A St. Helena letter of October 26, in the New York Journal of Commerce, states that, within the previous fortnight, two slave prizes had been brought into that port. One was the American brig Lillie Mills, which was taken by surprise in is required by the English laws. In regard to the

New Bedford whaler Memphis, he says:

"The whaler Memphis, which left New Bedford in under some suspicions about seven months since, and of which notice was taken in the papors, has been recently here, and has sailed estensibly for the Falkhand Islands. I learn from the American cousal that her papers were all right, and there was nothing about her to indicate such intentions, unless it be that she is unusually large for the whalers in this ocean, and though so long out has staken no cil whatever. But she has been boarded several times on the coast, and one of H. M. officers told me she had at one time in a fog a large number of lauvches alongside, which immediately pulled for the shore on the lifting of the fog and the discovery of one of H. M. steamers."

As the commercial relations of the present Union with Great Britain do not now, and never did, rest upon our political union with that kingdom, so the commercial rela-tions of the North and South are not based upon the union between them and cannot be destroyed by its dissolution. Prohibitory regulations could disturb, and an actual war between the States would suspend, their trade, temporarily, but by force of its own laws it would again return to its natural channels. We speak advisedly in all that we report of our position and purposes, and we ask our overexcited friends to do us justice; to threaten nothing which they do not intend to do; and to undertake nothing against us which they cannot accomplish. Our personal friend, "Union," thinks he sees a difference between the "mere centiment" which induced some of our Aboli-

WASHINGTON, Jan. 8.—The bill recently introduced by Senator Lane provides for the settlement of the Oregon and Washington war debt of 1855-6, a cacording to the recommendation of the military commission, who spent twelve months in the examination of the claims. To guard against speen, lations, the money is to be paid only to the original claimants, or their legal attorneys or assignees. The amount involved is about five millions.
