Indeed, the British steamer Gorgon had arrived at Diverpool, from Fayal, having been employed in taking soundings. It seems that, as indeed, was expected from the first, the electrical" communication "cannot be relied upon, from shore to shore, for a distance so great as, say 2,000 miles, between Newfoundland and Ireland.

It would appear that the present purpose is to rnn the Cable from Trinity Bay to Fayal, and thence to the English Chapnel, (South ampton, probably being the terminus,) and thus dividing the continuity. Of course the laying of this Cable, or any other, cannot be proceeded with until next year. Indeed, on the principle of Mrs. Glass's celebrated rethe consequences.

Lord DERBY, however, has made one mistake about the United States, owing to a high sense of courtesy towards PALMERSTON. Sir WILLIAM GORE OUSELEY, who spent such s time at Washington, and has lately departed to trouble the waters in Central America, was appointed by Lord PALMERSTON, whose constant aim has been to get such territorial pos-

Lord DEnny should have recalled this diplomatic creature of PALMERSTON'S, as soon as ever his own stay in office appeared permanent. He did not so withdraw him, and may yet have to rue
