WASHINGTON, Feb. 11, 1859. The debate in the Senate on Mr. Slidell's thirty million bill, which should be entitled a bill for the purpose of provoking hostilities with Spain, has reopened with unusual animation. Unquestions bly the ablest speech made in favor of this bill was that of Senator Toombs, of Georgia. Mr. Benjamin, who may be considered one of the most accomplished filibusters in the Senate, is now on the complished fillibusters in the Senate, is now on the floor. Upon the assurance that a bold blow would be made to scoure the acquisition of Cuba, Mr. Benjamin was elected to the Senate by the Legislative of Louisiana; his friend, Mr. Sidell, a rescentive of Louisiana; his friend, Mr. Sidell, and he could not conceive how Senators can measure the could not conceive how Senators can measure the senate la should and interpretable the could not conceive how Senators can measure the senate la should and interpretable the could not conceive how Senators can measure the senate la senate in a decision of the Senate is an irrevocable in the Democratic party. As there was little or no opposition to them from the primitive and simple-looking natives of this vicinity, there are no indications of the hostile adventure remaining, except the sad tales of some who suffered from the tyranny of being pressed into an unwilling service; and, I may add, a notice written in English at the entrance of one of the churches in Realeyo, (which, I am told, is found in other churches in Nicaragua,) to the effect that strangers visiting the church are requested to remove their hats on entering, and not to smoke. III Messes. J. Burnert & Co.: I cannot refuse to tate the salutary effect in my own aggravated case o state the salutary effect in my own aggravated case of your excellent Hatr Oil—(Coccaine.)

For many moaths my hair had been falling off, until I was fearful of losing it entirely. The skin upon my head became gradually more and more inflamed, so that I could not tough, it without pain. This irritated condition I attributed to the use of various advertised hair washes, which I have since been told contain camphene spirit.

By the advice of my physician, to whom you had shown your process of purifying the Oil, I commenced its use the last week in June. The first application at layed the itching and irritation; in three or four days o fall, and I have now a thick growth of new hair.

I trust that others, similarly, afficied, will be in-
