XXXVITH CONGRESS.--FIRST SESSION,

U. S. CAPITOL, WASHINGTON, February 27. SENATE.

## THE CITY. HARRISBURG, Feb. 27. SENATE. MR. FIRLD'S LECTURE ON THE CREATION

&c.-A very intelligent antience same black last evening in Handel and Handel. on Eisth that even black last evening in Handel and Hand Itali. on Eisth that even by a byring Garden street, to laten to the first leature of the ourse upon the creation, flood, &c. The earnest manerof the leaturer. his evident goordiches of the truth and importance of his matter the novely of his views, and the immense amount of information or medic into a street in the first end of the leature of the leature of the leature of his matter the movely of his views.

of the audience. I have a to his leastern was maintained without ing during an hour ard a half, and we hardly think was a percent present leat night who would wil-y miss a single succeeding leath of the course-impossible, within our humis, for size any thing like r report of the leature; but we latened with a of laying one before our readers, and, at the rick was great injustice to Mr. Field, we shall endevor amount of the leature is and while network A number of cases, some of whom has been interesting it into the shown any symptome of insanit's and during the shown any symptome of insanit's and during the shown time he had been there, sever a had been brought in who were ovidently, as far as as the persones went, perfectly same. He recommended the it the certificate of a physician should, in every case, required before patients are admitted into the insa desartment either from without or without the establi-

sent some of the points noted. " "State builds Yof lecturar commenced by sisting that the Romp-were the Word of God, and the creation the Work d, and that, therefore, they must sarres. But, to operly understood, each must be read by its own and hefore we can so rend them, we must under-those laws. The errors and mistakes of those who pit to read the books of Nature without understand. at communications were presented from several nurses the insame department, asking permission from the rait to retain their onlidere with them in the institu-n. The matter was referred to the floopial Com-tice, with power to set ther have were pointed out, and illustrated in the denum of flotenry, Tycho Brahe, &c., and it was wur, as a necessary result, that similar errors must all from a want of understanding the laws and nriples according to which the Sciptures were

mini-principles according to which the Sotipures were writien. M. Field then proceeded to show in what a remote altight the Soripures were writen, before either the and the Committee on Hoepital and Insame Departs M. Field then proceeded to show in what a remote altight of the solution of the Sotipures were and the Committee on Hoepital and Insame Departs Mr. Williams, of the Committee, containing autor and the Committee on Hoepital and Insame Departs Mr. Williams, of the Committee, contained such areadments to the varios rules now in fore Thy and the Committee on Hoepital and Insame Departs Mr. Williams, of the Committee, contained such areadments contained in the report were agreed to the solution of the second hopital and the Soties and the Committee on Hoepital and Insame Departs areadments contained in the report were agreed to the solution of the second hopital and the Soties and the Committee, on the second hopital and the solution and the Committee, on the second hopital and the solution and the Committee, the second hopital and the solution and the solution directing the solution of the second hopital and the solution directing the solution of the second hopital and the solution directing the solution of the second hopital and the solution directing the solution of the second hopital and the solution directing the solution of the second hopital and the solution directing the solution of the second hopital and the solution directing the solution of the second hopital and the solution directing the solution of the solution directing the solution of the solution and hopital and the solution of the solution directing the solution of the solution and hopital and the solution of the solution directing the solution of the solution directi

Armer and sardener, thus leading to an abolition of one fit the officers. Mr. Brans weiged to have no pension reemployed upon the grounds, and saddled upon the unblic. Mr. Brans weiged to have no pension reemployed upon the grounds, and saddled upon the unblic. Mr. Rob-usa armeed with his friend as far as public pensioners have concerpad, although ho was very sincers Note to the researches of Champolinon, Young, Wilkin-Son, and others. The origin of the slphabot was then alluded to. It was stated to have consisted orginally of twelve one-sonants, taken from the signs of the Zodixo, a vowel point benue interposed at the end of anch three letters. Analogous to the division of the twelve signs into four seasons, with three decrees in each. [We are interly unable to do justice to this portion of the discourse which was tracedmy beautiful beautiful. Disacreed with his friend as far as public pensioners were concerned, although he was very smoore in asyme that he thought the oity would be injured by pirsung fuch a course as that supported by the committee. Mr. Linnard replied by maying that he farmer had trenty-tive and store as that supported by the mean from the un-support of the same and thirty-fore mean from the ta-tive and under him. He also has a depoty farmer who such a border him. He also has a depoty farmer who man competent to perform one date house. Any one man competent to perform one date shouse. Any one of them. He was in favor of the resultions as consolid with he views of Mr. Robbuns. and house the oreclution would not be adopted. Mr. Williams moved to dupense with the office of assistant farmer mable to do justice to this portion of the discourse, thich was exceedently beautiful and interesting. I ass up on to the later writing, the lecturer quoten from Xorduz 23, 36, that the inscription " Hollness to the and " on the sold plate of the Ephod, was written like the entraving on a since " and ut was shown that like entraving on a since " and ut was shown that the entraving on a since " and ut was shown that the entraving on a since " and ut was shown that anne was proven of the " Urim" a hierofyppice. The hores the of A aron. The most learned a the holo-rists concede that the sacred records of the creation ard listory of man up to the dispersion at Babei were written in symbols. Reference was made to the early history of Rome and threace for show the truth of the saying of Clemens at concerd; that pure a likeory was the style that was and that all who have treated of Diving a the trade the trade we make the dispersion in the trade the trade the trade winning of thungs, industriously movies the semonts of the say in a disposite and material symbols.

Philadelphia Cattle Market.

The receipts of Beef Cattle have been larger than for several weeks past, reaching about 2 300 head. The market was dull and prices about 200 head to the lower than lest week. The following are the pattienlars of the sales.

HAPD INCREASE OF THE CELTIC RACE -- In this city, we believe, a mejority of the children born are of foreign parentage, chiefy Irich, and the same is probably the case in meny of the large places in this and other New England States. In the town of Newton, which has a population of about 8,000, some 1,200 are trish, and the total number of births during the year 1859 was 210, of which 100 were from Irish parents, 14 of other fo-reign parents, and only 92 of American parents.--Boston Traveller.
