We are in favor of a certain degree of shiness when a kiss is proposed, but it should not be continued too long; and when the fair one gives it, let it be administered with warmth and energy. Let there be soul in it, If she closes here yes and sighs deeply immediately after it, the effect is greater. She srould be careful not as slober as kiss, but give it as a humning bird runs his bill into a honey-suckle—deep but delicate."
