Finks and Deputy Marshal Sheel proceeded to the residence of a position in named Smith; in Prince William county, Va. to arrest a boy in his em-ploy named Appleby, on the charge of illegally obtaining a letter from the post office. The boy was found, and supeared to be deeply pealent, but white the officers were in the house he silpped into the yard, and drawing a knife across his throat instantly indicated an ugly wound, and would have taken his life had not one of the

daughters of Mr. Smith seized his arm. The Petersburg Jacolligeness hays:

"Brows all that can be asteriained, jealousy on the part of young Appleby caused him to purioin the letter. Living with Mr. S., and having formed a strong attachment for one of the young indice of the homehold, he became jealous of her every act, and suspected that the preferred some other lad to himself. Finding that she had written a letter to some one, and suspecting it was to the rival, he obtained the letter from the post office, had it read and then deseroyed the Wilson's knowing who obtained the letter from the post office, had it read and then deseroyed the Wilson's knowing who obtained the letter from the Postmatter General, by whom Mr. Finks was directed to inquire into the affair, and have the guilty party punished."

A faithful chroniclare of every event conding towards progress and civilination, we publish the following from a New York paper:

towards progress and civilination, we publish the following from a New York paper.

"Heeman (the Beniots boy) has antrusted to his friends the arrangements of preliminaries for a fight with the "champton of England. He is ready for the better man whoever he may be. Tom Sayers, is the present British champton. Sayers is the fight Bill; Benjamin on the oth of April: for, \$1.000 a side, and the champton's belt. Tom fights Beh Brettle on the 20th September to \$2.000 on his own side, against \$1.000 on Boy's. Heenan's challenge goes out to Bell's Ligs by next mish. Jenny, Massey has arrived. ings of the barn-yards replaced upon farms afford but a scanty return for the important dements which are thus removed from them. The great success which the Peruvian guano met with shortly after its; introduction made it, in a great measure, the standard by which all other guanos were tested; but l seentially differs from the guanos found upor the other islands we have alluded to, in the fact that it contains a large per centage of ammonia, while the deposits of the other islands consist chiefly of phosphatic ingredients. All the deposits are originally formed from the excrement of birds ; but the Chinche Islands are in a rainless latitude, and the ammo nia of the original deposits is thus retained for a long series of years, and forms the most im portant portion of the article presented for vale to the farmer. The other guanes are de posited upon islands which are subjected, a certain seasons of the year, to very heavy

rains, which wash out their animal matter and immonia, leaving upon the islands little else than the mineral constituents which are formed chiefly from the bones of the flahes upon which the birds subsist. In some cases these guanes are found in a pulverized condi-

chemists of the day do not appear disposed t concede as great value to these guanes as their advocates claim for them, the general test mony of those who have fully investigated the if his friends should prove conquerors in the great buttle which is to come off next September. matter—among whom stands conspicuous the great master of modern agricultural chemistry Baron Linnig—and the practical experience thousands of farmers, concur in pronouncing them extremely valuable. They act upor the soil very much in the same way as ground bones; but as bones contain but about fifty per cent. of the phosphates. or 23.61 per cent. of phosphoric acid, the superior varieties of phosphatic guanos,

which contain from 80 to 90 or 95 pe cent. of the phosphates, are more valuable have no doubt will seen be demanded.

cent. of the phosphates, are more valuable road Company, had notified Mesars. Corning, Thomps son, and Garrett, the presidents of the three other son, and Garrett, the presidents of the three other son, and Garrett, the presidents of the three other son, and Garrett, the presidents of the tree other leading companies, that their repeated violations of the New York press, without distinction of men and snimals are used to form their bones; compact entered into last October had compalled him to are shipped from our shores to foreign coun tries; that the riches of our soll are constant! being washed away into the little stream which penetrate every section of the country that the sowers of great cities convey immens quantities of valuable fertilizing matter into the rivers upon which they are located, and that thus the ocean is constantly swallowing up the richest agricultural treasures of the earth: t is fortunate that a convenient arrangement has been made for replenishing exhausted soils with the invaluable ingredients of which they have been thus deprived. The fishes of the great deep scour the ocean for their allotted food; the birds in turn consume the fishes, and resort to desert islands as places for rest and incubation

