Private instruction, though favorable to rapid progress, yet sends the scholar into the world with a keen sensitiveness, which totally disqualifies him for source life; whilst attention to many oftentimes forces the instructor to meet general difficulties rather than those personal to each individual, and the learner either loses all interest, or becomes superficial in the acquire-OWARD FIRE AND MARINE INSU-RANCE COMPANY, No. 412 WALNUT Street, Philadelphia. PROFESSOR WOOD'S

OF THE NINETEENTH CENTURY,
PROFESSOR WOOD'S

HAIR RESTOR ATIVEL

Bays the St. Louis (Mc.) Democrat: Below, we publish a lotter to br Wood of this city, from a gentleman in Miline, which specks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no endomiums, nor useless puffery from the press:

BATH, Maine, Jan. 20, 1856.

Professor O. J. Wood & Co.—Gentlemen: Having my attention called a few months since to the highly benefic al effects of your Hair Restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my wilskers were of same character. Some three months since I produced a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty-five ago of faity-tro, has used it with same effect.

The above notice I deem due to your for your valuable discovery. I am assured that whoever will rightly use; as per directions, will not have occasion to contradict my statoments. I am citizen of this city, and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am truly, yours, and are standing, and Pastor of the pullow fever, in New Orleans, in 1861, I was induced to make a trial of your preparation, and found it to answer as the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the shilleded such a treasure.
