THE PULPIT.

Discourse Delivered by Rev. Gavin McMillan, of Ohio.

[Reported for The Press.]

The following is a synopsis of a discourse preached by the Rev. Gavin McMillan, of Ohio, on the occasion of the opening meeting of the General Synod of the Reformed Presbyterian Church, in the Shiloh, Broad street, below Spruce, on Wednesday evening last:

The task of delivering the opening sermon devolved upon Mr. McMillan, (as the oldest member of the Synod,) in consequence of the indisposition of Rev. Mr. Wylie, the moderator.

The discourse was delivered without notes, from the following text of Scripture:

"He shall glorify me, for he shall receive of mine, and shall show it unto you."

The divine avows here spoken of, as will be seen from the context, was the Holy Ghost, or the Spirit of Truth, and the passage in which he was introduced by the speaker was a part of that valedictory address which the Redeemer delivered to his disciples when these words were equally addressed to them and the Redeemer, in these words, was addressing one of the leading doctrines of the Christian system—viz: the anticipative.

Under the Old Testament economy, all were agreed that there was a promised Saviour to come; but under the effusion of the Holy Ghost, under the new dispensation, the world was becoming more and more agreed that the Saviour had come. In the text, though there appeared to them to whom it was addressed, it was announced that the Saviour was to suffer and rise triumphant from the dead; and it was that promise fulfilled that constituted the foundation of the Church.

From the scene of the text it was proper for us to inquire as to what were some of these things which the Holy Ghost was to receive from the Lord Jesus Christ, and show them to his followers.

First. The glory and excellency of the Divine person of the Mediator was this to be attested: in the tenth chapter of John Christ declared of "I and my Father are one." The Father, it was said, was the creator of all things by the Son; and the Church was redeemed by the Holy Ghost. The power of redemption and the covenant of God before the foundation of the world, were attributed to the former; and the resurrection of Christ from the dead; and his exaltation to the right hand of power, were to the latter. Again, it was said that the Lord Jesus Christ had been purchased from the Holy Ghost; but it was true that his mission purchased for us the Holy Ghost. The work of the Spirit was to guide us in the way of truth.

At the present day the spirit of error was manifestly at work. The first and most awful delusion that was developing Satan knew that the Church was to make the most of it. The Holy Spirit was now carrying out the work which had been given him to do, in bringing in the elect. The Spirit it was that enabled all true Christians to glorify the Lord Jesus Christ.

Lastly, he was to draw a line between a proper enthusiasm and fanaticism. The first was the work of the Spirit of Grace, but the latter was intolerable. This should be borne in mind. Unless it was the Church would soon become like a vessel at sea without a rudder.

Much of the teaching of the present day, he feared, was the impulse of sheer fanaticism. These were *not* the things of Christ; and every effort to save men through any other means than that provided in the blood of the Lord Jesus Christ was destructive in its tendency.

Our Saviour said it was in the Scriptures." It was in doing this that the Redeemer was to receive unto himself those of the nations of the world would do, as no good unless it was mixed with faith. His final admonition to his brethren was, that they should *beware of the spirit of error* as they might rest assured that all who were trying to improve upon the Gospel plan of salvation were more moved by the spirit of fanaticism than the spirit of God.

HEARTRENDING OCCURRENCE.—One of the most tragical, and, at the same time, lamentable occurrences it has ever been our painful duty to record, took place in this city on Sunday evening last. Martha, second daughter of David Keller, Esq., aged about fourteen years, fell a victim to that destroyer of human life, Scald, and to the midst of life and health was suddenly hurried away by death. How the poor child received the injuries which caused her death we have not learned; we have only learned generally that she was found in a bright blaze, and those who saw her at the outset in the street and heard her piteous cries, while enveloped in flames, proceeded to the house, and there found the child prostrated. The flames had, for a time, spared from her head, and through the greatest of parts of the sufferers were put forth to stay the devouring element, but were powerless until death had set his seal and snatched her for his own.

HIBERIAN FUN.—We have learned, within a few days, that a certain Irishman, by the name of Patrick Kelly, residing in Moyamensing, was the owner of a small lot of ground, situated in the county. A large farmer in Northampton county had offered to sell to any one fifty acres of land which would yield, with good tillage, fifteen bushels per acre, and others that would not produce above ten bushels. Kelly, who was not very well versed in the farming line, priced the land, and, finding that it would yield a prospect of good crops of grain, came with his family and settled upon it. The experiment was a short one. Time passed, and the harvest season arrived, when Kelly found to his astonishment that he had not raised enough grain to sow the ground the next season. He accordingly left it, and returned to his former residence.—*Doylestown Gazette.*

A HUMANE INVENTION.—A correspondent of the *Sunday Times*, Washington, writes from that city:

Mr. Thomas Hall, of Virginia, has invented a machine for saving life from drowning. It consists of a life-boat, with a water-tight deck, and a water-tight bulkhead at each end, forming a compartment, which, by means of valves, can be filled with water for ballasting purposes, or emptied by pumps. The boat is simple and cheap, and can be made of any size. It is said to have been tested with success at Norfolk.

