M Molen, Bavannah, Ga iumphrey. Conn darsh Newark, N J V Pearsons, R I Semith, N H Spear. No. 1116 Market street, is the patentee. The superiority of this stove over every other in use has been introduced. It is not however, out present purpose to describe the scientific merits of this stove, as we have dense that already, but rather to call attention to the fact that Mr. pear's facilities to meet the imm mass demand for them are being largely increased. Nothing perhaps has more effectively confirmed to: opularity of this admirable stove than the efforts it has evoked on the part of other manufacturers to present to the public a similar article. The visht of Mr. Spear, however, to this valuable discovery in stove manufacture, has been triumphantly vindicated. Mr. Spear, however, to this valuable discovery in stove manufacture, has been triumphantly vindicated. Mr. Spear, however, to this valuable discovery in stove manufacture, has been triumphantly vindicated. Mr. Spear, however, to the public a similar article after of the rinon, to bear the fact in midd in making their purchases.

The same principle which has made the popularity of Mr. Spear's stave world-wide, has also been applied by him to cogking-ranges, which he is manufacturing in all sized, and which, we levin from intellicent and enterprising builders, are respidly taking precedence of all others. There is a double advantage connected with these stoves and rances which houseksepers know how to appreciate, and that is first, their decided economy, and accordity, their wonderful conveniences? In the latter particular, they have well-nigh revolutionized the routine of the kitousen.

But we must not close this passing notice of a justification of the kitousen. JONES' HOTEL—Chestnut street, above Sixth.
