An Extensive Stock of OIL PAINTINGS, WATER-COLOR DRAWINGR AND ENGRAVINGS,	Monday, expecting a defence of Lord Mel- bourne and his colleagues, a bitter attack on the King, and a scathing reproof of Queen Adelaide for interfering in politics. On the contrary, they found The Times as thoroughly Conservative as if it had been the thick-and- thin advocate of Toryism for years, and ap- parently oblivious of the fact that it had it- self been the great channpion of the "liberal" principles which it now strongly condemned as rovolutionary. Every paragraph in the paper was carofully written or selected with the purpose of being consistent in the Con- servatism which The Times had now suddenly assumed. The foreign correspondence of The Times has long been remarkable for its ability, full- ness of information, and careful accuracy of dotails. Latterly, indeed, some of its imme- diate rivals have taken large strides towards equality in this department. The actual circulation of The Times, grest as it is, does not represent the number of per- sons by whom that journal is read. Its cost	the disasters of fire and otherwise, they have un- orpectedly found themselves in as prosporous con- ditions as ever, without knowing who to thank for the generosity. In that eity a poor carter had his horse drowned in the basin. A day or two after, uponcoming out of his house in the morning, he was surprised and delighted to find a beautiful gray horse harnessed up, and waiting for him. SINGULAR ACOIDENT.—ON Wednesday last MTZ. Warren Fishor, Jr., was shopping in Daniels & Co.'s store, in Summer street. Boston, and was inspecting some goods in the back part of the building, which is lighted alone by heavy glass plates. While she was thus occupied an avalanche of scow and ice fell from the roof of the store, and striking upon the glass, broke a number of the panes into innumerable pieces, one of which, pointed and keen as a razor, penetrated the lady's right ide, between her hip and lower rib, cutting through clothing and fiesh, and inflicting a fright- ful wound, to such dept that a portion of her in- testines protruded. The lady was immediately conveyed to the residence of her father, a promi- nent physiolan, and at last accounts she was in a most artifical condition. A BALTIMOREAN FAVORED BY FORTUNE.—A lump of gold weighing forly-five ounces, and worth \$775, was taken out on Sunday, 15th December, from Mechaeu & C.'s claim, in Illineis Ganon, just above Poker's Flat, Sierra county, California. It was found according to a Maysville paper, by Mr. James Harris, of Baltimerz, who had not been over a, week in the country. It had several pick marks on it, as jif the depensitue by other parties.	these gigantic intellects whose initioned has snaken the ibrones of the earth, and dared, with Titanic subition; the heavens themselves The heart must be impressed that the intellect may be refined and purified; the social virtues are the first that develop the embryo man; to feel antecedes the capacity to think; the heart must feel a genial glow before the mental power can accomplish its full destiny. However modified by circumstances, dependent upon conventional usage, or directed by forms of government, these subtle and unlimited faculties will form the true and consistent man. But regarding man as merely an intellectual ma- ohine, doomed to perform an allotted task, discon- meted from his relations to his fellow-man, in refe- rence to his own advancement, and that of the com- manity in which he lives only as subordinate to his own plans—the structure of his mind must be built up in accordance with the principles of action that are to be his future guides, and with that form of government and independent. The sones are not to be the mere vehicles of sensuous pleo- sure, but the mind must be taught to examine, analyze and deduce from the objects presented those lessons that will promote the aim of its am- bition. Familiarity with classical names, or the dall superficial recitation, is not familiarity with classi cal literature, neither is a plethora of matter forced upon the brain, intellectual development. History is either a mere record of the visce and fabilia	<ul> <li>motor's Aneo, was the honesta simplicity of the Christian Newton a stinging rebuke to their arrogant protensions. The actual circulation of The Times, grest as it is, does not represent the number of per- sons by whom that journal is read. Its cost (ten cents for each copy) keeps it beyond the reach of the multitude, who are unable to pay thirty-two dollars per annum for it. Yet, as all Londoners must read The Times, the plan adopted by the newsmen is as follows : They commence receiving their supply, for London circulation, about seven A. M., and from that time until five P. M., hire out the paper to be read at two cents per heur, by regular sets of customers. These copies are sent into the country that evening by the mails, being sup	<ul> <li>The dissisters of fire and otherwise, they have un- oxpectedly found themselves in as prosporous con- ditions as ever, without knowing who to thank for the generative. In that eity a poor carter had his horse drowned in the basin. A day or the after upon coming out of his house in the morning, he was surprised and delighted to find a beautiful gray horse harnessed up, and waiting for him.     SINGULAR ACOIDENT.—ON Wednesday last M73. Warren Fisher, Jr., was shopping in Daniels     Co.'s store, in Summer street. Boston, and was inspecting some goods in the basin, and waiting for him.     