In this volume we have some of the best things Mrs. Moulton has ever written, and if it succeeds according to its morits, it will have a great many readers. It con-tains seveniteen stories, some of them being now printed for the first time, and others reprinted from Harper's Monthly and some of the other magazines. Size al-ways writes with vigor, and usually gives us graphic bortrayals of the workings of passion, generally the pas-sion of love, which is depicted, not by any means in the French way, but according to the ideals nose brevalent among the young men and maidens of New Eugland.--Worcester Syv.
