Medicinel. DERUVIAN SYRUP, .. PROTECTED SOLUTION OF PROTOXIDE OF Having successfully passed the ordeal to which new discoveries in the Materia Medica are subjected, must now be received as an established medicine. Its efficacy in curing DYSPEPSIA, Affections of the Liver, Dropsy, Neuralcia, Bronchiti and Consumptive tendencies, Disordered State of the Blood, Bolls, Scurvy, the Prostrating Effects of Lead or Mercury, General Deblity, and all Diseases which re quire a Tonic and Alterative Medicine, is beyond que

The proofs of its efficacy are so numerous, so well authenticated, and of such peculiar character, that sufferers cannot reasonably hesitate to receive the professed aid.

The Peruvian Syrup does not profess to be a cure-ail, but its range is extensive, because many diseases, apparently unlike, are intimately related, and proceeding from one cause, may be cured by one remedy.

The class of diseases for which the Syrup provides a cure is precisely that which has so often besided the highest order of medical skill. The facts are tangible, the witnesses accessible, and the safety and efficacy of the Syrup incontrovertible. the Syrup incontrovertible.

These persons who may wish for an opinion from dis-interested persons respecting the character of the Syrup, cannot fail to be satisfied with the following, among nu-merous testimonials, in the hands of the Agents. The signatures are those of gentlemen well known in the community, and of the highest respectability.

The undersigned having experienced the boueficial effects of the "Peruvian Syrup" do not hesitate to recommend it to the attention of the public.

From our own experience, as well as from the testimony of others, whose intelligence and integrity are altogether unquestionable, we have no doubt of its efficacy in cases of Incipient Diseases of the Lungs and Bronchial Passages, Dyspasia, Liver Complaint, Dropsy, Neuralgia, &c. Indeed, its effects would be incredible, but from the high character of those who have witnessed them, and have youlundered their testimony, as we do ours, to its restorative power.

FOR ALL DISEASES OF THE BLOOD there is no better antidote than Hobensack's Iron Bitters. When the blood is impare the whole body is full of direase. Blood letting may aswer for a time, but cleansing a part will not purify the whole. At the fountain we must begin, and to cleanse the blood there is no better remedy than these invaluable Bitters. Their chief constituent is iron, and we all know its efficacy in removing the impure matter from the whole visceral system. They are prepared by a practical chemist, and have been pronounced, by eminent physicians and others, as the "ne plus ultra" of all tonics.

New York, April 19, 1858.

Dr. Wood: Bear Sir—Permit me to express to you the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I conaider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

I am, dear sir, yours truly,

"Bridge Sir—Some menth or siz weeks ago I received a bottle of your Hair Restorative and gave it my wife, who concluded the try it on her hier, little thinking at the time that it would restore the gray hair to its original color; but to her, as well as my surprise, after a few weeks trial it has performed that wonderful effect, by turning all the gray hairs to a dark brown, at the same time beautifying and thicken ing the hair. I strengly recommend the above Restorative to all persons in want of such a change of their hair.

Prof. O. J. Wood:—With commend the above Restorative to all persons in want of such a change of their hair.

INSTITUTE FOR YOUNG LADIES,
NO. 1623 WALKUT Street,
PRILLABELFRIA.

The system of tuition is based on that adopted in the bost Samioaries in Europe, and compress thorough instruction in the Legil-b, French, and Latin languages; special attent on is also paid to the formation of an elegant style of composition, and to the cultivation of a taste for polite literature. The course of study will embrace every branch of oducation.

Alimited number of pupils adoited inte the family. Their religious and moral training is under the special core of Mrs Revil who has had many years experience, and deference will be part to the feelings and wishes of their parents in these matters. The health and comfort of the young ladies is also carefully attended to by her. Weekly boarding pupils, from Monday till Priday, reserved at proportionate (19).

TESTIMONIALS.

It affords me pleasurerto state that Mr. J. J. Reed is recommended by official testimonials of distinguished rentlemen in London. From personal acquaintance with imm, I can most cheerfully recommend him as an acromplished scholar and gentieman to the confidence of the public.

The subscriber takes and the second seco he public.

The subscriber takes great pleasure in uniting with Dr. Converse in the above recommendation. From personal acquaintance with Mr. Reed, as well as from his listinguished testimonials, I am confident of his emisent abilities as a gentleman and scholar.

CHARLES WADSWORTH. ment abilities as a gentleman and scholar.

We are happy to hear that Mr. J. J. Reed, a gonileman of considerable literary attainments, and who
has contributed to Graham's many excellent sketches of
ominent persons, has re-opened his linstitute for Young
Ladies, at 1623 Wilmut street, one of the most admirable localities in the city. Mrs. Reed is a lady who has
had many years' experience in tuition, and bears a high
reputation for success in training her pupils, both morally and mentally. Mr. Reed, from his knowledge of
European languages, and from having graduated in the
first colleges in kngland, imparts the advantages of the
best European systems of education; and particular sttention is paid to the study of English Composition and
Folite Literature. We would lay some stress on this
latter fact, since general literary information and culture; though by far the most distinguishing signs of intelligence and refined education, are, on the whole, far
more neglected in most schools and colleges than any
other branches.—Editor of Graham's Magazins for
July, 165s, p. 81.
