while the poorer part of the population were in France-starved and bad, fasting in winter, while the poor part of the population wave starving in the midst of plenty, and failing away in a climate that seemed capable of bestswing the most stalwart strength, the great body of them still clung to one thing, and that was hope. What was religion but hope brought back to the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor and afficted 7. They were failed at the poor afficience the mud cabins in the bog; but often when the last vation. Farming is now keeping pace with spark had died out in the turf on the cabin improved slock, labor gets its reward, and the floor, when the storm was beating around it, poor-rates, the most fearful burden that ever and the rain penetrating overy chink and pressed upon a people, are gradually vanish-cranny, there was a brighter light in that miserable hat to cheer the desolate inmates ompire."

than could have been communicated by the Add to this the results obtained from Irish dazzling splendors of a palaco. He alluded statistical returns. Compare the quantity of to the famine and fover which had desolated wheat and potatoes grown in Ireland in 1858, the land-sufferings borne with unexampled with the quantities grown in 1855, and there pationco. Then came the turning point in is an increase of a quarter of a million of the history of the country, and from that acres, and from one to two millions of pounds time they had to date for it the commence- in the value of the produce of the soil. In ment of a bright future. Three changes might be said to have occurred in that period. One was the emigration which naturally took its of Ireland, worth £33,053,478 in 1855, is worth origin in the desolation and poverty in which £34,276,175 in 1858. These atigmontations the great bulk of the population was plunged ; of value and increase bear out what Cardinal another was the change in the system of agri- WISEMAN and other good authorities say-that culture ; and the third was the letting loose of from being the most wretched people in Eu. property to pass into the hands of those who, | rope, the Irish have become one of the hapaccording to the laws of nature, ought at least piest and most prosperous.

Emigration, he said, had bettered the con-Tariff Authorities—No. 3. dition of those who left Ireland, as well as of Having given to our readers the opinions of hose who remained dwollers in the land. As BUCHANAN, JACKSON, and MADISON, in their for the present agricultural condition of Irecharacter of statesmon, and as they applied land, the Cardinal said that during his recent their doctrines in the trying times of 1812, visit he had noticed, in many parts, a regular | 1828, and 1824-the great epochs of the disrotation of crops, and had seen fields of vari-ous kinds of agricultural produce far more ef-add now the testimeny of FRANKLIN and JEY cussion, in Congress and in the country-we fectually tilled, and in a more promising con- FERSON, as economists and citizens. They dition, than he had seen in England before he might be quoted as theorists to the same purwont or since he had returned, though it might | port; but we prefer to present them now as be without that finish which obtained in Eng-land. So, also, with the cattle, it was not practical privato men, speaking from their hearts and homes to the home feelings of their only greatly improved, but the whole system

countrymen :

and. So, also, with the cattle, it was not on which it was broad and managed totally charged for the botter.
on which it was broad and managed totally charged for the botter.
On the effects of the Encumbered Estates to Court, (which we illustrated yesterday by an imaginary natrative of The O'Dowd,) Cardinal WisEskay's opinion onlirely agrees with our own. He said "it was woll known that for a ges the land of I rolaud was comparatively in the hands of a few; that the landlords held large tracts of country; and that if thoy entropy as the said of a few; that the landlords held large tracts of country; and that if thoy entropy interest to rise occapation from the starving poor, it was not altogether in they did so. There were so many outgoing from the land that frequently the owners of lordly domains were themselves little botter is not the fract purchases inder the hand being thrown into the market, which had a so in the course of a few years, a new would invest their savings in real properiy; and that is neal properiy in the start for provisions, some do not increase at the would and the the grouped nating and there so many outgoing from mere mot twes of speculation, who in the end would and the their system, where many bought from mere mot system, where many bought from mere mot would invest their savings in real properiy; and that started ne a magnificent career of dave a system would invest their savings in real properiy; and that stardesmon in towns would invest their savings in real properiy; and the courter as that appende.
To wo become the course of a few years, a new would invest their savings in real properiy; and that started on a magnificent career of dovolors. The second the area in the day would be interest of all our farmery and fragables. They were welowing if its is the interest of all our farmery and in The St. Potersburg Northern Bee publishes an s

The St. Petersburg Northern Bec publishes an ac-count of the re-establishment of the relations between the Bussians and Churres, on the 26th of August, at Schorgnutschken Kou'dga, in Western China, and the solomn inauguration of the consular factory. Notwithstending heavy fronts, navigation was still open at St. Petersburg on the 10th inst. Tho quantity of tailow exported was 112 000 cakes: A rumor was circulating in Italy to tree effect that the Emperor of Bussia, in order to make bits matitue po-sition at Villa Frances more effectual, desired to pur-chase the principality of Monaco, which in students to the refused by the Prince of Monaco. The Bussian ambasador to Japan had arrived at Marsollies with an advantageous treaty which he had succeeded in negoliating. The Emperor Alexander had addressed the mobility of Moscow in grave and, severe terms on the apathy they have displayed in reference to the abolition of serfician. LATEST.

and respectative race of frameworks and respectative race of anong us from dis-spring up. Ireland, in fact, from the touch of that Fatherly Hand, sovero as it had appeared, had started on a magnificent career of dowolop-ment which promised more even than any one would venture to presage. The people as he saw them were now healthy in appear-ance as a body, and substantially clothed, while no feeling akin to abjection, the result of past destitution, llugered among them. Wherever he wont he saw in the great bulk of the people a warmth and an expansion of heart totally different from what was found in other accountries. There was a spontaneity of ex The garrison of Beyrout had been sent against the asurgents. The disorder in the Libanus had been appeared by the Bishop.

totally different from what was found in other countries: There was a spontaneity of ex prossion—a facility of giving utterance to their thoughts, and a brilliancy and a poetry, which pervaded the whole of the peasantry, which pervaded the whole of the peasantry. The smile on their countenance was bright and cheering, the light of the eye was not only brilliant but most tender, and during his stay he had often had occasion to observe among large congregations of the people that kind of natural gentleness of bearing which was peou-liar to them." From Cardinal WISEMAN'S testimony in fa-vor of the prosperity of Ireland, we turn to other evidence. Monsieur A. p'ABMADIE, a landed proprietor in the Basses Pyrénées, which may be main a stay in the prodibitory duties we lay on all articles of foreign manufacture which product du the material de-
