The plan proposed to meet the extraordinary expenditures contemplated is liable to serious objections, and cannot, we hope, receive the sanction of Congress. We are surprised that the Senate Post Office Committee should have agreed to report a bill increasing the rates of postage to five cents for all distances under three thousand miles. Such a retro-grade step would be a disgrace to an en-lightened nation. The blessings which have been resped from a cheap and speedy intercommunication among all classes of our people are so great and universal, that we are astonished to hear, from any quarter, a propo-sition to check this life-giving current of in-
