As far as completeness goes, no For Fraser's Magazine was also written, by Carlyle, that singular work " Sartor Resartus," an imaginary History of the Life and Opinions of Herr Teufelsdröckh, an eccentric German Professor and Philosopher. It appeared in 1883.4, and excited great interest and no small curiosity. In this, where he al lowed his imagination to twist and turn the English language into all shapes and forms was first put forth that Germanized mode of expression known as the Carlylian dialectwhich almost requires a particular glossary to make it quite intelligible to the public. What he has himself written in the Edinburgh Review, so long back as 1827, of Jean Paul Richter, as much applicable to Carlyle's own "Sarton Resartus," and some more recent works-"Not," said Carlyle, "that Richter is ignorant of grammar, or disdains the sciences of spelling and parsing, but he exercises both in certain latitudinarian spirit, deals with as. conishing liberality in parentheses, dashes, and subsidiary clauses; invents hundreds new words, alters old ones, or, by hyphen chains and pairs and packs them together into most jarring combination; in short, pro duces sontences of the most heterogeneous lumbering, interminable kind. Figures with out limit; indeed, the whole is one tissue of metaphors, and similes, and allusions to all the provinces of Earth, Sea, and Air; interlaced with epigrammatic breaks, vehemen bursts, or sardonic turns, interjections, quip puns, and even oaths! A perfect Indian ungle it seems ; a boundless, unparalleled imroglio; nothing on all sides but darkness dissonance, confusion worse confounded!" Yet, with the publication of "Sartor Re artus," a work of most unquestioned powe and ability, commenced Carlyle's third lite rary period. In 1834, the fortieth year of his ife, he removed to London, where he has since resided,-a burst from the almost utte solitude of a remote Scottish district, describ ed by himself as "the loneliest in Britain," into the literary society of London. In the third year from this removal, he published hi French Revolution: a History," and this splondid prose-opic immediately made him would fumous. It appeared in 1888, and was followed, in the same year, by a republication in book form, of "Sartor Resartus," and the Miscellanics"-to which he was driven b their previous production in this country. His ubsequent separate works are "Chartism," 1837; "Heroes, Hero-Worship and the He role in History," 1840; " Past and Present," 1813; Oliver Cromwell's Letters and Speech es," 1819; "Latter-Day Pamphlets," 1850 "Life of John Sterling," 1851; and two volumes of a Biography of Fredesuredly, Thomas Carlyle has not been an idle man. Neither can any one read a book,it. And why ?-because this man had searched years, from youth to manhood, before he com menced writing. With him it was no small

ture, and author of the Life of Bishop Kon, has also become the biographer of Jeremy Taylor, Bishop of Down, Connor, and Dromore, born in 1613 died in 1667. Coleridge declared Jaremy Taylor to have been "the Shakspeare of Theole. gy," and the designation is very appropriate. Mr. Duyckinck has written this biography concisely and clearly, relating the incidents in Tay-lor's career, and illustrating his character by his sotions and writings. It is, in all respects, a good book. It is embellished with a portrait of Bishop Taylor, and is published by the Sunday-school Children of St. Paul's Episcopal Church, Albany. The Memoirs of the Duchess of Urleans, lately leasased, which Messrs. Appleton, of New York, have republished, show us the character of an accomplished, affectionate, and truly Christian wife and mother, upon whose head suffering and sorrow descended, and who descryos to be well considered, as an honor to her sex. There is a double bio graphy in this volume, two writers having recorded their opinions and recollections. The correspon-dence and compositions of the Princess are liberally given, showing us the beanty of her mind and life. BOOKS RECEIVED. . FROM SAMUEL HAZARD, JR.: The Poetical Works of Robert Southey.
