All of which are offered for sale on favorable torms. fel-wfam3m P. LAIN AND	 real name is Higgins. Noxc comes a translatifrom Horace, by Thomas Hool, son of him wirele The Bong of the Shirt, of which the orlinal manuscript is now in Philadelphia. We git for his father's sake:	 "In America none but recording instrum have ever been used. Of these we have m kinds, but only five are in operation at preserve namely. The electro-magnetic timing instrum of Professor Morse; the electro-magnetic step step printing of Mr. House; the electro-magnetic step step printing of Mr. Hughes; the electro-magnetic step step printing, combining the essential parts of The Morse apparatus is. however, more gener used in this country, and every other. Out of two hundred and fifty thousand miles of elect to legraph now in operation, or in the cours construction in the world, at least two hund thousand give the preference to it." Although the Morse apparatus is a record one, yet, for the last six years the operators in a country have discontinued the use of the graph on with the gravest the other which they do with the gravest the operators in a country have discontinued the use of the graph on with the gravest in the expense working the tolegraph of Grant instrument in may be given as follows: Cooke and Wheastou need te tolegraph of Grant instruments ju may be given as follows: Cooke and Wheastou need te tolegraph of Grant inter 1,200; the Holegraph, also France, 1,200; the House printing, used in the under the world all tolegraph of Grant interments in may be given as follows: Cooke and Wheastou need telegraph of Grant interments in the states telegraph, in use all over the with the ornerly used upon Prossian lines, 900; Bain's chemical, in use twee Liverpool and Manchester, and in County is due credit of inventing the most rapid and the runiversity used telegraph is schemes." The two is well and the combiniton instruments? The three last systems are American inventi. Thus it will be soon that to our county is due credit of inventing the most rapid and the runiversity used telegraph is frain. So the state is indered and incompresention in the world is the graph of france. If and is the graph is the interment is in sine, we learn its publishers, Tioknor \pounds Fiele have the following works in the pres:	a. 1945. 19	 The line seen infroduced for the cast of the origing of the starts, as for the control of the basis of the starts, allow arring the mane of the starts, allow arring the mane of the starts, allow arring the mane of the starts of
