The Post Office Appropriation Bill The defeat of the Post Office appropriation bill is, the legitimate consequence of the course of Senator Howars, of Virginia, in allowing Senator Surpart, to place his thirty. million achieve in the way of necessary legisstion. Had Mr. HUNTER refused this den and like a good basiness man, provided for the concutial wants of the Government in the only way, the important work now eft: undone would have been consummated What was this only way? Not by a load bill which is like renewing a note so as to put off, paying a debtbut by raising, the money to clear off th public burdens. Mr. Husran's plan was to refuse such a daty on foreign products a no interest would have felt, and to impose a ed, tax upon letters and newspaper that everybody would have felt. The Hou refused to sanction this odious tax. The Sensitive insisted upon it, in direct contravention of that article of the Federal Constitution which expressly declares that all revenu measures of shall originate in the House o Representatives"-[Art. 1. Sec. 7.] When a Committee of Conference struck ontthis tay and passed the Post Office bill in an unobable form, the Senate was prevented from concurring in the measure by the bit toropposition of Senators Toomas and Mason who not only demanded the right to originati revenue measures, but rebaked the House for asserting its constitutional prerogatives. No asserting its constitutional prerogatives. No thing, however, could have defeated the Post Office appropriation bill but the consumption of precious time in debating the thirty-million of prec of project, and the passionate hostility to all such a modification of the revenue system as would have licensed the receipts into the Treasury, and paid of the public debt: This statement of facts will show where the responsibility of defeating this important bill justly sitaches. Sensiors Toospe, and ow are frank men, and will accept it fearlessly.

Movement, [From the Obsiter Republean, March 4, 1869.] A letter has been received from Licutenant Beale by his family residing here, dated at Santa Fe, on the 3d of February last. He had jost re-turned to that place from Taos, where he had been upon a visit of a few days to his old friend Kit Car-son, who roturned with him Oa his arrival at San-ts Fe, he found despatches from his earny, stating that a delegation of obliefs of the Commonless-the formiduble Indian' tribe with which our Government is now at war-had come in, expressly to see and talk with him upon terms of peace and amity—that they had ritched their emp near his own, aud having condidence in him, would await his arrival, and be greerned by his ubsequent action. Carson determined to a company him to the courceli, and on the after-neon of the day they strived at Santa Fo they lett for the plains to ohnt with the "Bedouins of Ame-rics." What will be the result of the conference we shall know hereafter. We have entire confi-dence that any action on the part of Lieut Beale and Kit Garson, as far as our Governient is con-ourity, and the United States mults are frequent-ly stopped and robbed by them. Although Lieut. Beale is not invested with the "Badouins of Ame-rice in the state of the states in the frequent-ly stopped and robbed by them. Although Lieut. Beale is not invested with the peace making power, (officially.) we know his "talk" will have a greater tendency: to creats friendablip between them and our poople than could be brought about by the entire Indian times is growing out of this conference.