Singuran Acoident, Jr., was shopping in Daniels     Co.'s store, in Summer street. Boston, and was inspecting some goods in the bask part of the     building, which is lighted alone by heavy glass     plates. While she was thus occupied an avalanche     of sow and ice fell from the roof of the store, and     striking upon the glass, broke a number of the     pones into innumerable pieces, one of which,     pointed and keen as a razor, penetrated the lady's     right side, between her hip and lower rib, cutting     through clothing and fieth, and inflicting a fright-     tion ducen as a razor, penetrated the lady was     inned intoly     conveyed to the residence of he store, a prom-     nest physiclan, and at last accounts she was in a     most aritical condition.     A BALTIMOREAN FAVORED BY FORTURE.—A     lump of gold weighing forty-five ounces, and worth     \$775, was taken out on Sunday, 15th December,     from Mechaac &amp; Co.'s claim, in Itlineis Ganon,     int about Pokor's Flat, Sterra constry, Californin,     it was found according to a Maysville paper, by     Mr. James Harrin, of Baltimers, who had not been     orver a weak in the country. It had several miners     have not fertunate enough to furt.     The     mines in and about Pokor's Flat are paying well     generally. It is stated that soveral miners have     left or the States from Poker's Flat, during the     pasher here heres. Boton's Junk over a stre</li></ul>	these gigantic intellects whose influence has snaken the ibrones of the earth, and dared, with Titanic sublition; the heavens themselves The heart must be impressed that the intellect may be refined and purified; the social virtues are the first that develop the embryo man; to feel antoedes the eapacity to think; the heart must feel a genial glow before the mental power can accomplish its full destiny. However modified by circumstances, dependent upon conventional using, or directed by forms of government, these subtle and unlimited faculties will form the true and consistent man. But regarding man as merely an intellectual ma- ohine, doomed to perform an allotted task, discon- meted from his relations to his follow-man, in refe- rence to his own advancement, and that of the com- munity in which he lives only as subordinate to his own plans—the structure of his mind must be tuilt up in accordance with the principles of action that are to be his future guides, and with that form of government under which he lives, so as to produce positive results. The perceptive faculty must be quickened—a thinking being must be the event, self-roliant and independent. The senses are not to be the mere vehicles of sensuous plon- ure, but the mind must be taught to examine. analyze and deduce from the objects presented itose lessons that will promote the aim of its am- bition. Familiarity with classical names, or the dall superfield recitation, is not familiarity with classi- cal literature, neither is a plethora of matterforeod upon the brain, intellectual development. History phy tenching by example." In the exact sciences the mind refaces to act, to be instinctive with life, if not under the influence of comprehension, and it will experience a permisions effoot from the cruching weight imposed upon it. Under any pather system the superficial will accolude the colif, and men be judged by the range of country they have hurriedly traversed, rather than by the accurse of their observation; the specious will be regarded as the sub	<ul> <li>Industry and the housest simplicity of the Christian Newton a stinging rebuke to their arrogant protensions. While she was thus occupied an avalanche of soow and ice fell from the roof of the store, and striking upon the glass, broke a number of the panes into innumerable pieces, one of which, pointed and keen as a razor, penetrated the lady's right side, between her hip and lower rib, cutting through clothing and flesh, and inflicting a fright- ful wound, to such depth that a portion of her in testines protruded. The lady was immediately conveyed to the residence of her father, a promi- nent physiclan, and at last accounts she was in a most aritical condition.  A BALTISIONEAN FAVORED BY FORTUNE.—A lump of gold weighing forty-five ounces, and worth \$775, was taken out on Sunday, 15th Bacematr, from Mechane &amp; Co.'s claim, in Illineis Canon, just above Pokor's Flat, Silerra county, California. It was found according to a Maysville paper, by Mr. James Harris, of Baltimera, who had not been over a, week in the country. It had several pick marks on it, as fit thed beenstruck by other parties, who wore not fertunate enough to find if. The mines in and about Pokor's Flat are paying well generally. It is stated that soveral miners have left for the States from Poker's Flat, thering the coashier of the Farmer' Du</li></ul>	these gigantic intellects whose initioned has snaken the ibrones of the earth, and dared, with Titanic sublition, the heavens themselves The beart must be impressed that the intellect may be refined and purified; the social virtues are the first that develop the embryo man; to feel anlocedes the capacity to think; the heart must feel a genial glow before the mental power can accomplish its full destiny. However modified by circumstances, dependent upon conventional using, or directed by forms of government, these suble and unlimitan- faculties will form the true and consistent man. But regarding man as merely an intellectual ma- otine, doomed to perform an allocted task, discon- neoted from his relations to his follow-man, in refo- rence to his own advancement, and that of the com- munity in which he lives only as subordinate to his own plans—the structure of his mind