A SHOCKING AFFAIR occurred on Wednesday last, at Sassafras Hill, Cecil county, Pa., resulting in the death of a young man named Charles Hall. It appears that Hall, in company with a number of others, was engaged in a game of ball, when a dispute arose between him and a young man named Thomas Hall, the billiard player, in New York, on Tuesday evening, by a number of gentlemen.

THE BROOKLYN NAVY YARD.—There are now employed at the Brooklyn navy yard one hundred and seventy-seven mechanics, and one hundred and twenty-three laborers, making a total of two hundred and ninety-three men employed at the yard. Of this number one hundred and seventy-seven are engaged on the frigate Sabine, which is now in the dry dock.

Weekly Review of the Philadelphia Markets.

[Reported for The Press.]

PHILADELPHIA, May 27, 1859.

The excitement noticed last week in the markets for Breadstuffs and Provisions has subsided, and for the former prices rule considerably lower, with a moderate business only doing at the decline; of the latter the sales have also been light, and prices favor the buyers. Bark is unsettled and lower. Coal and Iron continue dull, and the transactions in both limited. Cotton is firmer, but not very active in the advance. Groceries are rather quiet and Sugars very dull. Fish are firmly held. Hemp and Hides, no change. Lead is unaltered. Leather—Prime quality is scarce and wanted at full prices. Naval Stores are more active, and Spirits of Turpentine is scarce. Oils are quiet, and for Linseed prices are lower. Plaster is wanted. Rice is rather lower. Salt, no change. Seeds are inactive, but prices are the same. Tallow is firmer. Tobacco and Wool remain inactive. Whiskey has declined. In Dry Goods there are no changes to note, and a very limited business doing in the way of sales. Boots and Shoes are also dull.

BREADSTUFFS.—The market for all kinds has been depressed and unsettled since the date of our last review, and the price of Flour has declined 25a50c per bbl, without attracting the attention of buyers, who are not disposed to operate to any extent at the decline. The week's sales only foot up some 4a5,000 bbls; part for shipment, at $7 87 25 for standard and good straight brands of superfine, and $7 25a7 75 for extras, according to brand. The trade demand has also been very small, at from $7 up to $8 50 per bbl for common to good superfine, extras, and fancy brands, as in quality. Rye Flour is dull, and selling in a small way at $4 75a5 per bbl. Corn Meal is not much inquired for, and Pennsylvania Meal is offered at $4 per bbl, without finding buyers to any extent at that figure. The sales (including about 400 bbls, the following, in the inspection of Flour and Meal for the week ending Thursday, May 26, 1859:

Half barrels of Superfine	39
Barrels of Superfine	9,605
Do. Extra	144
Do. Northwestern Extra	398
Do. Rye	393
Do. Corn Meal	471
Do. Condemned	344
Total	11,434

Wheat—The receipts have increased, but the demand has fallen off, and prices are unsettled and much lower, with sales of 15,000 bus, in lots, at from 130a135c for fair to prime Southern; Pennsylvania and Western red, and 135 to 135a,for white. Rye is also lower, and selling at 94a95c. Corn has been in moderate request at a considerable decline on last week's rates, with sales of 20,000 bus, yellow at 65a67c, and white closing at the latter figure. Oats have declined, with sales of 15,000 bus Southern and Pennsylvania at 52a54c, closing at 52c for prime Pennsylvania. Of Barley Malt, sales of 5,000 bus are reported at 90c, and 1,000 bus, Rye do, at 100c; per bus, part to go out of the market.

PROVISIONS.—The excitement of last week has subsided, and the market is firm at the close, with small sales of Mess Pork in lots at $18.50a19 per bbl. City packed Mess Beef sells in a small way for ship's stores at $18a19 per bbl. A sale of India Meat was made at $32 per tierce; and a lot of Hams sold at $18.50 per bbl. Western Beef is dull and unsettled, at $12 per bbl, and Bacon—Hams in lots at 10a12c for plain and fancy cured. Sides at 10½a10¾c, and shoulders at 9½a9¾c. Green meats are quiet, with sales of Hams in pickle at 10a10½c, and in salt at 9a9½c; Sides 9½ a 9¾, and shoulders at 7½a7¾ cash and 60 days. Lard is limited request, and prices range at 12½12½c for bbls and tes, and 13a13c for kegs. Butter is very dull, and for roll prices are 12a15c, solid packed is quoted at 9a10c. Cheese is worth 9a11c, and Eggs 12½a13c per dozen, which is lower.

