A few months since, by one of those singular courrences which sometimes flash across the pathway of Ifle, he heard, that the lady was in Michigan, and quickly wended his way thither. After a few weeks of diligion search; the anxious lover found his dulcinea at Ypellanti, and the meeting which sanged—the twain having been separated fifteen years—is described as a fancoing in the extreme. The tribulations of the now mature lovers were over, and on the 9th inst, thoy, proceeded to Detroits, and were united in the holy bonds of wedlock. During several mosths past the ladies of attending lectures on Anatomy and Physiology, by Mrs. 8. H. YOUNG, M. D., of Lowell, Mass.

We have heard various Lecturers on these subjects, and been intrested, but while listening to Mrs. Young have realized their vital importance. Het chaste language, earnest manner, and thorough knowledge of the science of medicine, with the peculiar faculty for imparting instruction, eminently, qualify her to instruct woman in a knowledge of herself.

None can listen to her without realizing that they have gained much of good, learned much of duty, and been straugthened in the desire to be faithful to themselves by the acquisition of that knowledge which will enable them to perform with faithfulness those important duties which fall to woman in the werry day walks of life.

TUST PUBLISHED. MORALITY THE STATE.

vol. 12mo.—460 pp.—31.25.
This work discusses questions of the deepest import? What are the true grounds of Morality and the State? Is there any Obligation in the one, or right in the other? The subject is presented in a new light; the discussion entered upon in a new way. Beginning with an analysis or innium consciousness for the ground of practical morality, the writer works out into the ideases a God as the ground of objective truth—of absolute verity. The morality of man, as wan undealing the verity. The morality of man, as man underlies the State : and, therefore, if the morality of the individual s divine, so is the State. Morality and the State ar ere sought to be placed on a divine basis, and not in Paley's work-on mere expediency. The facts, as rell as the laws, of Morality are sought to be verified.
