Fortunately, we had for our conductor one who was well acquainted with the locality, and who could tell us where to lock and what to see; what to admire, and where to be anihusiastic. "and where to sland upon the American eagle," as he where to stand upon the American egite. How in which is it said to nave kept his papers. How many anxious, Ditying looks, were dait by him out-of these very windows, through which we looked so gally now! and how, many doubts and heavy fears assailed his sad heart, laden with forebodings, as he watched those famished wrethes deploying Mashington, "that it is a much easier and less distressing thing to draw remonstrances in a come fortable room, by a good fireside, than to county, a cold, blest, hill, and sleep under freet and snow, without clothes and blaskets." How could be with heart so bitterly wrung, inspire these men with endurance and courage sublime enough to bear this extremity of misery, without prospect of alienation, but death—doubtful if it were death of glory of one of rebellion?

"Rebellion! foul, dishonoring word.

Yes, though it was robellion for many a year with the mother country, it was glory to them when success crowned their efforts and the land was won. No marval, that she grieved over the fair land torm from her grasp, and rejoting in a was won. No markel that she grayed over the fair Isadi tom from her grast, and rejoicing in a newer and more glorious freedom than had ever dawned on any land beneath the sun. And still this land is rejoicing in that large, freedom which at first was regarded as a fearful experiment, but proved to be a blessed certainty in these years which have extended her bounds from the Atlantic to the Pacific; and north and south, till all climates and washardons are allike neity to the Stakes of o the Paolis, and north and south, till all climates and productions are allike usifive to the States of the Union.

Perhaps, though there was no general engagement, more mind lost their lives and suffered, more from the bloody and incessant skirnishes between the containing contreless as they beared mere from the bloody and incessant skirnishes between the containing contreless as they beared more from the bloody and incessant skirnishes between the containing the English to Philadelphia. Certainly in war, such interfered the transfer of household furniture, do., on Wednesday and SE more desirably to the tragical state of attacks as revice. Or sings to the fact of, no general engagement having taken place, but few cannon balls were found; but several were shown to us by the persish who occupied the founds in weare also shown the hold; but is it was moderaited it did not convey at much pleasure to us as the other unalword field; but his convey as moderates as any other house in this city.

Yet we could not but think of the dreary count cits he idd in that parior; of the hopeless gezing into one another ages as all seemed lost, and the fearful looking forward to a shameful death if taken by their enemies.

And amid this darkness arose a bright ray for them when France acknowledged our independence, and sent a feet and army to aid, in the struggles The said the joy was boundless in the camped Valley Forge. The day, of rejoicing was unkered in with "prayers and hymns of joy and praises with shouts from those enfeebled lungs; with parade in tatters, yet glorious with the newfound manile of hope, with multio's cheerful strain, and no munded death folls to mar its hismory, with roaring artillery, and leaden rain that brought no blood or tears save those of joy to hisgard, unken eyes?

But why aned we follow the samy when it left Valley Forge and pursued the English to the memorable field of Monmouth? The tale is told in the history and an another accounts. The content of the proposal present the serving of the proposal proposal proposal proposal in the serving of the proposal propos one another's yes as all seemed lost, and the fearful looking forward to a shamoful death if taken

But why need we follow the army when it left.
Valley Forge and pursued the English to the memorable field of Monmouth! The taid is told in the
history of our country; it is a glorious page, with
nothing to dim it but our own tears, which must
fall thick and fast as we read the record of further trials and sufferings and bloody stringgles;
ending with the surrender of Joy newallis, at

SOMETHING NEW.—GAS BUR-SOMETHING NEW.—GAS BURNING COCK STOYE.—I would respectfully call the attention of the public to one of the greatest improvements ever introduced in Gooking Stores and Runges—the burning of the gas arising from the coal, by which means its saved 50 per cent. in fuel and allo more intense heat thrown to the bottom of the cven. We effect the burning of the gasse by means of a hellow centre-piece, perforated on the under side, which admits the air in a heated state to mingle with the gass, thus sliding its combustion, and causing a flame topass around the oven equal to a wood fire. This timprovement also preserves the centre piece from sinking down on the fire, thereby saving the expense of repairs. One of the Stores CAN BE SEEN IN OPERATION at 1116 MARKET Street. Manufactured by JAMES SPEAR, Inventor and Patentes, (late North, Chase & Korthi) 1116 MARKET Street.

Private instruction, though favorable to rapid progress, yet sends the scholar into the was waste a keen seasitiveness, which totally disqualifies if for active life; whilst attention to many oftentimes forces the instructor to meet general difficulties rather than those personal to each individual, and the learner either loses all interest, or becomes superficial in his acquirements. CHESTNUT GROVE WHISKEY.—A desire to lessen the consumption of impure spirits, knowing their injurious effects upon the constitution, has induced the offering to the public of an article which the analyzation of Professor Chilton, Analytical Chemist, of New York, and Messrs. Booth, Garrett, & Camse, of Philadelphis, proves, beyond all question, to be the most pure and consequently least injurious spirits ever offered the American public.

OERTIFICATE OF DR JAS. R CHILTON.

I have analyzed a sample of Chestnut-Grove Whiskey, received from Mr. CHARLES WHARTON, Js. of Philadelphia, and having carefully tested it, I am pleased to state that it is entirely free from poisonous or deleterious substances. It is an unusually pure and fine flavored quality of Whiskey.

JAMES R. CHILTON, M. D.,
New York, Sept. 3, 1858. Analytical Chemist.

PRILADRIPHIA, Sept. 9, 1858.

DRAR SIR: We have carefully tested the sample of Chestnut-Grove Whiskey which you sent us, and find that it contains none of the poisonous substances known fas Fasic Oil, which is the characteristic and injurious ingredient of the Whiskeys in general use.