TALLOW.—The market is dull, and prices is depressed, and prices favor buyers; the only sales reported are in small way at $24, $23, and $22 per ton, for the three numbers. Of Anthracite, on time, a sale of 1,000 tons is reported at a private bargain. Scotch Pig is nominal at $25a26 per ton. 50 tons Charcoal Blooms sold at $65 per ton. For Bar iron sales are limited, with a steady demand at previous rates. Lead remains without change, and 2,000 Pigs Galena sold at $5.87½ per 100 lbs, on time, interest added. Copper is dull, and in the absence of sales we quote Sheathing at 27c and Yellow Metal at 21c per lb, 6 mos. Tin is unaltered, but very dull.

SEEDS.—There is no change in the market, but no sales have been reported.

HIDES are inactive, and some Calcutta Goat Skins sold at 40c, usual credit. An import of Caracas Hides sold before arrival at 25c, on time.

HOPS.—Sales of Eastern and Western at 14a17c per lb; but the market is quiet.

LEATHER.—There is no active demand for good Spanish Sole and Slaughter, and prices are firm.

LUMBER.—The demand is moderate, and prices well maintained; sales of Hemlock boards are reported at $11, and Maryland yellow Pine at $15a17. Scrub boards and heads sell at $15a18. Laths range from $1 25a1 50 per M.

MOLASSES.—There has been less inquiry, but prices are firm, and sales of clayed Cuba at 29a30c; Porto Rico, 40c, and New Orleans at 43a45c; on time.

NAVAL STORES.—The market is active, with sales of No. 2 Rosin at $1 80a2, and common at $1 66a1 70 per bbl. Tar and Pitch are dull at previous quotations. Spirits of Turpentine has advanced, with sales of 400 bbls to note at 56c58c, closing at the latter rate. There is little or no stock in first hands.

OILS.—Fish Oils are steady, with a fair store demand to note. Lard Oil is firmly held at 95c for winter. Linseed Oil has declined, with sales at 62a63c, in casks and bbls.

PAINTS.—Ochre is active, but prices are steady, with sales of 130 casks at 4½a4¾c, as in quality, on time.

SALT.—An invoice of 1,300 sacks Ashton's fine sold at 147c per sack, on time.

SALTPETRE is held at 11½c, but we hear of no large sales this week.

SUGARS.—There has been a fair inquiry from the trade, and prices are steady, with sales of about 1,200 hhds, including Cuba at 5¾a7¾c, N. Orleans at 6¾a7¾c, and Porto Rico at 7¼a7¾, all on time.

SPIRITS.—Brandy and Gin are in steady demand at previous rates. N. E. Rum is firm at 38 cents. Whiskey is lower; sales of Penna. bbls, having been made at 29a30½c; Ohio do. at 30a32c; hhds at 30a31c, and drudge, 28a30c, closing at the lowest rates.

SEEDS.—The receipts of Cloverseed are light, and prime lots are worth $5 25; 200 bush, fair quality, sold at $5 37½, and 100 bush of Timothy at $1 87½. Flaxseed is steady, and worth $1 65a1 70 per bush; 1,000 bags Calcutta Linseed sold at about $1 75 per bush.

TEAS are less firm, and selling slowly at former quoted prices.

TOBACCO.—Only a few hhds sold at 11a11½c, and small sales of manufacturing.

WOOL.—Buyers are holding off for the new clip, and small sales only are making at 35 to 55c; 60c for common to full blood and prime fleece, net cash. The market is quiet.

A DAIRYMAN in the vicinity of Louisville, Ky., lost eighteen cows on Wednesday last by eating cotton-seed with dinner, having broken into a field of the article, having drawn it from a gin. So seldom do the sows of those who furnish milk to cities see or taste of grass, or anything else that is wholesome, that when they do get some to eat, they must, like invalids, eat sparingly or it will kill them.

HENRY WARD BEECHER has recently purchased twenty-seven acres of land in Westchester county, N. Y. They form a part of the estate formerly known as the Trowbridge farm, situated about a mile from Pocksgill, on the road leading towards Lake Mohegan and Mahopac. The price was thirteen thousand dollars.

The body of Bill Harrington, the pugilist, was found floating, some time since, was found, we learn, by fishermen from the East river, New York, near the foot of Twenty-third street. A portion of the flesh was gone from the face, and there were other indications that the body had been in the water.