must be utilt up in accordance with the principles of action that are to be his future guides, and with that form of government under which he lives, so as to produce positive results. The perceptive faculty must be quickened—a thinking being must be the event, self-rollant and independent. The senses are not to be the mere vehicles of sensuous pleo- sure, but the mind must be taught to examine analyze and deduce from the objects presented those lessons that will promote the aim of its am- bition. Familiarity with classical names, or the dol superficial recitation, is not familiarity with classi- al literature, noither is a plethora of mattor forcon upon the brain, intellectual development. History playe hurriedly traversed, rather than by the crushing weight imposed upon it. Under any other system the superficial will oxolude the could it will experience a permisions effoot from the orathing weight imposed upon it. Under any playe hurriedly traversed, rather than by the nature of our laws to enter at an early age upon the practical, we have its listence to with life, it no under the influence of comprehension, and of up depole, young and vigorous	<ul> <li>motor is an end of the binest of the structure of the structure of the binest of binest binest of binest binest of binest bin</li></ul>	<ul> <li>S103,369; interest certificates unification (ing. \$23,- 357.12; interest certificates unoistand (ing. \$23,- 357.12; interest, \$1,050,220 08 The in- debt, \$133,959. Interest, \$1,050,220 08 The in- debt start, becember 1, 1857, \$39.881,735 22; ac- tual reduction during fiscal year, \$392,404.55.</li> <li>LUNBER TRADE OF CHICAGO.—The Chicago Press and Tribune says that the lumber trade, during the past year, has been very much de- pressed The heavy shipments of 1857, being fol- iowed by a general stagnation of business, owing to the monetary crisis, left us, on the 1st of Janu- ary last, with an immense stock on hand, and very little demand, either from the interfor or by the sittle demand, either from the later of 1.000 feet. The manufacturers, however, did not recover from the depression, and not more than one third of tha amount sawed in 1857 was turned out doring 1858. Nor, indeed, could they have done se with any.adi- vaning or profit to themselves, even had they out the logs; for, at the prices which ruled here, un- less the mills were very economically run, man- facturers could rearcely clear expenses. The ro- ceipts during 1858 were 185,618,602 feet less than they were in 1857.</li> <li>DISTRESSING SUIGIDE.—We learn that a dis- tressing case of suicide occurred near Mount Plea; sant, Washington county. Pa, on Tuesday of last week A man named William Lafferty, who had been for several days laboring under a melancholy induced by impending peomiary difficulties, took a rife and left his place of abade with the ostensi- site and left his place of abade with the ostensi- sters of age, and respected by all who knew him. A strakte For wAGES has taken place on the Chicago and St. Louis Railroad, the em- ployees of which have received no pay for six months Two trains were 'stopped recently, and the passengers were obliged to return to their starting point. No. 26 South FOURTH Street. FAILadous Court of the A GALL AND	DY HIE DIPRESSION OF PHILA OF PHILES, DESCRIPTION OF EVENT DESCRIPTION, ORDER, DESCRIPTION, ORDER, DILL-HEADS,	FOR BOLD AND RAPID WRITING IT HAS NO EQUAL. A fresh supply of this SPLENDID PEN Just received, on cards and in boxes of one dozen. For sale to the trade only, at the Manufacturor's Ware- house. HENRY OWEN, Agent, 91 JOHN Street, New York. Full supplies of all popular numbers now on hand. d18m&wiw E. NEWLAND & CO., LOOKING-GLASS AND PIOTURE-FRAME MANUFACTURERS, WHOLESALE AND SETAIL. An Extensive Stook of OIL PAINTINGS, WATER-COLOR DRAWINGR AND KNGRAVINGS, All at very Low Prices, 604 AROH ST., ABOVE BIXTH, PHILA. dT-Bm MANILA AND JUTE ROPE, CORDS, TWINES, ETC:	Monday, expecting a defence of Lord Mel- bourne and his colleagues, a bitter attack on the King, and a scathing reproof of Queen Adelaide for interfering in politics. On the contrary, they found The Times as thoroughly Conservative as if it had been the thick-and- thin advocate of Toryism for years, and ap- parently oblivious of the fact that it had it- self been the great chanupion of the "liberal" principles which it now strongly condemned as revolutionary. Every paragraph in the paper was carofully written or selected with the purpose of being consistent in the Con- servatism which The Times had now suddenly assumed. The foreign correspondence of The Times has long been remarkable for its ability, full- ness of information, and careful accuracy of details. Latterly, indeed, some of its imme- diate rivals have taken large strides towards equality in this department. The actual circulation of The Times, great as it is, does not represent the number of per- sons by whom that journal is read. Its cost (ten cents for each copy) keeps it beyond the reach of the multitude, who are unable to pay thirty-two dollars per annum for it. Yet, as all Londoners must read The Times, the plan adopted by the newsmen is as follows: They commence receiving their supply, for London circulation, about seven A. M., and from that time until flvo P. M., hire out the paper to be read at two cents per heur, by regular sets of customers. These copies are sent into the country that evening by the mails, being sup- plied to subscribers at a deduction on the usual London price. Thus a single copy of The Times will be read in six or eight families every day, and thence pass into a new circula- tion