of submission of the Constitution to the people, and a se sort of not's submission.

order of Messrs. Toomss and Sternens, and all who do not obey are to be executed without benefit of clergy by all the executive officers of the General Government. "Can such things, be, and overcome us like a summer cloud, without our special wonder?" Yes! this is the doctrine laid down by those who profess to speak for the Administration and the Democratic party. This is the doctrine appropried at the Democratic meeting in Independence Square on the 5th of July, drawn up and written out, as we have heard, by three of the members of the Cabinet of Mr. Bv-CHANAN, who were in this city just previous to that day; and whether written by them or not, it was, we know, in exact accordance with their expressions to many De-mocrate, and it has never been retracted by the Washington Union. And what is the language thus authentically announced as the new test of Democracy? Why, that "any Democrat desirous of remaining in fellowship with the party must submit to the party's irreversible decision, (on the Kansas question,) and to accept it as a finality." This s the new, "feet",—the "English finality". and all who do not bow obsequiously to this cannot remain in fellowship with the party, And for what reason is it that the Democratic party is to adopt this new drill, this backward English quarter wheel," as the test of Democracy? We are told by these same Cabinet ministers, speaking through the resolu-tions read in Independence Square, "that, in-asmuch as the terms and modes of settlement (the English finality) have been assumed and endorsed by a Democratic President and Cabinet; by a Democratic Senate, on a strict party vote, (not true); by a Democratic nouse, who searce half a dozon Democratic votes in the and and him

We honor the New York Tribune for ts courageous liberality in supporting Hon. John B. Haskin for Congress, thus setting an example to the mere hacks of its own organization, and assisting to strengthen the hands of independent men in ours. If newspapers exhibited more of the spirit which is shown in the following article from yesterday's Tribune, and less of the shameful subserviency which characterizes many of them, we would not only have a more effective but a more influential press, and a class of Representatives in the National Councils that would reflect credit upon Congress and the country. For our own part, greatly as we dislike to differ from old friends in an issue of principle, we have not the slightest hesitation in declaring on upurpose to oppose any candidate who can so far forget his manheod as to suppose that party.

BY MIDNIGHT MAIL LETTER FROM "OCCASIONAL." dence of The Press ]

WASHINGTON, July 21, 1852. WASHINGTON, July 21, 103.

Lieutenant Mowry, who has been here from the beginning of the last session of Congress as the representative of the proposed Territory of Alteona, has just left on his return. His letters have been full of new mines being worked and new trains of emigrants from Toxas and California, and from most of the Southwestern States, arriving in This will be doing justice to Kausas, and justice to the principles of the Democratic party, and will settle the Kausas question as it only can be settled.

Is the question settled? We say not, and borders of Sonora and the portion of New Mexico known as Arizona, none were so sanguine as to expect the rich yield which has rewarded the efforts of those who first threw themselves into the enterprise. Army officers have resigned their mmissions and are making rapid strides toward A curious project is now afoot. The difficulty

inder which settlers there now labor is the cost of transportation; and to relieve them of this to a great extent, a caravan of camels, to cross the in-tervening desert toward the Gulf of California, is being organized. The experiments of Lieutenant Beale in Texas, and upon his wagon-road, prove the utility and feasibility of the plan.

It was not an idle rumor I stated a few weeks ago, that an attempt would be made for an expedition from the United States territory into either whoever manages the Lecompton-English Lower California or some of the Northern States f Mexico. It was not for nothing that this summer Mike Walsh, General Henningson, and others in the filibuster movement, were in Vera Cruz and atother points. It is stated that large numbers of influential Mexicans are in favor of the crection of a new Presidency, embracing certain of the northern Mexican States, after the manner of the Texas revolt, and that they not only do not dislike the interference of Americans, but in fact have implored it, that success may crown their effort This may in part account for the little that the "Lone Star" advocates, under the control of Walker and Lockridge, have said lately of Nicaragua or Cuba. Certain it is that the order has gone out from Zulcaga to On these conditions we are ready to let the dead bury their dead—to let bygones be bygones—to drop all tests but that of fidelity in concentrate troops upon the frontier, which, in the present distracted condition of Mexico, will, in all orobability, ramain unexampled, and that our Gothe future to these great principles. This is earnestly prayed to take means for the discomfiture of the expeditionists. Not knowing, however, what will be Mr. Forsyth's report of his treatment, and what really are the points in controversy between the representatives of the two nations, no de-cided action is taken, because it may be that now, as in 1846, Mexican rulers, to reunite the dismembered elements of the confederacy, may blindly recipitate her into a disastrous war.
