There has been much comment apad the follow: ing in yesterdey's Washington Union: .: We see it reported, we de not care upon what authority, that a tax is levied upon the persons employed in the Government service, and the pay-ment thereof exacted. We are quite ignorant of the authority upon which this payment is demand-ed, or the purpose to which this payment is demand-ed, or the purpose to which this applied when re-ceived. We trust, however, that whatever may be thus collected may be wisely and economically applied to advance the interests of the Democratio party in its great struggle with the Opposition. It is said that from one-quarter to one-half of one per cent. on the salaries of officials is thus exacted. Now, without knowing anything of the alleged tax, and with no belief in its existence, as a gene-int thing, we have just this to say on the subject: If there is a person in the public service who does not voluntarily contribute the amount, at least, of two dolars and a half a year on each thousand dollars of his salary to support the cause of the Democracy, he should be dismised at once, and his place filed by one who is patriotia and liberal enough to double the contribution."