in the country. It deserves to be noted as a curious fact,	<ul> <li>The dissisters of fire and otherwise, they have un- expectedly found themselves in as prosporous con- ditions as ever, without knowing who to thank for the generosity. In that eity a poor carter had his horse drowned in the basin. A day or two after, uponcoming out of his house in the morning, he: was surprised and delighted to find a beautiful gray horse harnessed up, and waiting for him. On the contrary, they found The Times as thoroughly Conservative as if it had been the thick-and- thin advocate of Toryism for years, and ap- parently oblivious of the fact that it had it- self been the great chanupion of the " liberal" principles which it now strongly condemned as rovolutionary. Every paragraph in the paper was carofully written or selected with the purpose of being consistent in the Con- servatism which The Times had now suddenly assumed. The foreign correspondence of The Times has long been remarkable for its ability, full- ness of information, and careful accuracy of dotails. Latterly, indeed, some of its imme- diate rivals have taken large strides towards equality in this department. The actual circulation of The Times, great as it is, does not represent the number of per- sons by whom that journal is read. Its cost (ten cents for each copy) keeps it beyond the reach of the multitude, who are unable to pay thirty-two dollars per annum for it. Yet, as all Londoners must read The Times, the plan adopted by the newsmen is as follows : They commence receiving their supply, for London circulation, about seven A. M., and from that time until flov F. M., hire out the paper to be read at two cents per heur, by regular sets of customers. These copies are sent into the country that evening by the mails, being sup- plied to subscribers at a deduction on the usual London price. Thus a single copy of The Times will be read in six or eight families every day, and thence pass into a new circula- tion in the country. It deserves to be noted as a curious fact, that by an unrepealed English statute, (29 George III, c. 50.) the londing out a news- paper, for hire, is declared to be a misde- meaner at law, punishable by a summary con-	<ul> <li>The disasters of fire and otherwise, they have un- expectedly found themselves in as prosporous con- ditions as ever, without knowing who to thank for the generative. In that eity a poor carter had his horse drowned in the basin. A day or the after upon coming out of his house in the morning, he was surprised and delighted to find a beautiful gray horse harnessed up, and waiting for him. SINGULAR ACODENT.—ON Wednesday last MT3. Warren Fisher, Jr., was shopping in Daniels 4 Co.'s store, in Summer street. Boston, and was inspecting some goods in the bask part of the building, which is lighted alone by heavy glass plates. While she was thus occupied an avalanobe of soow and ice fell from the roof of the store, and striking upon the glass, broke a number of the pointed and keen as a raxor, penetrated the lady's right side, between her hip and lower rile, cutting through clothing and fiels, and inflicting a fright- ful wound, to such depth that a portion of her in- testines protrudod. The lady was immediately conveyed to the residence of her father, a promi- nent physiolan, and at last accounts she was in a most critical condition.</li></ul>	these gigantic intellects whose initioned and snakes the thrones of the earth, and dared, with Titanic sublition, the heavens the melves The heart must be impressed that the intellect may be refined and purified; the social virtues are the first that develop the embryo man; to feel anlocedes the capacity to think; the heart must feel a genial glow before the mental power can accomplish its full destiny. However modified by circumstances, dependent upon conventional usige, or directed by forms of government, these suble and unlimitan- develop the embryo man; to feel and unlimitances, dependent upon conventional usige, or directed by forms of government, these suble and unlimita- faculties will form the true and consistent man. But regarding man as merely an intellectual ma- otine, doomed to perform an allotted task, discon- neoted from his relations to his follow-man, in refo- rence to his own advancement, and that of the com- munity in which he lives only as subordinate to his own plans—the structure of his mind must be upilt upin accordances with the principles of action that are to be his future guides, and with that form of government under which he lives, so as to produce positive results. The perceptive faculty must be quickened—a thinking being must be the event, self-rollant and independent. The senses are not to be the mere vehicles of sensuous plo- ure, but the mind must be taught to examine analyze and adduce from the objects presented those lessons that will promote the aim of its am- bition. WHARVES. nol7-2m FIRST PREMIUM AWARDED BY THE FRANKLIN INSTITUTE, NOVEMBER, 1858, TO TRB WEST PHILADELPHIA STARCH-MANUFACTURING COMPANY FOR THEM UNBIVALED	Monday, expecting a defence of Lord Mel- bourne and his colleagues, a bitter attack on the King, and a scathing reproof of Queen Adelaide for interfering in politics. On the contrary, they found The Times as thoroughly Conservative as if it had been the thick-and- thin advocate of Toryism for years, and ap- parently oblivious of the fact that it had it- self been the great chanupion of the "liberal" principles which it now strongly condemned as revolutionary. Every paragraph in the paper was carofully written or selected with the purpose of being consistent