The loca-tion of the Company in the neighborhood of the ex-tensive Bonded Waschouses at Lombard S rest, and the many large Slores along the Wharf, where the most ob-silmate fires generally occur, renders it important that they should be possessed of this great improvement for extinguishing fires. Our experience as firemen teaches that a large body of water, quickly and judiclously ap-piled, will frequestly prevent hund destruction of pro-party from fire and water. We would also say that, during an existence of over a hall century, this Com-pany have never, until this year, asked or received any aid from their fellow-citizens in the form of subsorip-tions, and they would not new ask it, if their means were adequate to purchass anch an Engline as is re-quired.
