SEA SHEILL PATENT GAB-BURNING GOOKING BTOVES. They are economical, consuming
the gas and smoke that are usually wasted; durable by having double intead of single plates; and convenient, naving large overs and being ready bakers.

Our new patented DOUBLE-OVEN STOVE is the best constructed up-draft stove ever invented. It will heat a large boiler of water, boil two dinner pots, broil a beefsteak, bake bread and pies and rosat meat, all at the same time and with a fingle fire.

Invalids, and all persons who appreciate the influence of verilated apartments upon health, will be pleased with our POETABLE GRAYES and MODEL FRANKLIN STOVE³, which are of beautiful and ornamental patterns, and give a cheerful, open fire, and thorough ventilation.

Strict aconomists will be satisfied with our SILVER'S GAS-OONSUMING PARLOR STOVES. Many of the so-called gas-burning stoves introduce cold air to the top of the fire, the effect of which is to cool the stove and waste the fuel, precisely as if a store door was opened above the fire. In a true gas-burning stoves, the air should be heasted, in a hot-air chamber, to a temperature anfileient to ignite the gases, on the same principle as is adopted in our gas-burning cooking stoves.

In addition to the above, a large assortment of Parlor Cooking Stoves, Portable Heaters, Gooking Stoves, of overy description, Gas Ovens, Stove Fittures, and Repairs may be found, in every variety, at our Warcrooms, No. 209 North SECOND Street, above Race ocil-ti Lie Full Aber High Port Of Price with please of the control of the Theodorie Paristel T

OUEEN'S PORTABLE FORGE.

Doubtless many of our city readers, in passing the gangs of workmen employed in laying down some of the passenger railroad tracks in our streets, had their attention stracted to a portable forge, with bellows and everything complete, and in efficient service. These forges, built upon the plan secured by O. V. Queen's patent, are for sale at the commodious, long-established, and deservedly popular Blove, Kange, and Farnace establishment of WARNIOK, OHAD. WIOK, & BROTHIER, corner of SECOND and RAOE Streets, who have the sole right for the sale of Queen's Portable Forge in Pennsylvania.

There are, we believe, we sizes of this forge, ranging in price from twenty-two to forty-four dollars—a sum so small, when contrasted with its merits, as to secure its general introduction; for any one who will for a moment consider the advantages of this forge, which may be removed from place to place, so as always to be on the spot where workers in iron or other metals are to perform service, whether in original construction or repairs, will at once concede its great-efficiency, and arrange for its possession and wise. The adaptability of this forge to repairs to railroads and mining machinery especially commends it to railroad companies and operators in the mining districts. We, therefore, take pleasure in calling to it the attention of road masters, and perintendents of mines, and others.—[From the United States Railroad and Mining Register. In fuel and also more intense heat thrown to the bottom of the oven. We effect the burning of the gases by means of a hollow centre-piece, perforated on the under side, which admits the air in a heated state to mingle with the gases, thus siding its communities of the gases, thus siding its communities of the gases, thus siding its communities of the gases, the siding its communities. This improvement also preserves the centre-piece from rinking down on the fire, thereby saving the expense of repairs. One of the Stoves OAN BE BEEN IN OPERATION at 1116 MARKET Street. Private instruction, though favorable to rapid progress, yet sends the scholar into the foold with a keen sensitiveness, which totally disqualifies him for active life; whilst attention to many oftentimes forces the instructor to meet general difficulties rather than those personal to each individual, and the learner either loses all interest, or becomes superficial in his acquirements. For these and other reasons the number is limited.

CHESTNUT GROVE WHISKEY.—A deairs to lessen the consumption of impure spirits,
knowing their injurious effects upon the constitution,
has induced the offering to the public of an article
which the analysation of Professor Chilton, Analytical
Chemist, of New York, and Messrs. Booth, Garrett, &
Camac, of Philadelphia, proves. beyond all question, to
be the most pure and consequently least injurious spirits
ever offered the American public.

OERTIFICATE OF DR. JAS. R. CHILLTON.
I have analysed a sample of Chestant-Grove Whiskey,
received from Mr. CHABLES WHARTON, Ja. of
Philadelphia, and having carefully tested it, I am
pleased to state that it is entirely free from poisonous
or deleterious substances. It is an unusually pure and
fine flavored quality of Whiskey,
New York, Sept. 3, 1858.

PHILADELPRIA, Sept. 9, 1858. DEAR SIE: We have carefully tested the sample of Chestant-Grove Whiskey which you sent us, and find that it contains none of the poleonous substance known ins Fusic Oil, which is the characteristic and injurious liggedient of the Whiskeys in general use.

Very respectfully,