while man, by making guano a merchantable article, avails himself of their labor. It has been found by an analysis of the ashes of burnt wheat, corn, rye, etc., that nearly half of that ash consists of phosphoric acid, the very substance in which bones and phosphatic guanos are particularly rich; that mineral constituents of those plants cannot be obtained from any other quarter than from the phosphoric acid, it is atterly impossible to constant cropping speedily exhausts the soil of phosphoric acid. But it has fortunately been

This subject is an important one, and well deserving the attention of our farmers. While we can well understand their intural aversion to incurring excessive expenditures, if it can be shown that these guanes can be micel Discoveries made by Telescopic Pow- by increased crops, and the improvement of their soils, to make a profit by using them, they are well worthy of their consideration. In Scotland, where farmers are particularly thrifty and intelligent, extremely large quantities of artificial fertilizers are constantly used, notwithstanding the very economical habits of the farmers, for the reason, it is alleged, that they are enabled to greatly promote their own interests by purchasing the respective varie-

Large Sale of Valuable Real Estats. Thomas & Sons' sale, on Tuesday next, 15th instant, will comprise a very large amount and va-riety of property, including valuable business stands, hendsome and plain city dwellings, eight tracts of valuable land in Minnesota, a first-class farm known as "Brookfield," Lower Merion; s farm and mill property, West Philadelphia, &c.

Letter from "Occasional."

spondence of The Press | Warch 11, 1859. auspices circumstances, and intended to be pro-ductive of great good) is a gread abortion. After infinite pains are taken to present and argue cases in the little pains are taken to present and argue cases in the country, and the cases are lightened jurists in the country, and the cases are carried up to Congress with the endorsament of the order in the country, and the cases are carried up to Congress with the endorsament of the country, little or no headway as imade. They are state that Prince Napoleou was resolved by as simple, it is a speech on Italian on the 20th. He is made in a speech on Italian on the 20th. He is with their most wines which is unpathizes that could be said, are expected to become lobby million rations of delayer taken to the contract of the country is the country of the co agents, while those who have been defeated in the court go before Congress to endeavor to secure a reversal. I regret to say that the "Court of Claims" is not a success.

The Postmanter of Boston, Mr. Nathan Capon, has got Bimedit into a difficulty, which more than

eracy, and was appointed under the present Administration, greatly to the surprise of the Demo-Mr. Seward is steadily pushing his claims for a Presidential nomination. He has extensive con-nections in the Republican ranks, and, sithough not agreeable to a large class of his party, will it is supposed, command great strength because of his consistency on the anti-slavery platform. The National Era, in this city, may be regarded a his more immediate organ, and the New Yorl Evening Post as his New York month piece Mr. Thurlow Weed, of the Albany Evening Jour-nal, a shrewd and skilful tactician, who, notwithstanding he has been bitterly assailed, seems to maintain his footing, is doing all in his pewer to promote the cause of Mr. Seward. The new lovernor (Morgan of New York) is another of his b

proper time. There can be no combination in 1860 of the opposition elements that does not pay due attention, first, to the national sentiment as it exists among the old-line Whigs South, and secondly, to the American sentiment as it may be a said to exist in the opposition party all over the Union. The difficulty in uniting these two slements with the adopted citizens who are Republicans, and with the sincere Abolitionisis, must be

apparent to every one. Hon. J. W. Denver, Commissioner of Indian Affairs, has resigned that position, and will shortly sail for California. Mr. Denver is an excellent man, and the Administration has been fortunate in securing his support. It is not doubted here that he goes out to California as a sort of political apostle, to essist." the powers that be" in their war against Douglas. The reconciliation between Dr. Gwin and Mr. Denver has the appearance of sincerity in public, and the two will, no doubt, shortly after taking his seas, and Jours rethere was considerable healtancy upon the

Correspondence of The Press. I [Correspondence of The Press.]

