THE OLDEST GREEK MANUSCRIPT OF THE BIDLE BYTANTAbout a year ago the Government of Russia scut the colebrated Professor Tischendorf to the East for the purpose of instituting a thorough search in the various Greek, Byrian, Persian, and Abyssinian monesteries for ancient manusoript re- cords supposed to exist there, and to secure them, if possible, by purchase. Prof. Tischendorf has returned to Russia, and brings with him, among other rare remains, the very oldest Greek manu- script of the Bible exiant. Besides the important and valuable contents of the Old Testament, of the same text as that used by the Apostles in their quo- tations, the manuscript contains the whole of the New Testament. The various European fibr rises all possess many MS. copies of the Bible, but not a single one of the few written before the touth contrary that coutains all the New Testament. The two hitherio regarded as the oldest and next complete, and held in the bighest estimation. But the former wants four entire episites of St. Paul and nearly the half of another, as also the Book of Royelations; while in the latter the whole of the parts of St. John and the Pauline Epistles. The manuscript discovered at Mount Sinal, and new "brought to St. Petersburg, is not defactive, even in the conduct of St. Petersburg, is not defactive, even in	Le frost; it is, as it were, a dryer air, and, i fact, becomes pleasant when muffed, and the bod covered with thick fiannel clothes."	which he did grains the strong opposition of the journeymen-pressmon. He was, sloo, the first to em- ploy printing machines, adopting the Treadwell press, driven by mule power. When the American Bible Society was established he become and continued its printer until the society established its own office He had been in summess, at the time of his death, forty-	second place Senator Bigler goes to Charleston one of the delegates.
