SOMETHING NEW.—GAS BURNING COOK STOYE... I would respectfully call the attention of the public to one of the greatest improvements ever introduced in Cooking Stores and Rangos.—the burning of the gas arising from the coal, by which means it is saved 50 per cent. in fuel and also more intense heat thrown to the bottom of the oven. We effect the burning of the gases by means of a hollow centre-piece, perforated on the under side, which admits the air in a heated state to mingle with the gasses, thus aiding its combustion, and causing a flame to pass around the oven equal to a wood fire. This improvement also preserves the centre piece from sinking down on the fire, thereby saving the expense of repairs. One of the Stores OAN BE BEEN IN OPERATION at 116 MARKET Street. THE LIVER INVIGORATOR PREPARED BY DE SANYOND,
COMPOUNDED ENTIRELY FROM GUMS,
Is one of the best Purgative and Liver Medicines now
before the public, that acts as a Cathartic, easier,
milder, and more effectual than any other medicine

then on the stomach and bowels to carry off that mat;
ter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and, when taken
dally in moderate doses, will strengthen and build it up
with unusual rapidity.'
