Of shapely limbs and features. No,
The o are but flower;
That have their dated hours,
To breathe their momentary sweets, then go,
The the stainless woul within.
That outshines the fairest skin." consideration of itself should decide the question in our favor.

Every dollar diverted from the purchase of foreign watches is so much saved to the country; so much encouragement to home industry, and so much added to the public wealth. We do not aske preference on these grounds, if our watches are not better, for the money, than the foreign.

To conclude—we claim that our watches are the best and most durable time-keepers in the world, besides being the cheapest; and we assert that a series of watches was never made that would show so little average variation from true time as those we have issued. In individual instances their performance has been unsurpassed by any thing recorded in the history of horology. A descriptive pamphlet, containing full information and numerous certificates from wel-known individuals, may be had on application to the undersigned.

OAUTION.—As our watch is now extensively counterfeited by foreign manufacturers, we have to inform the public that no watch is of our production which is unaccompanied by a certificate of genuiness, bearing the number of the watch, and signed by our Treasurer, R. E. ROBBINS, or by our predecessors, APPLETON, TRACY, & CO.

As these watches are for sale by Jeweilers generally CHARLES A. MORRIS, Agent.
