Now lying at Wharf, foot of Willow street.
Apply to
THOMAS DUNLAP & SON,
No. 27 South Delaware avenue.
Sewing Machines.
WEED'S PATENT
SEWING MACHINES
Have gained the confidence of all who use them, and have proved one of the most valuable inventions of the age. They make the Elastic Lock Stitch on both sides of the cloth alike, which cannot be unravelled or pulled out.
They are all made with the latest improvements, and the Agent is prepared to exchange them for any other Sewing Machine. It is particularly recommended for the adaptation of all its operations to heavy work. Machines will be altered to suit purchasers, if desired. It is also simplified so as to render it almost impossible for any one to get out of order, or derange it in operation; indeed it is so simple that a child can run it, and it will do a greater variety of work than any other machine in use.
Below, will be a description of the different styles of the Weed Patent:
No. 1.—Is a very convenient style, with a table for hand work, and a small drawer for the use of the operator, as may be found necessary. Price $100
No. 2.—Walnut or Mahogany Table, either with or without the Top, which lasts down. Price $100
No. 3.—Is the same size as No. 2, but runs with a belt, and is a much higher rate of speed. This kind is well adapted to manufacturing Clothing and Heavy Work. Price $110
No. 4.—Is the same size as No. 3, but runs with a treadle, as may be most convenient. Price $120
No. 5.—Is a new and elegant style, and a general favorite. It has the same motion as the others, but runs with more ease and quietness, and is a very convenient size for private families. It runs very light with a treadle, and is well adapted to light work. Price $120
No. 6.—Is a Machine set up on an entirely new principle, differing from anything ever before offered to the public. It is very simple in construction, and very rapid in execution, and makes the LOCK STITCH ALIKE on both sides. It is so compact as to be extremely portable, and is well adapted to the use of Tailors, Dressmakers, Milliners, and families generally. It is recommended for light work, and is a favorite machine for the use of Ladies. Price $120
No. 7.—Is a Machine set up on an entirely new principle, differing from anything ever before offered to the public. It is very simple in construction, and very rapid in execution, and makes the LOCK STITCH ALIKE on both sides. It is so compact as to be extremely portable, and is well adapted to the use of Tailors, Dressmakers, Milliners, and families generally. It is recommended for light work, and is a favorite machine for the use of Ladies. Price $120
No. 8.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 9.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 10.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 11.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 12.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 13.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 14.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 15.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 16.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 17.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 18.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 19.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 20.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 21.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 22.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 23.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 24.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 25.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 26.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 27.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 28.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 29.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 30.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 31.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 32.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 33.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 34.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 35.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 36.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 37.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 38.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 39.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 40.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 41.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 42.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 43.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 44.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 45.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 46.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 47.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 48.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 49.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 50.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 51.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 52.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 53.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 54.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 55.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 56.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 57.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 58.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 59.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 60.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 61.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 62.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 63.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 64.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 65.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 66.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 67.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 68.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 69.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 70.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 71.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 72.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 73.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 74.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 75.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 76.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 77.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 78.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 79.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 80.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 81.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 82.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 83.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 84.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 85.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 86.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 87.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 88.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 89.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 90.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 91.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 92.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 93.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 94.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 95.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 96.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 97.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 98.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 99.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 100.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 101.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 102.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 103.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 104.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 105.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 106.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 107.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 108.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 109.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 110.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 111.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 112.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 113.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 114.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 115.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 116.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 117.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 118.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 119.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 120.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 121.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 122.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 123.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 124.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 125.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 126.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 127.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 128.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 129.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 130.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 131.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 132.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 133.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 134.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 135.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 136.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 137.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 138.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 139.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 140.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 141.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 142.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 143.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 144.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 145.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 146.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 147.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 148.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 149.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 150.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 151.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 152.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 153.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 154.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 155.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 156.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 157.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 158.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 159.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 160.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 161.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 162.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 163.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 164.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 165.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 166.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 167.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 168.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 169.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 170.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 171.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 172.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 173.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 174.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 175.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 176.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 177.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 178.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 179.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 180.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who prefer a foot motion. Price $120
No. 181.—Is a Machine of the same size as No. 7, but runs with more speed, and is well adapted to manufacturing purposes. It runs with a treadle, and is a favorite machine with those who pref
