This Medicine has, by its own merit, gained a great reputation. It is composed entirely of vegetables, and is made from the formula of a distinguished physician, used by him in the cholers of 1832. It does not contain Oplum in any form, and never constipates the bowels, It is equally chicacious in mild and aggravating attacks of cholers morbus. It has cured cholers after the "rice water" discharge had taken place. The uramps and pains of cholers morbus and dysentery are in a few minutes dispelled the stomach, and the bowsiz restored to a healthy action. If this remedy were used in the premonitory symptoms, dysentery, that decided disease, would find fewer victims. Read the recommendations of the railroad conductors who have used it for several of the railroad conductors who have used it for severa years, in the Oircolars. Private instruction, though favorable to repid progress, yet sends the scholar into the world with a keen sensitiveness, which totally disqualifies him for active life; whilst attention to many oftentimes forces the instructor to meet general difficulties rather than those personal to each individual and the learner either loses all interest, or becomes superficial in his acquirements. For these and other reasons the number is limited.