in the Con- servatism which The Times had now suddenly assumed. The foreign correspondence of The Times has long been remarkable for its ability, full- ness of information, and careful accuracy of details. Latterly, indeed, some of its imme- diate rivals have taken large strides towards equality in this department. The actual circulation of The Times, great as it is, does not represent the number of per- sons by whom that journal is read. Its cost (ten cents for each copy) keeps it beyond the reach of the multitude, who are unable to pay thirty-two dollars per annum for it. Yet, as all Londoners must read The Times, the plan adopted by the newsmen is as follows: They commence receiving their supply, for London circulation, about seven A. M., and from that time until flvo P. M., hire out the paper to be read at two cents per heur, by regular sets of customers. These copies are sent into the country that evening by the mails, belug sup- plied to subscribers at a deduction on the usual London price. Thus a single copy of The Times will be read in six or eight families every day, and thence pass into a new circula- tion in the country. It deserves to be noted as a curious fact, that by an unrepealed English statute, (29 George III, c. 50.) the londing out a news- paper, for hire, is declared to be a misde- meanor at law, punishable by a summary con- viction by a magistrate, with a penalty of five pounds sterling. This enactment was passed to <i>protect</i> newspaper	<ul> <li>The dissisters of fire and otherwise, they have un- expectedly found themselves in as prosporous con- ditions as ever, without knowing who to thank for the generativy. In that eity a poor carter had his horse drowned in the basin. A day or two after, upon coming out of his house in the morning, he was surprised and delighted to find a beautiful gray horse harnessed up, and waiting for him.     SIMOULAR ACODEEXT.—ON Wednesday last M73. Warren Fisher, Jr., was shopping in Daniels     Co.'s store, in Summer street. Boston, and was inspecting some goods in the bask part of the building, which is lighted alone by heavy glass plates. While she was thus occupied an avalanobe of soow and ice fell from the roof of the store, and striking upon the glass, broke a number of the pointed and keen as a raxor, penetrated the lady's right side, between her hip and lower rile, cutting through clothing and fiels, and inflicting a fright- ful wound, to such depth that a portion of her in- testines protruded. The lady was immediately conveyed to the residence of her father, a promi- ment physiolan, and at last accounts she was in a most critical condition.     A BALTIMOREAN FAVORED BY FORTUNE.—A lump of gold weighing forty-five conces, and worth \$\\$775, was taken out on Sunday, 15th December, from Mechaeu &amp; Co.'s olsim, in Illincis Ganon, just above Pokor's Flat, Sterra constry, California. It was found according to a Maysville paper, by Mir. James Harris, of Baltimers, who had not been over a weak in the country. It had several pick space we not fertunate enough to find H. The mines in and about Poker's Flat, during the past few monthe, with Hitle fortunes.     DEATH OF AN ESTERED CITIZEN.—The lanester (Pa.) <i>Express</i> says: "We regret to an- nounce the death of Henry R. Reed, Esq., late oashire of the Farmers' Bunk of Lancester, while took place at his residence in Prince street, this (Montay) morning. Mr. Keed suffered from a sovere attack of paralysis, some time previous to his resignation.as cashier, and has not be</li></ul>	these gigantic intellects whose influence has snaken the ithrouse of the earth, and dared, with Titanic sublition; the heavens themselves The heart must be impressed that the intellect may be refined and purified; the social virtues are the first that develop the embryo man; to feel antocedes the capacity to think; the heart must feel a genial glow before the mental power can accomplish its full destiny. However modified by circumstances, dependent upon conventional usage, or directed by forms of government, these subtle and unlimited faculties will form the true and consistent man. But regarding man as merely an intellectual ma- ohine, doomed to perform an allotted task, discon- meted from his relations to his fellow-man, in refe- rence to his own advancement, and that of the com- manity in which he lives only as subordinate to his own plans—the structure of his mind must be built up in accordance with the principles of action that are to be his future guides, and with that form of government under which he lives, so as to produce positive results. The perceptive faculty inst bo quickened—a thinking being must be the event, self-roliant and independent. The soness are not to be the mere vehicles of sensuous pleo- sure, but the mind must be taught to examine, analyze and deduce from the objects presented uporficial recitation, is not familiarity with classi- cal literature, neither is a plethora of matter forced upon the brain, intellectual development. History is other a mero record of the vices and follid of our race, of dates and eras, or it is "philoso- phy tenching by example." In the exact sciences the mind refuses to act, to be instinctive with life, if not under the influence of comprehension, and it will experience a permicious effoct from the cruenking weight imposed upon it. Under any older system the superficial will exclude the solid, and men be judged by the range of country they have hurriedly traversed, rather than by the nature of our laws to enfort ata easity sage upon the pacitos, we have lit	<ul> <li>monopilations, and the honest simplicity of the Christian Newton a stinging rebuke to their arrogant protensions. They were forced to recogniss—         <ul> <li>The hogy habit of obdisency."