New York, March 10, 1859.

The railroad men of the country are again stirred up by the announcement that that norrous individual, Mr. Moran, president of the New York and Erle Ralld by it. There is every probi grip and down the same will be gaves by this spign-did phrimmege; but, take for the poor stockholders! What's to become of them? The Hudson is again navigable to Poughteepele, and the locals fast breaking up as far, as Albany. There is avery prospect, in view of the copious right of the part week, of an early opening of this great artery of com-merce. The fase weather of the last two weeks is thaving out the mallic institution. On Septides less thawing out the public institutions. On Saturday last, there were 8,067 inmates of the various electmosphary

adverses of 203 compared with the previous week.

Mr. F. H Underwood, author of "Bulls and Bears"
in the Atlantic Monthly, and one of the projectors and ditors of that magazine, has retired from it, and from he publishing house of Phillips, Sampson, & Oo., with Fresh troubles are apprehended at Quarantine. The Commissioners of Emigration having received information that the Quarantine buildings at Staten Island were danger of being destroyed, Superintendent Tall in danger of being destroyed, Superintendent Tall-madge, accompanied by a number of the detective police, went down last evening to look after matters. The force remained all night, and have not, yet returned. The feeling among journeymen mechanics is still strong in favor of striking for increased wages. Last evening a large meeting was held at the Steuben House, and a resolution adopted that a demand should be made upon employers this morning for an increased wages. upon employers this morning for an increase of wages

the result of the request to be stated at a general meet-ing next Saturday evening.

Information has been received that Dr. Gaillardet, who attempted to assassinate Bir. Oranston, of the New York Hotel, and managed cleverly to escape from the custody of a policeman, has arrived in Phris. It was supposed he was in Havana, but he has not been here, having gone from here direct to Canada.

Our manufacturers are rapidly availing themselves of the new field for their handworks opened to them by our treaty with Japan. Mr. J. B. Dunham, one of the oldest plano-forte makers in New York, is preparing to send out a fine instrument in charge of Mr. Brown, a missionary. The first plano in Utah was sent from the factory of John B Duoham, and was dragged in a handcart over hundreds of miles of desert and through countless rapid streams. The sacred echoes of Palestine have

plano-fortes.

Within the last two weeks 5,300 head of cattle have been sold at the yard in Forty-fourth street, at prices varying from faile and a half to twelve and a half cents. It allued recently to the specious premises in bourse of preparation for the American Bank mote Company. Its this new corporation is one of the largest in the country, and destined to exert an important infinence the new corporation is one of the largest in the country, and destined to exert an important infinence the new corporation is one of the largest in the country, and destined to exert an important infinence the new corporation in the following premises. "Of presses there will be more than sixty, and the temployees, now scattered in various premises. will number nearly two hundred, including engravers wrinters, presumen, &c. These will all be so arranged in departments as to promote their highest children, when the proposed enlargement is completed, the Bank-Note Company will caupy one-half of the entire front on Wall street, exclusive of the basement offices, one-half of the strength of the proposed enlargement is completed, the Bank-Note Company will caupy one-half of the writer front on Wall street, exclusive of the basement offices, one-half of the survey table added. The latter will have a clear height of 18 feet, and be thoroughly highted fom all sides, to afford the hest advantages for executing the very delicate and elaborate designs employed in bank-note engraving. The windows towards the streets will be searcely visible, unless viewed from a distance, on account of the projecting entabature. The entire work will be fire-proof; the roof of derrugated from and the cost of the improvement is estimated at not far from \$40 000. The operations of the American Bank-note company or second in importance not even to the United States Mint, in their relations to the currency; and the efficiency and security, which the new arrangements will afford, for conducting the different departments will afford, for conducting the differen iano-fortes.
Within the last two weeks 5,300 head of cattle have

On the 8th instant we published a short telegraphic despatch, announcing the discovery of the remains of Mr. Thurston, the acronaut, who, on the 16th of last September, made what proved to be a fatal balloon ascension. The Toledo Blade of the 8th furnishes the particulars of the finding "On Saturday afternoon a ron of Mr. Hoag was searching in a piece of woods for some lost sheep, on a farm about six or seven miles from this city. In his search he penetrated a thicket of brushwood on a knoil surrounded by wet land, and there, at the foot of a large cak tree, he discovered articles of clothing, bones, &c., which satisfied him that a diamembered human body had beared, and notices of the date of the contraction of the date of the contraction of the c

destroyed but that their desture could be diseased but the fire desture could be diseased as the fire desture could be diseased by obtaining a same time at a could are seried.

