We would condently recommend this boek to the notice of all young people. It is written in a style which, is intensely interesting, and no one can commence the book and lay it down unfinished. To parents we would say, that the author's long intercourse with mence the book and lay it down ununears. As pro-we would say, that the author's long intercourse with children, as a teacher, has given him an insight into "child character," which few writers of juvenile books ever acquire. The tendency of the book is to inculcate Truth, Integrity, and Perseverance; and no child can read the book without being amused, instructed, and benefited.