</li> </ul> </li> <li>Man must worship either the one true God or lostheome deities like those of Egyptian mythology. The farther he wanders from the pure and simple teachings of his God, the more inevitably is he lost in the marse of speculation. The prosent genoration should be in advance of the preceding, and form a more secure and salient point for the fature.</li> <li>You will require all your faculties in the struggle that is before you—your imagination, reason, indgment, the scounding shaft of Apollo, as well as the pure out of liserates, the keen seimitar of Saladin, and the poworful weapon of Richard. All may not be great, in the world's conception of the transition is but 'it is in every one's power so to order his literary occupations as to make them subservient to his moral improvement, to the strengthening of his own solemn convictions." Mare selfsh considerations have a wasting influence upon the soul; the excitement of political life, the pursuit of wealth for more sensual pleasure, ambition in any form, oven the pursuit of knowledge for its attimulating effects. But education, in its comprehenive sense, strengthens, supports, and elevates. Knowledge is, in this country, essentially power. Upon you much of public opinion will rest, and public opinion is here omnipotent. Units the practical with the splittual ; let them, like the fabled scores of Loda, impart mutual life and immertality; let no partial theory exhaust year, powers, either in study or stail to their poscessor. Application to the acative practice of virtue, to a rule of conduct founded upon the positive law of right, not upon the negative law of right, not upon the negative law of incluence. So found, and purity the heart. The harmonicus blending of reas n and impuses will be conder the negative law of</li></ul>	<ul> <li>Stor, 22; interest certificate unlished ung, 523, -357.72; interest certificate unlished to the standard of the s</li></ul>

The heavy shipments of 1857, being followed by a general stagnation of business, owing to the monetary crisis, left us, on the 1st of January last, with an immense stock on head, and very little domand, either from the interior or by the oity. In the month of February, however, dealers saw the necessity of reducing the prices of lumber, and from that time up to the close of the year, common lumber sold freely, at S088 per 1,000 feet. The manufacturers, however, did not recover from the depression, and not more than one third of the amount sawed in 1857. Was turned out doring 1858. Nor, indeed, could they have done so with any adivaning or profit to themselves, even had they out the logs; for, at the prices which ruled here, unless the mills were very economically run, manifacturers could rearcely clear expenses. The roceipts during 1858 were 1886,618,692 feet less than they were in 1857.</li> <li>DISTREESING SHUDEK.—We learn that a distressing case of suicide acourted near Mount Pleai, sant, Washington county, Pay, on Tuesday of last week. Manufactured and for sale at the lowest New York prices, by WEAVER, FITLER & CO., No. 23 N, WATER Street, and 22 N. WHARVES. D017.2m FIRST PREMIUM AWARDED BY THE PRANKLIN INSTITUTE, NOVEMBER, 1856, XO THE WEST PHILADELPHIA STARCH-MANUFACTURING COMPANY FOR THEIR UNBIVALED PEARL STARCH	Monday, expecting a defence of Lord Mel- bourne and his colleagues, a bitter attack on the King, and a scathing reproof of Queen Adelaide for interfering in politics. On the contrary, they found The Times as thoroughly Conservative as if it had been the thick-and- thin advocate of Toryism for years, and ap- parently oblivious of the fact that it had it- self been the great champion of the "liberal" principles which it now strongly condemned as rovolutionary. Every paragraph in the paper was carofully written or selected with the purpose of being consistent in the Con- servatism which The Times had now suddenly assumed. The foreign correspondence of The Times has long been remarkable for its ability, full- ness of information, and careful accuracy of dotails. Latterly, indeed, some of its imme- diate rivals have taken large strides towards equality in this department. The actual circulation of The Times, grest as it is, does not represent the number of per- sons by whom that journal is read. Its cost (ten cents for each copy) keeps it beyond the reach of the multitude, who are unable to pay thirty-two dollars per annum for it. Yet, as all Londoners must read The Times, the plan adopted by the newsmen is as follows : They commence receiving their supply, for London circulation, about seven A. M., and from that time until five P. M., hire out the paper to be read at two cents per heur, by regular sets of customers. These copies are sent into the country that evening by the mails, being sup- plied to subscribers at a deduction on the usual London price. Thus a single copy of The Times will be read in six or eight families every day, and thence pass into a new circula- tion in the country. It deserves to be noted as a curious fact, that by an unrepealed English statuto, (29 George III, c. 50.) the lending out a news- paper, for hire, is declared to be a misde- meanor at law, punishable by a summury con- viction by a magistrate, with a penalty of five pounds sterling. This enactment was passed to <i>protect</i> newspaper	<ul> <li>The dissisters of fire and otherwise, they have un- expectedly found themselves in as prosporous con- ditions as ever, without knowing who to thank for the generosity. In that oily a poor carter had his horse drowned in the basin. A day or two after, uponcoming out of his house in the morning, he. was surprised and delighted to find a beautiful gray horse harnessed up, and waiting for him. SINGULAR ACOIDENT.