"In the pockets of the clothing were found a Lupine silver watch; jack-knife, and a buckskin purse containing \$1.00 in another a leiter and several cards. The leiter watch white a quoted at \$1.00 is given were found in one of the cost pockets, and in another a leiter and several cards. The arrival of the brin Minatitlan at New Orleans furnished advices from Tampleo to the 28th ult.
The Tampleo bayers manifest considerable slarm at to the results of Miramon's expedition, though they consider Vera Orn; in a most prifect state of defence.
More than \$,000 men, pays the Prisma, can be considerable after the Vera Orn; at a moment's notice, in case of attack, without including the commands of General: Liave and Trejo, or the army of Osjaca numbering 1000 men now before Orleavs. All counted, the Liberals have for the defence of the city about 6 000 swalls-ble troops. On the other hand, the Prisma does not think that more than a thousand men can be spared from the cities which are now held, only at the point of the bayonet, by the Resolion or any party, and expresses the opinion that Miramon will have to depend almost entirely upon the army with which he set out from the capital.

In the meantime, the war is prosecuted with vigor all through the interior. In the meantime, the war is prosecuted with vigor il through the interior.

PENNSYLVANIA LEGISLATURE. HARRISBURG, March 11, 1859.

SENATE.
The Senate met at 10 A. M.
The bill to authorize the extension of Lehvan street, 1 Philadelphia, was reported with a favorable recomendation. in Philadelphia, was reported with a rayoracte recommendation.

The bill relative to costs passed a second reading. It gives the griminal courts discretionary powers when it the defendants are acquitted, to direct the payment of witnesses, and cost of subgrouss, out of the county finds, provided defendants are unable to pay.

The bill supplementary to the act incorporating the Western Transportation Company was passed.

The supplement to the act to exempt property from levy, sale, or execution, to the amount of \$500, was discussed up to the hour of adjournment Pending a second refailing of the bill the Senate adjourned till afternoon.

APPRENOOS RESSION

APTERNOON SESSION
The Senate met at three o'clock P. M.
The following bills were passed:
To incorporate the trustees of the Young Men's
Obritsian Association Building Association of Philadelbils. An act relative to St. Paul's Church in Philadel-

HOUSE. The House proceeded to the consideration of publ black races.

An act to prevent the defacing of bank notes.

An act relating to marriages.

The act to extend the power of prothouotaries clerks to administer cathe was passed finally. The visions apply to Philadelphia.

MASTER GENERAL, ETC.

WASHINGTON March 11.—General Denver propose to return to California by the next steamer, and thi rotion will involve his resignation as Commissioner of Indian Adairs.

The Supreme Court, to-day, announced decisions it seventeen cases, but did not deliver the opinions for want of time, and then adjourned till December next, laving cleared less than half of the calendar.

The trial of Hon. Daniel E. Slock es will not probably ake place till the week after next, the Grand Jury not bing inclined to give his case a precedence were others. The circulation of the banks througout the

Company having been accepted.

New Jersey Governor and Legislature on a Railroad Excursion.

Easron, March II.—The Governor and members of the New Jersey Legislature strived here at half, past 11 o'dlook and proceeded on an extra train by the New Jersey Central Railroad. They age the guests of this company, and will dine at Somerville. The object of a the visit is to inspect the new connection which will soon open a railroad communication between the New Jersey Contral and Reading and Harrisburg, Pennsylvania, and Lebanom Valley Railroads, and open a route between New York and the capital of Pennsylvania. The connecting link between Raiding and Allentown is to be opened on the first of April.

