SAVING FUNDS.

Francisco on a new serial voyage, if antheinen on couragement is extended to him from the citizens of California to do so.—San Francisco Alia Cali-foruia. IANOASTER, Pa., Deo. 8, 1859. Since my St. Louis trip, I had, and have, fondly hoped to be able to raise the means with which to build an outil, for the purpose of demonstrating to the world that balloons can be used, oconomically, in making long voyages from-west to east, in the temperate zone of the North, so as to carry passen; gers, and the lighter sort of merchandias, in such systematio order as to bridg it, in a very few year, the favorite and popular means of transit across the continent, from California to the Aliantio asboard cities, and across the Atlantic, as also across the European and Asiati continents, and the Pacific ocean. I have some prospect of getting the means provided in New York, but am required to give from-hold socurity to the reimburament of the necessary outly in the construction of the balloon and vig-ging, in case it does not pay for itself, which I an willing to do. My particular friends, however, (Professor Porter and Charles D. Wetherfit, analyti-cal demist,) urge me to make my dirst main ex-periment across cur own continent from the olty of San Francisco to the Atlantic seaboard. They urge it, with se mesh good reason and advantages, that I have, therefore, come to the detormination to give their idea a just consideration, and learn through you the probable encouragement and assistance that I might possibly secure in Ban Francisco, to wards such an enterprise. Heretofore, and yet, my aversion to the San Francisco, to the advise of fifteen thou-send dollars, while in the East, hore, it can be done for six, or, perhaps, fiv thousand dollars—a mark within the resch of my propety guarantee. I wish you could take time to make the requisite isquiry of the matter, and advise me of the prospeets, and I within the secons of two thousand dollars—a mark within the resch of my propety guarantee. I wish you could take time to make th
