The News.

The news. The politicians and "politicianors" are very har. In Illisois, they, have managed to scrape up enough Disunionists to form a State and elector ral ticket. The following are the nominations: Ex. Governor, Thomas M. Hope; for Lientenant Governor, Thomas Chell; for Scoretay of State, B. T. Bark ; for Auditor, Harry H. Smith ; for rer, W. H. Cather. For Electors at Large John Dougherty, and Thompson Campbell. On the matual-admiration principle, this ticket may poil a hundred votes; we venture that Buchanan, dangerous disposition has been manifested, to permit him to slay more innocent victims, and with all his patronage, cannot double the number. He then addressed the Conven-tion at sonsiderable length, and with much ability, in favor of the pominese. He believed that if the election of Prevident was thrown into Congress, John Bell will ho the next President, and he unyed nil lovers of their country and the Union to unite, in order to attain such a result. If men who nevor had a political sentiment, in common can combine in entailing stift and agit-ition upon the mation, and a great isectional hate, why, in Grd's name, he asked, can-not those who love the Union and reverse the Goo-stitution unite such combine in a great and good act? At the meeting of the Common Conncil yes-terday, the resolution of the Select branch in regard to the institution of legal proceedings to test the validity of the act of the Legislature which anthorized the newly-appointed Commissioners of Public Baildings to proceed promptly with their construction, was adopted. A resolution requesting the Mayor and the presidents of Councils to withdraw from the Commission was, however, defeated. There does not, therefore, appear to be a disposi-tion to make any little factious opposition to the action of the Commission, nor is it certain that a majority of the members of the Common Council are opposed to the location of the new municipal buildings in Penn Square; but a doubt having been entertained of the constitutionality of the law, the proposition to have it tested was generally assented to. And it is well for all parties concerned that this course has been, adopted; so that, if any defects in the law exist, they may be exposed, and if it is binding