Som Somerville, N. J., March 11.—The excursion train having on board the Governor and Legislature of Raw Jersey arrived here at a quarter past 1 o'dlook. They at sopped at the various points along the line between Easton such this place. The excursioniats, numbering one bundred and eighty persons, took dinner at Fritz's Hetel. They left at half-past two o'clock for Elizabethort, and, after a short excursion on the bay on a steamboat, returned to Treaton vis the Oamden and Amboy railroad.

The Post Office Department. Washnoron, March 11.—Hon. R. H. (Illet, who has been for a long time connected with the Law Department of the Government, has published an argument to show that the revenues of the post office establishment can be applied, after June next, to pay for transporting the mail, and for other expenses of the department, notwithstanding the failure of the Post Office appropriation bill. riation bill.

The Wanderer's Africans. The Telegraphic Slander Suit, The Tolegraphic Slander Suit, New York, March 11—Mr. F. O. J. Emith, the chief owner of the Morse Boston Telegraph, was to day arrested at the sult of D. H. Craig, Esq., agent of the New York Associated Press, for Ilbel, and has been held to bail in \$10 000, by order of the Superior Court of this city, to answer the charge.

The Fry Divorce Case. HARRISBURG, March II — The House Committee on Divorces, at their meeting last night, agreed to report a bill divorcing Emily L. Fry, late Emily L. Grigg, from her husband, Horace L. Fry. The report has not yet been submitted to the House.

Markets by Telegraph. NEW ORLEANS, March 10—The steamer's news received at noon, caused great firmness in the Cotton market, without improving quotations. The sales today were 27,000 bales at 11% for middlings Sugar market dull at 6%. Pork firm. Ontice steady at 10% on 11% for Rich. Outton freights to Liverpool have advanced 1-16, and now quoted at 1%.

OHARLESTON, March 10—Cotton—Eales to-day 1,800 bales; sales of the week 12,000 bales. Priors have advanced 10%. Good middlings are now quoted at 12% of 28%. At the auction sale of Teas to day, the catalogue con-tisted mostly of greens, and full prices were obtained. BIXINNER, Barch 10—Cotion quiet; the sales to lay amounted to only 300 bilss. The sales of the week are estimated at 4,750 bales. The receipts during the ame time at 4 550 bales. The total receipts of the sea-ton amount to 870,000 bales. The stock in port amounts

THE CITY.

Be See Eirst Page. THE WASHINGTON MONUMENT.—That we are about to have a monument erected on the site where, the corner-tenne was laid some years ago seems to be decided. Every year our city is increasing in proseport and beauty and we shall soon stand pre-eminent for the number and elegade, of our public edifices. A plan has lately been shown to us by Mr Scherr, this city, of singular elegance and originality. It is proposed to build a monumental tower—177 feet high—to be compared wholly of fron. It is a beautiful specimen of architecture, and is a harmonious mixture of the several order; the Coriuthian perhaps predominating. It commends itself no less by its solidity and durability than its tasteful design, whilst to the utilitarian it cannot fall to give spinfaction. It, will be no less useful than ernamental, and possesses acasem for the ears well as the eye. THE WASHINGTON MONUMENT.-That We tarian it cannot fall to give satisfaction. It will be no less useful than ernamental, and possesses schaimfor. The cares well as the processes and wide spread view of the surrounding country—the almost celestial mesion of the surrounding country—the almost celestial mesion in the topmost arch—the gusing waters of the fountains which will adora its base—surely a more attractive piece of refort for cities in and stranger could not be imagicad. That, the plan is fessible caused be doubted, and whith it will require several thousand tons of iron for its completion, it will furnish employment to a large number of workmen. The music may be heard at a great distance, and it is so simple, in the mechanism by which it is produced, that any one may regulate it, and cause it to perform the mest difficult places with article carotiness. The plan must be seen to be appreciated.

The Degree of the produced of our country country is a supercolated.