—ON Wednesday last MT3: Warren Fisher, Jr., was shopping in Daniels &amp; Co.'s store, in Summer street. Boston, and was inspecting some goods in the baok part of the building, which is lighted alone by heavy glass plates. While she was thus occupied an avalanche of sow and ice fell from the roof of the store, and striking upon the glass, broke a number of the panes into innumerable pieces, one of which, pointed and keen as a razor, penetrated the lady's right side, between her hip and lower rib, cutting through clothing and flesh, and inflicting a fright- ful wound, to such depth that a portion of her in testines protruded. The lady was immediately conveyed to the residence of her father, a promi- nent physician, and at last accounts she was in a most aritical condition.          <b>A</b> BALTISIONEAN FAVORED BY FORTUNE.—A lump of gold weighing forty-five ounces, and worth         \$775, was taken out on Sunday, 15th December, from Mechane &amp; Co.'s claim, in Illineis Canon, just above Pokor's Flat, Silerra count, California.         <b>t</b> was found according to a Maysville paper, by Mr. James Harris, of Baltimera, who had not been over a, week in the country. It had several pick         parks on it, as fit the dheenstruck by other parites,         who wore not fertunate onough to find if. The mines in and about Pokor's Flat are paying well         generally. It is stated that soveral miners have         left of the States from Poker's Flat, during the         past few monthe, with little fortunes.         DEATH OF AN ESTERMED OTTIZEN.—The         Lanoster (Pa.) <i>Ezpress</i> Says : "Wo regret to an         nono</li></ul>	these gigantic intellects whose initioned and snakes the thrones of the earth, and dared, with Titanic sublition, the heavens themselves The heart must be impressed that the intellect may be refined and purified; the social virtues are the first that develop the embryo man; to feel anlocates the capacity to think; the heart must feel a genial glow before the mental power can accomplish its full destiny. However modified by circumstances, dependent upon conventional usige, or directed by forms of government, these subtle and unlimited faculties will form the true and consistent man. But regarding man as merely an intellectual ma- ohine, doomed to perform an allotted task, discon- neoted from his relations to his follow-man, in refe- rence to his own advancement, and that of the com- munity in which he lives only as subordinate to his own plans—the structure of his mind must be utilt up in accordance with the principles of action that are to be his future guides, and with that form of government. However, so as to produce positive results. The perceptive faculty must be quickened—a thinking being must be the event, seff-rollant and independent. The senses are not to be the mere vehicles of sensuous plo- ure, but the mind must be taught to examine analyze and deduce from the objects presented those lessons that will promote the aim of its am- bition. Familiarity with classical names, or the dal superficial recitation, is not familiarity with classi- al literature, noither is a plethor of mattor forced upon the brain, intellectual devolopment. History is either a mero record of the vices and follid of our race, of dates and erag, or the dal superficial recitation, is not familiarity with classi- ethe mind refiges to act, to be instituctive with life, if not under the influence of comprehension, and it will experience a pernicious effoot from the oracing weight imposed upon it. On the contrary, they found The Times as thoroughly Conservative as if it had been the thick-and- thin advocate of Toryism for years, and ap- parently oblivious of the fact that it had it- self been the great champion of the " liberal" principles which it now strongly condemned as revolutionary. Every paragraph in the paper was carofully written or selected with the purpose of being consistent in the Con- servatism which The Times had now suddenly assumed. The foreign correspondence of The Times has long been remarkable for its ability, full- ness of information, and careful accuracy of dotails. Latterly, indeed, some of its imme- diate rivals have taken large strides towards equality in this department. The actual circulation of The Times, great as it is, does not represent the number of per- sons by whom that journal is read. Its cost (ten cents for each copy) keeps it beyond the reach of the multitude, whe are unable to pay thirty-two dollars per annum for it. Yet, as all Londoners must read The Times, the plan adopted by the newsmen is as follows : They commence receiving their supply, for London circulation, about seven A. M., and from that time until flve P. M., hire out the paper to be read at two cents per heur, by regular sets of customers. These copies are sent into the country that evening by the mails, being sup- plied to subscribers at a deduction on the usual London price. Thus a single copy of The Times will be read in six or eight families every day, and thence pass into a new circula- tion in the country. It deserves to be noted as a curious fact, that by an unrepealed English statute, (29 George III, c. 50.) the lending out a news- paper, for hire, is declared to be a misde- meanor at law, punishable by a summary con- viction by a magistrate, with a penalty of five pounds sterling. This enactment was passed to <i>protect</i> newspaper	<ul> <li>The dissivers of fire and otherwise, they have un- expectedly found themselves in as prosporous con- ditions as ever, without knowing who to thank for the generativy. In that eity a poor carter had his horse drowned in the basin. A day or two after, upon coming out of his house in the morning, he was surprised and delighted to find a beautiful gray horse harnessed up, and waiting for him. SINGULAR ACODENT.