At P. M ness, copin, and evenness of touch, with six quisite centroly and sweetness, the SUPERIOR AND BEAUTIFULLY-FINISHED in-SUPERIOR AND BEAUTIFULLY-FINISHED in-are wholly unequalled. They have received the highest encominums, and are pronounced by critica to be far su-perior to any instruments ever manufactured in this country. the same state they were when the furious philosopher left them, swearing vengeance on the king. They are not romarkable for their size or elegance, and, save in the glorious views presented from their windows, not in any way noteworthy. For a while literary scitrity and social enjoyment mingled their attractions, and the king and philosopher were inseparable. But this happy state appears to have been short-lived, and Voltaire soon found, to his mortification, when too late, that if a man is sufficiently rich to be master of himself, neither his liberty, his family, nor his country should be sacrificed for a pension. Voltaire himself, in alluding to this brief residence at Sans Sonci, says: "Astoga did not meet a kinder reception in the palace of Alcina. To be lodged in the same apartments that Marshal Saxe had occupied, to have the oryst cocks at my command when I preferred to ride alone—these were but triffing favors."

This state of things was too pleasant to last long. A disgusting—lawful, in which Voltaire became engaged with a Jew mechant, for the first time any state of the Calina and the same apartments that Marshal Saxe had occupied, to have the oryst cocks at my command when I preferred to ride alone—these were but triffing favors."

Ghicago, Rock Island, Niagara Falls, Milwakee, Burlinston, Montreal, St. Faul's, Detroit, Dunlieth, and St. one of his works ignominously in the public square, be could not brook such unheard-of ignominy. He packed up his pension warrant, order, and gold chamberlain's key in a paruel, which he sent back to the king, and on the wrapper of the parcel he wrote these lines:

**For which lone had fondly strove, As one whose heart is broken and the took refuge at Fernby near Genova, which he only left to have a brief triumph at Paris, then to sink into the tomb. Sans Souci, where these brief hours of happiness were spent by Voltaire, (it may be the only one venchasfed to him.) is, so far as the adorments of the grounds, and the seenery of the place are concerned, a most charming spot. The views round Potsdam, presenting as they do bold sneets of water, deeply embosomed within shady groves, with rippling streams, that seem to sport round the basis of each vordant height, form a most delightful oasis amidst the sandy flats of Mark Brandenburg. From the period of Frederick the Great's residence there, the princes of his line, have nover ceased to heighten the charmsof nature, by the cherishing and ordering hand of art. Grassy laws conjecte the town; palaees and villas now adorn both hill and dale; exhilarating and refreshing odors are wafted far and wide on the sephyrs; but the palaee of the Great King remains untouched; and to this day recollections of him who has long since passed away, seem borne on every brease that sweeps those winding terraces. Frederick associated with the name of Sans Souci a hidden meaning. Beside the palaee had comment to the which the name of 'Sans Souci' applied. He once mentioned this in conversation to a friend, and evidently allunded to this vasil, of the catistone of which no one deramed in his lifetime, was, properly speaking, that to which the name of 'Sans Souci' applied. He once mentioned the in result in the rear of this palaee is a semiciroular colonnade, within who have to take exercise. His decline was gradual and easy, and he never for a moment lost the natural vigor of his mind, cont AND TRUST COMPANY.