THE DETECTIVES .- A perusal of our court reports will suggest one very pertinent thought in relation to our detective system of police. We refer to the conviction and sentence of a gang of burglars, and the alleged swindler who was immortalized in our city column a day or two ago, as the perpetrator of a frand on Messer. Farr and Thompson, by means of a check forged with the name of George lipipucott & Co. The arrest of these knaves; their speedy rial, and the arrest of these knaves; their speedy rial, and the arrest of these knaves; their speedy rial, and the arrest of these knaves; their speedy rial, and the arrest of these knaves; their speedy rial, and the arrest of these knaves; their speedy rial, and the arrest of these knaves; their speedy rial, and the sufficient of the control reports will suggest one very pertinent thought in re-A DARING ACT.—About top; o'clock last night, a daring and unsuccessful attempt to take life or

or villains, near the northern texnaints of the Secondstreet Passenger Railway line. The car was driven by
"Oaptain Joe," a well-known driver, who was startled
upon driving along that point of the road, by two or
three piatol-shuts, which were evidently designed to
take effect either on his person or that of the conductor, they being the only two persons on board the
car at the time. The horses became frightened at the
reports and started off at a briek rate, which left the
villains far behind, and frustrated their evil design.
Fortunately, both the conductor and driver; though
considerably frightened, escaped injury.

KINED,—James Call was arrested yesterday
afterndon in Elebh streat new Sanson by Office. afterndon in Eighth street, near fansom, by Officer Kerr, on the charge of violating the ordinance which Herr, on the charge of violating the ordinance which prohibits the running of wheel-barrows on our sidewalks. He was taken before Alderman Oglo and paid the usual fine of two dollars, after which he want on his way in not the most amiable humor. James however is not so much to blame in the matter, in our opinion, as his employers, who probably availed them selves of this mode of transportation for the sake of saving the pittance which would have sufficed to pay any of the numerous expressmen of our city for carrying the articles to their desired locality.

LARCENY.—A man named Frederick Jaranis was taken before Alderman Ogle yesterday afternoon, on the charge of breaking open the drawer of a bureau, at the realdence No. 118 Christian street, and taking therefrom a gold witch, chain and seals, valued at \$250; the property belonged to the offender's grandmother, He was committed to prison in default of ball, to answer the charge at court. TEMPERANCE SERMON.—Rev. D. B. Cheney will deliver his second sermen on "The Pred gal Son," on Sabbath evening, at 7½ o'clock, in the church Twelfth street, above Race. This sermon will be deli

ered under the auspices of the Jasper section I. O. O f H. and T. All other sections of the temperance of HEARING WAIVED .- William Murphy, who is charged with the murder of George Neal, on the teamboat Peytona, has waived a hearing on the tharge, and a final commitment was lodged against him by the Recorder yesterday. Accordent.—A man named William Mascher fell from the roof of a back kitchen in the Nineteenth ward, yesterdey afternoon, and broke his right arm. He was taken to his residence in Cumberland street,

below Frankford road. A desperate attempt to escape from the Cincinnati jail was made on Tuesday last. It seems that the jailor was about to enter the cell of one of the priseners, when Rooney Cheeseman, large, muscular rascal—who awaits trial before the United States Circuit Court for counterfeiting —leaped upon him savagely, and strove to floor him. McLean fought desperately, but feeling he must be overpowered, perhaps murdered, he en-After passing several private bills, the Senate addressed to draw his pistol, when Cheeseman journed till Monday. The failer, however, by a dehead, and the ball merely ploughed up the skin or e left his dangerous keeper and retreated to his eli. Meantime: Abe Cross, a desperate characte in his hand, shouting to his nestiting will "Come on! come on!" The turnkey met him at the door and struck him a heavy blow with his bunch of keys, failing, however, to knock him down. Cross assailed him furiously, and the turnkey was obliged to retreat, Cross following him to the outer entry of the jail. At that instant the