The Mammoth Cave Hotel, Green River, Kentucky, was burned to the ground on the 14th inst. The Louisville *Courier* says: "The fire originated in the kitchen, and was communicated to the main building in a manner unknown. The hotel was a large and commodious building, and was filled with guests at the time of the fire. The loss is estimated at $50,000."

Importations.

Summer Resorts.

BEDFORD SPRINGS.
This well-known and delightful Summer resort will be open for the reception of visitors on the first of JUNE, and kept open till the first of October.

The Hotel will be under the management of Mr. A. G. Allen, whose experience, courteous manners, and attention to his guests gives the amplest assurance of comfort and kind treatment.

Parties wishing rooms, or any information in regard to the place, will address the subscriber

A. G. ALLEN,
my20-6w Superintendent Bedford Mineral Springs.

OHIO WHITE SULPHUR SPRINGS.
ANNOUNCEMENT OF THE PROPRIETOR FOR THE SEASON OF 1859.

THE OHIO WHITE SULPHUR SPRINGS are situated in Delaware county, 18 miles north from Columbus, (the capital of Ohio,) on the Scioto river, 30 miles from Delaware, 10 miles from the White Sulphur station, on the Springfield, Mt. Vernon, and Pittsburg Railroad, and 10 miles from Pleasant Valley or Springs station, on the Columbus, Piqua, and Indiana Railroad. These Springs will be open for the reception of visitors

ON THE FIRST DAY OF JUNE.

The improvements of 1852 have been large, enabling the proprietor to accommodate from five to six hundred guests. Among these improvements may be mentioned a large and elegant new cottage row, additional buildings for amusements and recreation, extensive bath-houses, a steam laundry, &c., &c.

Upon the estate there are five Springs, all within the space of one acre, viz: the White Sulphur, the Chalybeate, the Magnesian, and the Sallue Chalybeate, are decided y medicinal; whilst the fifth is remarkable for the purity of its water.

THE WHITE SULPHUR

is a beautiful fresh fountain, situated near the rocky bank of the Scioto river. At the depth of 160 feet below the level of the Scioto flows the remarkable stream of sulphur which supplies this Spring. This stream was discovered some 80 years ago, by a gentleman who was boring for salt. The water, when reached, rose some 30 feet above the surface, and has continued to flow, during all seasons, without change or abatement, either in quality or volume.

MEDICINAL PROPERTIES.

For years these Springs have been highly esteemed for their medicinal properties. During the past season their reputation in this respect has been singularly confirmed. They were administered by a physician, judiciously as to quantity, time of drinking, continuance, &c., and under this systematic plan the cures were numerous and gratifying.

THE WHITE SULPHUR WATER

is peculiarly serviceable in those disorders of the Liver and Stomach which so often afflict gentlemen who have been too closely confined to business, and persons of sedentary habits.

DYSPEPTICS AND DEBILITATE SPRINGS

are permanent tonics. Their effects upon broken-down and debilitated constitutions have been most transient but lasting, giving to the blood a new vitality, and to the person new life and vigor.

THE MAGNESIAN WATER

is a gentle aperient.

Invalids may rely upon every facility being furnished them which can contribute to health and comfort.

As a delightful resort during the summer months, the Ohio White Sulphur Springs have no rival in the West, and but few in the United States. The location is peculiarly healthy. Rising from the bank of the Scioto stream, the "Old Limestone" formation hundreds of feet in thickness, through which the river cuts its way, is everywhere seen, over a large extent of surface, broken into hills and valleys, beautifully undulated, and interspersed with numerous ravines which carry off all the superfluous water, thus rendering the soil dry and the atmosphere pure, free from that humidity so prejudicial to health; these circumstances, taken in connection with the altitude of the place, about 1,000 feet above the level of the ocean, makes the locality as free from malarious influences as a mountain retreat.

The Spring property consists of 320 acres of land, one hundred of which is covered by one of the most beautiful groves in Ohio. This woodland is handsomely laid off into walks and drives, one of the latter being two miles in extent.

BATHS.

Bathing here, by the plan adopted, is brought into fair competition with that at naturally Warm and Hot Springs. The water is heated in the bath rooms by steam pipes; the heat not being raised high enough to precipitate its salts, it is by this system applied to the surface of the bather with the whole of its saline ingredients.

TELEGRAPH OFFICE.

A Telegraph Office, communicating with all parts of the country, has been established at the Springs. To be had in connection with distant points, will be a great convenience to gentlemen who can hear from and direct their business affairs daily.