—ON Wednesday last MT3. Warren Fisher, Jr., was shopping in Daniels 4 Co.'s store, in Summer street. Boston, and was inspecting some goods in the bask part of the building, which is lighted alone by heavy glass plates. While she was thus occupied an avalanobe of soow and ice fell from the roof of the store, and striking upon the glass, broke a number of the pointed and keen as a raxor, penetrated the lady's right side, between her hip and lower rile, cutting through clothing and fiels, and inflicting a fright- ful wound, to such depth that a portion of her in- testines protrudod. The lady was immediately conveyed to the residence of her father, a promi- nent physiolan, and at last accounts she was in a most critical condition.         A BALTIMOREAN FAVORED BY FORTURE.—A lump of gold weighing forty-five ounces, and worth \$\\$775, was taken out on Sunday, 15th December, from Mechaeu &amp; Co.'s olsim, in Illincis Ganon, just above Pokor's Flat, 'Slerra county, California. It was found according to a Maysville paper, by Mr. James Harris, of Baltimers, who had not been over a, weak in the country. It had several pick who wore not fertunate enough to find. H. The mines in and about Pokor's Flat are paying well generally. It is stated that soveral miners have left for the States from Poker's Flat, during the past few mooths, with Hittle fortunes. </li> <li>DPATH OF AN ESTEFARED CITIZEN.—The Inanester (Pa.) <i>Ezpress</i> says: ''Wo regret to an- nonnos the death of Henry R. Reed, Esq., late coshier of the Farmer's Dank of Lancastor, which took place at his residence in Prince streed, this (Montay) morning.</li></ul>	the series of the serith, and dared, with Titanic subition; the heavens themselves The heart must be impressed that the intellect may be refined and purified; the social virtues are the first that develop the embryo man; to feel antocedes the capacity to think; the heart must feel a genial glow before the mental power can accomplish its full destiny. However modified by circumstances, dependent upon conventional usage, or directed by forms of government, those subile and unlimited fisculites will form the true and consistent man. But regarding man as merely an intellectual ma- ohine, doomed to perform an allotted task, discon- meted from his relations to his fellow-man, in refe- rence to his own advancement, and that of the com- munity in which he lives only as subordinate to his own plans—the structure of his mind must be built up in accordance with the principles of action that are to be his future guides, and with that form of government under which he lives, so as to produce positive results. The perceptive faculty must be quickened—a thinking being must be the event, self-roliant and independent. The senses are not to be the mere vehicles of sensuous pleo- sure, but the mind must be taught to examine, analyze and deduce from the objects presented these lessons that will promote the aim of list am- bition. Familiarity with classical names, or the dall superficial registion is not familiarity with classi- esi of the results of a vices and follid of our race, of dates and eras, or it is "philoso- ity ensing by example." In the exact sciences the mind refuses to act, to be instinctive with lifo, if not under the influence of comprehension, and it will experience a permisious effect from the cruening weight imposed upon it. Under any other system the superficial will exclude the solid, and men be judged by the range of country they ave shartfelly traversed, rather than by the necuracy of their observation; the specious will be reguine as the substance. The heavy shipments of 1857, being followed by a general stagnation of business, owing to the monetary crisis, left us, on the lst of January late, with an immense stock on hand, and very little domand, either from the interior or by the oity. In the month of February, however, dealers awe the necessity of reducing the prices of lumber, and from that time up to the close of the year, common lumber sold freely, at S085 per 1,000 feet. The manufacturers, however, did not recover from the depression, and not more than one-third of the amount sawed in 1857 was turned out during 1858. Nor, indeed, could they have done so with any. adivating or profit to themselves, even had they out the logs; for, at the prices which recover the recover the logs; for, at the price was Mount Pleasisant, Washington county, Pas, on Taesday of last week A man named William Lafferty, who had been for several days laboring under a melancholy induced by impending peominary difficulties, took aride and left his place of abode with the ostensible purpose of hunting. When he reached the orchard, a short distance from the house, he placed the mursle of the piece to his head, drew the trigger, and reactive the whole obargo, producing immediate death. He was a single man, about 35 years of age, and respected by all who knew him.</li> <li>A straktes For wAGEs has taken place on the Chicago and St. Louis Kall read, the wish the relaxed the mursle of the piece to his bead, drew the trigger, and reactive the whole obargo, p</li></ul>