the outer entry of the chain gang appeared, and Officers in charge of the chain gang appeared, and Oross, not being seconded as he expected, beat a hasty retreat to his cell, gotting rack to quarters while Mr. McLean was ploking himself from the loor. By the promptness of the jailor and his assistants, complete mastery was regained over the The following is the amount of coal transported or the Huntingdon and Broad Top Railroad: To hipped for the week ending Thursday, March

dispenses. aloos its great celebrity, and may be briefly described as follows: We remark, first, that its simple, pet scientific construction, is such that the saving of a very large per centage of fuel (afty per cent. is claimed for it by the patentee) is at once apparent to any one who will take the trouble to examine for himself. who will take ine irrouble to examine for himrelf. This saving is consequent, measurably, upon the thorough consumption of the gas arising from the coal, which is effected by introducing jets of heated arrover the dire by means of a range of small openings in the upper plate, which, mingling with the gases, induces combustion, and creates a flame similar to that produced by a wood fire, which flame, in its passage around the direct of the Valeys, throws a vigor trigon.

produced by a wood fire, which flatte, in its passage around the flues of the 'range, thrown a more intense heat into the ovens than can be produced by any nongas-consuming range now in use. The openings in the hollow centre plate '(in which lies 'the great feature of the improvement) facilitate this operat on to a nicety, allowing as they do the free ingress of cold air, which becomes heated in 'its 'passage,' and finally escapes through numerous small holes on the under side of this through numerous small holes on the under sub-orders of the centre pla's, which plate is the reby preserved from the dishing each seam by its own operation, without redigining each seam by its own operation, which is a supplied to be a supplied each seam by its own operation, which is a supplied each seam by it use, as all who have ever used cooking ranges at all are perfectly aware, as well as of the disadvantages of this warping tendency. With the ingenious arrangement here referred to, the fatentee and manufacturer, Mr. Spear, watrants that to such warping or sinking of the The principal advantages achieved by this inventio of Mr. Spear may be briefly stated as follows: A grea

saying of fuel; a much quicker heated and hoter oven from the same fire; the preservation of the centre plates, and a greater surface for heating water for bath-ing purposes than any other range now in use. All the above-named improvements have been patented, and we may safely predict for Mr. Spear an immense sale o we may salely predict for art. Spear an immense sale of them during the coming season. From Western papers we see that his great gas-burning cooking storp is being introduced into general use in Pittsburg and Cheinnati, and other places through the West. Anniversary Services -The first sermon a

the American Mechanics' Hall, corner of Fourth as George streets, was delivered a year ego, on the 14th o March. During the year the meetings have been wel autiained, and at the present time are in a flourishing condition. During the year dergymen of all, the Evangelical denominations have preached on the fabbath, and the prayer meetings have been of an interesting character during the week. As a result of the of the year have been \$231.48, while the experses have been \$189.98 Two collections have been granted to objects calculated to do good—the American Tract Society, and the Home Missionary Scolety—amounting t \$114 £0, which, being deducted from the amount re ceited, adding expenses of the year, leaves the perso in charge short \$23 05. We see by the advertisament that on to-morrow afternoon Mr. Geo. J. Mingling will that on to-morrow atternoon are, the . J. aningins will occupy the stand. Mr. Mingins is a duept speaker, and is one of the number converted at the Test: He will speak of the truth and power of the Religion of Christ. "WOMAN AND HER WORK."-This will be the subject of a lecture to be delivered by the Rev. E H. Chapin, D D, at Concert Hall, on next Wednesday evening, the proceeds of which will he for the beneft of the Union Temporary Home This, we are authorized to say, will be the last opportunity afforded to our

ollizens of hearing this truly sloquent man during the present season; though we need scarcely add this, as it seems to us a crowded house would await him, at twen-twilve cents a ticket, if he were to appear before a Philadelphia audience once a fortnight the year rous In this occasion it will be advisable to procure ticket NUTRICIOUS AND PALATABLE, -- If parents would confine their expenses for the gratification of their children's palates, to weekly, bi-weekly, or tri-weekly urchases of the wholesome confectionery manufactured and sold by Mesers.
