EDWARD A. LESLEY, ool-fruw5t* QUEEN'S PORTABLE FORGE.—
Doubtless many of our city readers, in passing the gange of workmen employed in laying down some of the passenger railroad tracks in our streete, had their attention attracted to a portable forge, with bellows and everything complete, and in efficient service. These, forges, built upon the plan secured by O. V Queen's patent, are for sale at the commodious, long-established, and deservedly popular Stove, Range, and Furnace ostablishement of WARNIOK, OHAD WIOK, & BROTHER, corner of SECOND, and RAOE Streets, who have the sole right for the sale of Queen's Portable Forge in Pennsylvania.

There are, we believe, five sizes of this forge, rauging in price from twenty-two to forty-four dollars—as sum so small, when contrasted with its merits, as to secure its general introduction; for any one who will for a moment consider the advantages of this forge, which may be removed from place to place, so as always to be on the spot where workers in iron or other metals are to perform service, whether in original construction or repairs, will at once concede its great efficiency; and arrange for its possession and use. The adaptability of this forge to repairs to railroads and mining machinery especially commends it to railroad companies and operators in the mining districts. We, therefore, take pleasure in calling to it the attration of road masters, superintendents of mines, and others.—[From the United States Railroad and Mining Register Stones. STOVES! STOVES!

SOMETHING NEW .- GAS BUR-SOMETHING NEW.—GAS BURNING COOK STOVE.—I would respectfully call
the attention of the public to one of the greatest
improvements ever introduced in Cooking Stoves
and Ruges—the burning of the gas arising from the
coal, by which means is saved 50 per cont. in fuel and
also more intense heat thrown to the bottom of the
oven. We effect the burning of the gases by means of a
hollow contra-piece, perforated on the under side. which
admits the air in a h-ated state to mingle with the
gases, thus siding its combustion, and causing a flame
to pass around the oven equal to a wood fire. This improvement also preserves the centre piece from *inking

THE GREAT WONDER OF THE NINETEENTH CENTURY, PROFESSOR WOOD'S PROFESSOR WOOD'S

HALTER RESTORATIVE.

Says the St. Louis (Me.) Democrat: Below, we publish a letter to Dr. Wood of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Buch evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, Maine, Jan. 20, 1856.

Professor O. J. Wood & Oo.—Gentlemen: Having my attention called a few months since to the highly bense cal effects of your Hair Restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my which was ver of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have sued some. I can now cert y to the world that the gray or white hair has totally disappeared, both on my head and face and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty-first years. I am now sirty years old; my geod wife at the age of fifty-two, has used it with same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict mystatements. I am a citizen of this city, and a resident here for the last affecen years, and am known to nearly every one here and adjoining towns. Educational. DENN INSTITUTE Southeast corner of THIREENTHI and FIDERT Streets, opened on MONDAY, the 6th of September. Private instruction, though favorable to rapid progress, yet sends the scholar into the world with a keen sensitiveness, which totally disqualifies him for active life; whilst attention to many oftentimes forces the instructor to meet general difficulties rather than those personal to each individual, and the learner either loses all interest, or becomes superficial in his acquirements. For these and other reasons the number is lumited hmited

FOR FEMALE COMPLAINTS, GENERALLY there is perhaps, no medicine in the world equal to it, as it enters, purjees, and replenishes the blood which is so important to bring about a healthy action.

THOUSANDS ARE LIVING
a miserable existence, of a pale sickly color, weak and emplated, who could be restored to health by the use of olds bittle of this invaluable medicine. It is no humbug, but a genuine feinedly being free from any thing that is of an injurious sature.

FOR ALL DISEASES OF THE BLOOD

there is no better antidote than Hobensack's Iron Bitters. When the blood is impure the whole body is full of disease. Blood letting may answer for a time, but cleansing a part will not purify the whole. At the fountain we must begin, and to cleanse, the blood there is no better remedy than these invaluable Bitters. Their chief constituent is iron, and we all know its efficacy in removing the impure matter from the whole visceral system. They are prepared by a practical chemist, and have been pronounced, by eminent physicioms and others, as the "me plus ultra" of all tonics.

HOW GRATIFYING

THESTNUT GROVE WHISKEY.-A desiza to lesson the consumption of impure spirits, knowing their injurious effects upon the constitution, has induced the offering to the public of an article which the analysation of Professor Chilton, Analytical Chemist, of New York, and Messrs. Boott, Garriet, & Camac, of Philadelphis, proves beyond all question, to be the most pure and consequently least injurious spirits ever offered the American public.

CERTIFICATE OF DR JAS. R CHILTON.
I have analyzed a sample of Chestunt-Grove Whiskey I have analyzed asample of Chestnut-Grove Whiskey, received from Mr. CHARLES WHARTON, Ja. of Philadelphia, and having, carefully tested it, I ampleased to state that it is entirely free from pointones or deleterious substances. It is an unusually pure and fine flavored quality of Whickey.

JAMES R. CHILTON, M. D., New York, Sept. 3, 1858.

Analytical Chemist.

DEAR SIR: We have carefully tested the sample of Chestaut-Grove Whiskey while hyou sent us, and find that it contains none of the poisonous substance known las Fezio Oil, which is the characteristic and injurious ingredient of the Whiskeys in general use.

Very respectfully,

BOOTH, CARRETT, & CAMAG,

Analytical Chemists.
