Summer Resorts.

ANNOUNCEMENT OF THE PROPERTOR FOR THE SEASON OF 1859. THE OHIO WHITE SULPHUR SPRINGS are situated in Delaware county, 18 miles north from Columbus, (the expital of Ohio,) on the Scioto river, 10 miles from Delaware, 10 miles from the White Sulphur station, on the Fringfield, Mt. Verson, and Pittsburg Halicad, and 10 miles from Pleasant Valley or Springs; station, on the Columbus, Piqua, and Indiana Ralicodd These Springs will be open for the reception of visitors

ON THE FIRST DAY OF JUNE.

The improvements of 1859 have been large, enabling the proprietor to accommodate from five to six hundred guests. Among these improvements may be mentioned a large and elegant hotel, new cottage rows, additional buildings for amusements and recreation, extensive bath-houses, a steam laundry, £o., &c.

Upon the estate there are five Springs, all within the laws, four of which, the White Sulphur, the Chalybeate, the Magnosian, and the Saline Chalybeate, are decidedly medicinal, whilst the fifth is remarkable for the purity of its water.

THE WHITE SULPHUR

Is a beautiful Artesian fountain, situated near the rocky bank of the Scioto river. At the depth of 100 feet below the level of the Soloto, flows the remarkable for their medicinal properties. During the past season follow, during all seasons, without change or abatement, either to quality or volume, MEDIOINAL PROPERTIES.

Wor years these Springs have been lighly esteemed for their medicinal properties. During the past season their reputation in this respect has been singularly confirmed. They were administered by a physician, judiciously at to quantity, time of drinking, continuance, &c., and under this systematic plan the cures were numerous and gratifying.

As a delightful resort during the summer months, the Ohio White Sulphus Springs have no rival in the West, and but few in the United States. The location is peculisrly healthy; the Soloto here is a rapid. rocky stream; the "Oliff Limestone" a formation hundreds of feet in thickness, through which the river cuts its way, is everywhere, either at or near the surface; the grounds of the estate are beantifully undulated, and interspersed with numerous ravines which carry off all the superfluous water, thus rendering the soil dry and the atmosphere free from that humidity so prejudicial to health; these dreumstances, taken in connection with the allitude of the place, about 1.000 fest above the level of the ocean, makes the locality as free from malarions issuences as a menutain region.

'he Spring property consists of 320 acres of land, one hundred of which is covered by one of the most beautiful groves in Ohio. This woodland is handsomely laid off into walks and drives, one of the latter being two miles in extent.

BATHS.

laid off into waiks and drives, one of the latter being two miles in extent.

Bathing here, by the plan adopted, is brought into fair-competition with that at naturally Warm and Hot Springs. The water is heated in the bath tub by atoam pipes; the heat not being raised high enough to pracipitate itsaalts, it is by this system applied to the surface of the bather without the loss of its sailine ingredients.

A Telegraph Office, communicating with all parts of the country, has been established at the Springs. To be thus in connection with distant points, will be a great convenience to gentlemen who can hear from and direct their business affairs daily.

All the accessories necessary to health, pleasure and amusement, visitors may expect to find at the Ohio White Sulphur Springs, as the proprietor is determined to make it, in every particular, a first-class watering place. Gratified with the liberal patronage extended last year, no effort will be spared to merit its continuance.
