Prizz Fight out West.—The St. Louis Republican gives an account of a fight between Pat Mohell; the Tipperary Boy, and Elias O'Flagherty, near the Fair Ground, on the same day that the Morrissey and Heenan fight took place. O'Flagherty was the victor, the report closing with the following summary of the brutal work:

On the sixteth round Mohell could not come up to time, having both arms broken, two extremely black eyes, a fractured rie or two, and a head about twice its usual size, and having besides received a great loss of sensation. He was, therefore declared whiped and the money handed over to the trium phant O'Flagherty. The latter, however, thour, a declared the victor, was tolerably severely punished. His left eye was put out entirely, its collar bone had sustained two complued comminuted fractures, his five right ingers displaced from their sockets, and his mouth slit. A PRIZE FIGHT OUT WEST .- The St. Louis years.

His relatives and friends are respectfully invited to attend the funeral, which will take piece on Sunday afternoon, at 3 o'clock, from his late residence, Gay street, Manayunk, without further notice.

Vermout writes: The crops of this State have all
been harvested in good order, and, as I have
before intimated, nearly all kinds are abundant
Corn was never better, and potatoes the best, perhaps, since-the advent of the rot; the disease of
this season having proved too local and limited to
affect much the general result. The price of common potatoes, including pench blows, at the railroad depots, where almost countless loads are
daily coming in to be freighted for the city market, is twenty-five cents per bushel, and only the
childer kinds bring cight or ten cents more. Resolutions, as an evidence of our sympany, bereavement.
On motion of Mr. John Ashton, jr., Mr. Jacob M.
Ellis, Dr. Owen Osler, and Spencer Roberts were appointed the Committee.
On motion of Mr. Hiram Ward, the Committee was instructed to have the foregoing Preamble and Resolutions inserted in The Press, of this city.

\*\*PENOER ROBERTS, President.
Attest—John Ashton, Secretary 11\*\* A REMARABLE CASE.—The Somersworth (Mass.) Advantiser says: "We learn that on the 20th ult., Hiram Edmunds, of Emery's Mill, a boy some fourteen years old, fell from a hay-mow, and struck the lower part of the left side of the chest upon the upright end of a sharpened slab used as a fixture in the barn. The slab penetrated the chest, and he hung, there, some four feet from the floor, whilst his father could go and take him off. When the slab was drawn from the body the left lung followed. It soon became inflated, so that it was somewhat difficult to reduce and restore it to its proper place. This, however, was effectually done by Dr. W. Staphens, the opening closed up, and in a few days a complete recovery effected. The boy is now running about the neighborhood." ar 1st inst.

WING'S PROCESS.—WHEAT, IT IS believed, yields a nourishment better adapted to the healthful requirements of the human system through life than any other one substance known to civilization.

This nourishment is made up of those properties in

retained, as far as practicable, in all the preparations of grain for food.

WING'S PROCESS secures the highest amount of nutriment that has ever been produced from wheat

In the preparation of the material, and in the manufacture of WING'S FARINA CRACKERS, the life-supporting principle of the grain remains not deadened, or injured, as in flour by too close grinding, but retaining its most active properties, so necessary to digestion and the energ zivg force with which it imparts to the body a health ul growth or renewed rigor and strength.

The constantly-increasing demand for WING'S FA-RINA CRACKERS, with the commendatory remarks of parents, teachers, and physiciaus, is strong proof of the healthful and beneficial results which have attended their use.

acir use. WING'S ORACKERS have a pleasant taste, act kindly wing some act with the aged, as well

upon the stomach, and for dyspeptics or the aged, as well as sedentary and delicate persons generally, they are most acceptable.

It is believed that there never has been anything introduced equal to WING'S FARINA CHACKERS as a healthful nourishment for children.

In purchasing, it should be borne in mind that there are no genuine Farina Crackers made but by Mr. Wing. His are the only Orackers manufactured in the United States containing the true qualities of Farina.

All other so-called Farina Crackers are imitations. Take none, therefore, for Farina but those having the name of "A WING" stamped on each cracker.

WING'S FARINA CHACKERS may be procured of the best family grecors generally, by whom they are extensively sold in different portions of the United States, and at wholesale only of

REMOVAL. WARNER, MISKEY, & CO., HAVE REMOVED TO THEIR NEW STORE, 718 CHESTNUT ST., ab. SEVENTH, civilization.

This nourishment is made up of those properties in grain chemically known as raccharine matter, gluten, &c. The saccharine matter contributes most of the nourishment, and contains also an active principle which, when received into the stomach as a component of bread, aids digestion.

These great nourishing and invigorating properties of grain produce, under the action of heat and by the aid of certain machinery, a most powerful stimulant. If such a product can be extracted from grain by artificial mean, the invited account is given by a product the actual properties of grain, as another than a product the control of the human stomach. Living the control of the human stomach. It seems, therefore, that this is an indispensable property of grain, as a nourishment, given to it for the most beneficent purpose, and consequently should be grain of the control of the cont SOUTH SIDE.
