CITY ITEMS. REMOVAL -In another part of our paper, to-day, will be found the advertisement of Mr. Bamuel H. Matt.

aon. (Merchant Tallor,) amounting the removal of his

place of business from the places formerly occupied by

him—Obestuit alrest, above Minth—to No. 1126 Obestnut street, third door below Twelfth His occupancy of the quarters he has just left—in obedience to the in-evitable law of our city, that "Westman the course of empire takes its way " was continued through nearly a score of years, during which time the superior character of the workmanship executed at his establishment, has secured to him a yery large share of first class, patronege. Having been admitted to an advance glimpse of his splendid new rooms, yesterday, we may congratulate their proprietor. upon really having sequred a place of business in all respects worthy of his reputation as a princely caterer for the outer-wants of the 1 hysical man. These rooms are select, convenient of location, and fitted up to a nicety, with in thing to designate them externally other than new quarters. MEETINGS AND LIECTURES THIS EVENING.—The auniversary cratica before the Alumni of the Law Department of the University of Pennsylvania will be deparament of the ball of the University, by the Hon. Wil-liam M Mercalith, this ovening. For obtaining tickets see advertisement.

Béfore the Feople's Literary Institute; in Concert Hall; Bayard Taylor, Ed, will deliver his new lecture on the subject of 'Life in the North.' This theme, in the hands of Mr. Taylor, will, doubtless, be invested "How to MAKE HOME HAPPY."-By our anabove subject, at the church, Six's enth and Goates atreets, on to morrow evening. Those who have never heard this lecture should not fall to embrace this opportunity, as it is one of that gentleman's finest lecture-board efforts. The proceeds will be for the benefit of the Hedding Methodist Efiscopal Church. LEGRURES ON GEOLOGY. -A course of illustra ted lectures is 'now' being delivered at the Hell of the Union Cooper Institute, on the subject of "Geology, and the Calural History of Orestion," by Dr. Boynton. As the subject is one officer interest, and the lecturer being theroughly acquainted with its various phases, these lectures cannot be too highly recommended to inquiring minds.

The VALUE BY A RISS — The court room in Danbury, Conff. was crowded, on Thursday, to see jus tice done between a lady and goutleman from Wes port, the former chiming to have been damaged \$6,000 by a hiss from the latter. The breach was finally healed without the aid of lawyers. Speaking of breaches re-minds us of the fact that ellegidic gargaents for gentle-men and youths are always to made at the Brown Stone Clothing Hall of Boakhill. & Wilson, Nos. 603 and 605 Obstitute Hall of Bockhill's Wilson, 1808, 603 and 605 Obstitute street, above Bixth.

The Tiddes.—The regular flowing and obbing of the sea, known as tidde, twice in every twenty four hours, is proceed by the stiffetion of the Bun and Moon, the power that Moon being to that of the Bun and Moon, the power that Moon being to that of the Bun and woon, to one. The proceed with the attraction offered to purchasers of Fashighand Ohithing, at the palatial store of Granville Stokes, Fo. 607 Obsethuit street, over that of all competitors in the tailoring fart. The readers of The Freez are particularly harded to make a note of it. Tag Cirr or Judbo, the capital of Japan, is said to be, without exception, the largest city is the world, as it is said to contain 1,500,000 dwellings, and 5,000,-700 lubabisatis, and, with all its untold wealth, has not, at the present time, in it a clothing establishment like unto E. H. Eldeldge's "Old Franklin Hall Clothing Emporlum," # 6 821 Chestout street. Importations. [Reported for the Press.]

"This is a very thorough and interesting work. It
abounds in information, given in a clear and vigorous
style. Professor Schaff is himself a celebrated German
scholar, and has the best qualifications for giving reliable instruction upon the subjects of his work. With
most of the evangelical theologiaus, of whom he gives a
spirited sketch, he was personally acquainted. A characteristic portrait of Dr. Neander is given. American
readers will enjy very much this familiar introduction
to men whose writings they have so much admired, and
to those celebrated seats of learning, whose influences
for good and for oril, has been so attensively feit, in
