LINED WITH ZINC, AND THE CASING FILLED WITH CHARCOAL.

Prof. Silliman, in his recent work on Natural Philosophy, uses Winship's Refrigerator to illustrate the circulation of air by the combined effects of cold and heat, and he says of its operation, "It is in beautiful accordance with Natural Laws, having a motive force to give a cold to establish and maintain an upward constant current of air, and consequent ventilation."

The Refrigerator has been used, and is highly recommended by Professors Silliman, Porter, and Thatcher, of Yale College; Prof. Mapes, of New York; Prof. Chase, of Providence; Commodore Gregory, U. S. N.; Dr. H. G. Clark, City Physician, of Boston, and many other scientific men throughout the country.

D. S. Fernald, Proprietor of Union Market, Brooklyn, says: "It is an experience of twelve years, I have used much to keep meats, &c., in, but I never knew any of which will compare with Winship's. I find it ventilates perfectly, is economical in ice, and preserves meats splendidly."

All persons desirous of having what is pure, healthy, cheap and economical Refrigerator, should purchase one of Winship's. Please call and examine them.

OHIO WHITE SULPHUR SPRINGS.

ANNOUNCEMENT OF THE PROPRIETOR FOR THE SEASON OF 1859.

THE OHIO WHITE SULPHUR SPRINGS are situated in Delaware county, 15 miles north from Columbus, the capital of Ohio, on the Scioto river, 24 miles from Delaware, 10 miles from the White Sulphur Station on the Springfield, Mt. Vernon, and Pittsburg Railroad, and 10 miles from Pleasant Valley or Sprague station, on the Columbus and Indiana Railroad. These Springs will be open for the reception of visitors

ON THE FIRST DAY OF JUNE.

The improvements of 1859 have been largely enabling the proprietor to accommodate from five to six hundred guests. Among these improvements may be mentioned a large and elegant hotel, new cottage rows, additional buildings for amusements and recreation, extensive bath-houses, and a steam laundry.

Upon the estate there are five Springs, all within the lawn, four of which, the White Sulphur, the Chalybeate, the Magnesian, and the Sulphur Lithia, are justly celebrated medicinal, whilst the fifth is remarkable for the purity of its water.

THE WHITE SULPHUR

is a beautiful Arcadian fountain, gushing from the rocky bank of the Scioto river. At the depth of 160 feet below the level of the Scioto, flows the remarkable stream of sulphur which supplies this Spring. This stream was discovered some 50 years ago, by a hunter, a man who was boring for salt. The water, when reached, at once arose to the surface, and has ever since continued to flow, during all seasons, without change or abatement, either in quality or volume.

MEDICINAL PROPERTIES.

For years these Springs have been highly esteemed for their medicinal properties. During the past season their reputation in this respect has been greatly confirmed. They were administered by a physician, judiciously as to quantity, time of drinking, combinations, &c., and with a systematic plan the cures were numerous and gratifying.

THE WHITE SULPHUR WATER

is peculiarly serviceable in those disorders of the Liver and Stomach which so often afflict gentlemen who have been too closely confined to business, and persons of sedentary habits.

THE CHALYBEATE SPRINGS

are percipient tonics. Their effects upon broken-down and debilitated constitutions have been most prompt but lasting, giving to the blood a new vitality, and to the person new strength.

THE MAGNESIAN WATER

is a gentle aperient.

Invalids may rely upon every facility being furnished them which can contribute to health and comfort.

As a delightful resort during the summer months, the Ohio White Sulphur Springs have no rival; and for health in the United States. The location is peculiarly healthy; the Scioto here is a rapid, rocky stream; the "Cliff Limestone" a formation hundreds of feet in thickness, through which the river cuts its way, in every direction, within sight of the Springs; the grounds of the estate are beautifully undulating, and interspersed with numerous ravines, which carry off all the superfluous water, thus rendering the soil dry, and the atmosphere free from that humidity so prejudicial to health; these circumstances, taken in connection with the altitude of the place, about 1,000 feet above the level of the ocean, makes the locality as free from malarious influences as a mountain region.

The Spring property consists of 320 acres of land, one hundred of which is covered by one of the most beautiful groves in Ohio. This woodland is handsomely laid off into walks and drives, one of the latter being two miles in extent.

BATHS.

Bathing here, by the plan adopted, is brought into fair competition with that at naturally Warm and Hot Springs. The water is heated in the bath by steam pipes; the heat not being raised high enough to precipitate its salts, it is by this system applied to the surface of the bather without the loss of its saline ingredients.

TELEGRAPH OFFICE.

A Telegraph Office, communicating with all parts of the country, has been established at the Springs. To be thus in connection with distant points, will be a great convenience to gentlemen who can hear from and direct their business affairs daily.

All the accessories necessary to health, pleasure and amusement, visitors may expect to find at the Ohio White Sulphur Springs, as the proprietor is determined to make it, in every particular, a first-class watering place. Gratified with the liberal patronage extended last year, no effort will be spared to merit its continuance.

A livery, well stocked with horses and carriages, is attached to the Springs.

For further information, arrangements for rooms, &c., address ANDREW WILSON, Jr.,

White Sulphur P. O.,

Delaware Co., O.

EPHRATA MOUNTAIN SPRINGS, LANCASTER COUNTY, PENNA.

This favorite establishment will be opened by the first of JUNE. Situated on the Ephrata Ridge, 60 miles west of Philadelphia, 18 south of Reading, 13 north of Lancaster, 40 east of Harrisburg, and having the advantage of the purest soft water, every variety of baths, the air elevated to 1,200 feet above the level, with graded and shady walks in dense forests; and the most extensive land-cape scenery in the Union, it is not surpassed as a summer residence.

Accommodations for 400 persons, improved stabling, and good carriage houses; also a good stock of livery horses and carriages, with amusements. A good band of music, billiard tables, ten pin alley, &c. Also, easy access from all the above points by railroad and coaches. The proprietor spares nothing to make it a home-place for comfort and health.

For further particulars, see circulars, to be had, by applying to Joseph B. Myers, Third and Vine streets; James S. Earle, 816 Chestnut street; or to the Proprietor,

CALEDONIA SPRINGS.—The undersigned takes pleasure in announcing that she has rented from the proprietors these celebrated Springs, and trusts that, from her long experience, and having secured the services of Mr. F. W. DAVISON, and with prompt attention to the wishes of her guests, she will be able to render ample satisfaction to all who favor her with their patronage. Her terms are very low; and, in that reducing the price of board to suit the times is within the power of every summer resorter to again indulge in their usual recreation. Persons leaving the city by the morning trains will be enabled to arrive at the Springs the same day, by the way of Gettysburg and Chambersburg, where coaches will be in attendance to convey passengers to the Springs. The season will commence on the 1st of June. The terms are as follows:

Board per day.....$1.25
Do per week.....5 00
Children under 12 years, and servants, half price.

All communications addressed to the undersigned, at Chambersburg, will meet with prompt attention.
