The proofs of its efficacy are so numerous, so well authenticated, and of such peculiar character, that sufference cannot reasonably hesitate to receive the proferred aid.

The Peruvian Byrnp does not profess to be a cure all, but its range is extensive, are intimately rolated, and proceeding from one saves, may be cured by one remody.

The class of diseases for which the Byrup provides a cure is precisely that which has so often baffled the highest order of medical skill. The facts are taugible, the witnesses accessible, and the safety and efficacy of the Byrup incontrovertible.

Those persons who may wish for an opinion from dis-

The undersigned having experienced the beneficial effects of the "Peruvian Byrup," do not hesitate to recommend it to the attention of the public.

From our own experience, as well as from the testi mony of others, whose intelligence and integrity are altogether unquestionable, we have no doubt of its efficacy in cases of Incipient Diseases of the Lungs and Bronchial Passages, Dyspersia, Livre Complaint, Dropsy, Neuralgia, &c. Indeed, its effects would be incredible, but from the high character of those who have witnessed them, and have volunteered their testimony, as we do ourse to its restartive nows. we do ours, to its restorative power.

OERTIFICATE OF DR. HAYES.

It is well known that the medicinal effects of Protoxide of Iron is lest by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible. In the Peruvian Syrup, this desirable point is attained by combination in a way before unknown, and this solution may replace all the proto carbonates, of traites, and tartratee of the filteria Medica.

wheat, of their own importation, direct from one of the
best grain-growing countries in Europe.
The attention of Farmers is requested to this Wheat,
as it is believed to be the best article of the kind imported into this country for a number of years. It has
been selected by a competent party in Europe, solely
with the view of procuring a superior article for seeding;
and to farmers wishing to change their seed, this is an
opportunity seldom met with.

six to sixty stitches to an inch, on all kinds of goods,
from coarsest bagging to the finest cambrics. It is,
without exception, the simplest in its mechanical construction ever made, and can be run and kept in order
by a child of twelve years of age. The DURABLITY of
this machine, and the quality or its wonk, are warranted to be unsurpassed by any other. Its speed ranges
from three hundred wifteen hundred stitches per minute. The thread used is taken directly from the spools,
without the range of agewinding. In fact, it is
a machine that is wanted by every family in the land, and
the low price of
