Interesting Services At Portsville on INTERESTING SERVICES AT POTTSVILLE ON MONDAY EVENING.—In our "Roligious" department on Saturday, we gave a statement, the facts of which we obtained from private correspondence, of a great religious festival in the form of a popular Union Commusion, to be held at Pottsville, on Monday evening of this week, prior to the removal of the Union Tabernacle Tent from that locality to a point more adjacent to this city—Manayunk. We yesterday loarned from parties in attendance at Pottaville, on Monday evening, from this city, that the occasion was one of inspressive solemnity, and surpassing, in some of its features, anything ret recorded in the annals of the "Revival"—which really still seems to be in progress in many parts of the country. The exorcises were conducted by Rev. Mr. Long, toperintendent of tont, assisted by Revs. S. F. Colt. J. McCool, E. H. Gilroy, L. Snyder, and J. Invitations to the supper were given in the English, Gorman, and Welsh languages. Numerous miners from the adjacent villages of Port Carbon, St. Clair, and other places, were in attendance. A FACT WORTH KNOWING.—Those at all acquainted with the interior of the hoise department are probably aware that the cleansing of silver-ware, lowelry, mirrors; marble, etc.—provided there are such things to clean—constitutes no small feature of household economy; also, that not unfrequently more or less injury is done by the use of improper preparations for these purposes. In the article of "Silver-Seap," which we can apeak of upon the most satisfactory authority, the very thing, is supplied which every housekeeper meds for cleansing, such articles. It is at once the cheapest and most effective article for that purpose in uso. Everything to which it is applied is restored to the appearance of newpeas, and its chemical composition is such as not possibly to injure any metallic or marble surface. We have said this much in its favor, upon our own experimental knowledge, and for further particulars would respectfully refer the reader to the advertisement of Messar. Gentlemen: It affords me great pleasure to say to you that the Salamander Bafe, which I purchased of you in February, 1829, proved to be what you recommended it—naure protection from fire. My storehouse, together with several others, was burned to the ground in March last. The safe fell through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the ruins and opened, all its contents were found to be in a perfect state, the books and the papers not being injured any whatever. I can cheerfully recommend your safes to the communuity, believing, sal do, that they are as near fire-proof as it is possible for any safe to be made.
