In Bootor will have advantages over bis opponents in the vast amount of patronged enlighted on his side; but he has some small burdens to carry, which I propose to refer to...In the great debate which took place in the some so the solution of Education De Gwill ful members of society, and thus earning re-munerative wages; appears to have been the great moving cause of the crimes of most of the Senate, on the 24th of February, Dr. Gwin the senate, on the senate of reorusiy, Dr. udge of 207 of the convicts of 1858, 187 had never Donglas, but also to the principle so sloquently been apprenticed, but their employers be-need to any trade, 16 had been advosted by that Senator, and sessential to the apprenticed, but their employers be-ascentancy to day. Let me call your attention to the following extract from Dr. Gwin's remarks in that debate: He said that "If the Senator from filinois had given the same interpretation as he now does to the Kansas Nabraska bill, when that question was before the Senate, I (he) never should have voted for it, and I undertake to say that ceny i 6 for burglary and larceny; 15 for bur there is not a member of this body who voted for glary, 6 for torgery; 6 for rebbery; 24 for the bill at the time, with the exception of the glary ; 6 for forgery ; 6 for rebbery ; 24 for giary, b tot torgery ; b'ior respery ; 22 10 the bit at the sine optimized to complete the second state of tempting to pass them ; and two for horse-stealing. Thus, over three fourths of the crimes committed by the convicts sent to the peni-

"I do say," said Judge Douglas, "that the records show a concurrence of sentiment on the original passage of the Nebraska tentiary in 1858, consisted in unlawful at. tempts to gain possession of property; and over bree fourths, of the criminals, through the bill in the views that Lexpressed, so far as the neglect of their parents, their unfortunate popower of the Territorial Legislature is concerned, that has conferred the whole power on the Territo rial Legislature, subject to an appeal to the fupreme Oonrt, but not with an appeal to Congress to re-peal the local legislation." Mr. Clingman (a disupon the cold charities of the world without proper training, and without having mastered industrial pursuits that would have afforded tinguished Southern Senater, who yoted for the them comfortable means of subsistence. Most Nebraska bill while a member of the other House) of the prisoners were almost as defective in orsaid, thus taking distinct issue with Dr. Gwin dinary education as in instruction in mechani-dal pursuits. Of the 588 prisoners in confinesaid, thus taking distingt issue with Dr. Gwar, that there was no other opinion expressed, from 1854 down to the election of Mr. Buchanasu in 1856, by Northern - Democrais, at variance with that of Judge Douglas. "I never," he said, ment during the year 1858, 89, when intro-duced into the prison, were altogether illite. "heard it denied but that Songress was going to rate ; 99 were able to spell and read ; 842 abandon to the Territory the power of legislatic ald read and write ; only 20 wers well eduupon the subject of slavery, and all subjects con-neated with it." Mr. Clingman went on to say, cated 1. 88 were Germans, etc., of deficient

These statistics go far to prove that de fective literary and artistic or mechanical ducation was the great moving cause that filled up with occupants our penitentiary. It is true, that many of the prisoners, as might naturally have been expected, were men of intemperate habits; and some will, perhaps, prefer to draw the conclusion that intemp rance was the cause of their crime. The sta listics on that subject are as follows : Total

abstinents 18; moderate drinkers, 286; occasionally intoxicated, 144; often intoxicated, 140 ; total, 588. The system of discipline in the Eastern

Politentiary contemplates not morely the great struggle gave birth to many evidences of punishment of the criminals, but, as far as patriotism, many specimens of elequence; it ossible, their reformation ; and the report is full of testimony showing that in a great measure these efforts are successful. The isoners are taught useful employments and trained to habits of labor. Besides, their edustional condition is not neglected ; for, under the charge of their teacher, and moral instruc. tor, their mental and moral faculties have undergone great improvement. Of the 588 prisoner 11858, only 485 were introduced, in what is ermed good mental health, while, in confine-Mr. Mason (another of Dr. G win's present coadjument, after they had become fully under the influence of the prison discipline, 468 are stated to have attained that condition ; 6. were much improved mentally; and there was thus a decided increase of mental improve-ment in 89 cases. Of those introduced into the prison, 8 were insane ; 4 were occasionally insane ; 4 were occasionally afflicted with ab-<text> sence of mind, and 4 with unsound minds. In confinement, 5 became insane ; 6 were im-proved ; 8 were afflicted with occasional abseries of mind; and 5 were mentally unsound. The physical condition of the prisoners was greatly improved; only 868 were introduced in good health. In a state of confinement, 889 njoyed good health ; 172 were sick and cured and there was thus an increase of health in 198 cases. The whole, number of prisoners who died in the institution during the year 1858 was eight, and their diseases were, in nearly every case, of such a character that it is evi-dent their lives were rather prolonged by the cire of the prison physician than shortened by their confinement. Financially, the institution, considering the important relation it bears to the criminal jurispradence of the State, is of guite an inexpensive character. The labor of the convicts amounted to \$8,484.96 less than the cost of their subsistence ; and the appropriation re-quired from the State for the payment of sala-ries, repairs, and all other expenses, is com-paratively small.