Ladies and gentlemen wishing to health, pleasure and amusement, visitors may expect to find at the Ohio White Sulphur Springs, as the proprietor is determined to make it, in every particular, a first-class watering place. Gratified with the liberal patronage extended to him last year, no effort will be spared to merit its continuance.

A livery, well stocked with horses and carriages, is attached to the Springs.

For further info mation, arrangements for rooms, &c., address ANDREW WILSON, Jr.,
White Sulphur P. O.,
Delaware Co., O.

Letters for Visitors remain in the Post Office at the Springs.

SUMMER BOARDING.—The MINERAL SPRING HOTEL, at WILLOW GROVE, has recently been refurnished throughout, and is now opened for permanent and transient boarders.

The advantages of this place for Summer Boarding are its large and airy rooms, spacious grounds, finely shaded with lofty forest trees, with a fine bath house, plunge and shower baths, and convenient access to the city; four daily lines of coaches connect with the North Pennsylvania Railroad at Abington Station.

For further particulars, inquire of H. STERLING, Nos. 239 and 241 North THIRD Street, or
ALBERT BUCKMAN, Proprietor,
Willow Grove Post Office,
Montgomery County, Penna.

EPHRATA MOUNTAIN SPRINGS, LANCASTER COUNTY, PENNA.

This favorite establishment will be opened by the first of JUNE. Situated on the Ephrata Ridge, 70 miles west of Philadelphia, 18 south of Reading, 13 north of Lancaster, 30 east of Harrisburg, and 3 miles from the Railroad Station at Ephrata. The air is soft, and the waters of baths, the site elevated to 1,200 feet above water level, with graded and shady walks in dense forests, and the most extensive landscape scenery in the Union. It is not surpassed as a summer residence.

Accommodations for 400 persons, improved stabling, and good carriage houses; also a good stock of livery horses and other conveyances. Persons leaving the city by the morning trains will be enabled to arrive at the Springs the same day, by the way of Gettysburg or Columbia. Visitors will be met at Ephrata Station to convey passengers to the Springs. The season will commence on the 1st of June. The terms are as follows:

Board per day.....$1 25
Do per week.....5 00
Children under 12 years, and servants, half price.

All communications addressed to the undersigned, at Chambersburg, will meet with prompt attention.

my 21 thstly*1 J. HANAH M'COOPER.

ATLANTIC CITY ATLANTIC CITY
NATIONAL HOTEL
AND
EXCURSION HOUSE.
BAST & CO Proprietors

This House has changed hands, and will be opened on the 20th of MAY for the accommodation of Boarders and Excursionists. It is refurnished in the best style, with new Furniture, Bedding &c.

The National is admirably situated on the Inlet Avenue, commands a fine view of the Ocean, and but one square from the best Bathing Ground on the Island.

A splendid Ball Room and Dining Room being attached to the house, makes it particularly desirable for Excursions. my10-1m*

AUDITOR'S NOTICE.—In the matter of the estate of GEORGE G. MYERS, late of the Borough of Norristown, in the county of Montgomery, State of Pennsylvania, deceased.

The undersigned Auditor appointed by the Orphans' Court of said county, to report a distribution of the balance in the hands of WILLIAM CHAFFEE, administrator of the estate of said GEORGE G. MYERS, deceased, among the creditors of the said decedent, entitled to the same, according to their respective legal rights; will attend to the duties appertaining to his appointment, on WEDNESDAY, the 1st day of June, 1859, at 10 o'clock A. M., at his office in the Borough of Norristown, aforesaid, when and where all persons interested are requested to attend.

B. F. HANCOCK, Auditor.

Proposals.

PROPOSALS FOR BITUMINOUS COALS.—Sealed proposals will be received at the office of the PHILADELPHIA GAS WORKS, No. 20 South SEVENTH Street, until noon of FRIDAY, June 10, 1859, for any part or the whole of fifty thousand tons of Bituminous Coals, suitable for the manufacture of Gas, to be delivered at the Gas Works, on the Schuylkill river, in such monthly quantities as may be specified in the contract. The first deliveries to commence in the month of August next.

The coals must be fresh, clean, and dry, and of a quality to be approved by the Engineer. The proposals must state the particular variety of coal it is intended to furnish, and the bidder will be required to submit a number of samples for trial will be required previous to the time of opening the proposals. The gross ton of 2,240 pounds will be considered as the weight intended in the proposals, and must be specified as such in the bids. All coal delivered to deliver by measure, the struck bushel of 2 688 cubic inches will be used. In case of failure to deliver the coal according to agreement, the Trustees of the Gas Works reserve the right to purchase elsewhere the may deem best
