rished object at heart, and their past history should show us what that object is. WASHINGTON CORRESPONDENCE. There is no political assertion which they From a New Correspondent: have reiterated more frequently, year after Correspondence of The Press.] year, since the organization of the Republican party, than that they would regard its triumph in a Presidential election as a just cause lext cer time more thoroughly committed to any doctrine than the supporters of Mr. BREORIN-RIDGS are to this theory. There is scarcely a classed with the natives, to which, in fact, they belong. It is now suggested that in our next cenman among them, high or low, who has not either publicly advocated it, or contended, lither in 1856 or since, that the South could not, in honor and in safety, and would not, submit to be ruled by men who mainained and enforced the principles of the Republican party. They are, therefore, now n the attitude of men who have, by their wn free action, rendered almost inevitable a result which they have always represented to e a just and certain cause for the disruption of the Union. How it is possible for men to the German, or the Irish, ercel in that regard? In more clearly assume the attitude of Disunion- our opinion, the German and Irish immigrants inists by anything short of an overt act, we can-

orease more than the natives, as the greater part of them, when they arrive at our sbores, are either not conceive. We need not elaborate this married, or, at least, of a marriageable age, and point. 'It is plain to every reader who invokes therefore, very apt to be productive. It is esti-mated that the number of foreigners and their he "irresistible logic" of which Mr. BRECK-INRIDGE speaks, to clear up the mysteries of children (not even to include their grand-children) born in this country, will not fall short his poculiar Presidential campaign. The national Democrats of the South who

All the foreign ministers, except the Spanish euvoy, still refuse any diplomatic intercourse with Miramon's Government.

Conflagration in New York.

Conflagration in New York. Loss one hundred fill for the broke out at noon to day in the vicinity of Pig alley and Washington street. Most of the burrenuding buildings were frame dwellings and stables, and the flames soon domain of the flame and raged with great fury. From thirty to forty buildings were burnt, main-ly dwellings. The stables were occupied by eart-men, whose horses were fortunately at work at the time of the fire It is estimated that a hundred and fifty families are rendered homeless by this calamity. The loss amounted to \$100,000. WASHINGTON, July 14, 1860. Among the improvements introduced into ort as, there is one which will, for the firs time, enable the statistician and stateman to make a true and correct estimate of the strength, num-ber, and influence, of the foreign element in this country. Heretofore, the children of foreign-born citizens, born in this country, have always been

State Politics. DOUGLAS STATE CONVENTION ON THE 267H INST. HARRISURG, JUJ9 16. ...R. J. Haldeman, Eeq.; a member of the National Democratic Committee appointed by the Baltimore (Douglas) Convention, has just issued an address, according to the instruc-tions given that committee by the said Convention, protesting against the action of the State Commit-ico to unite the electoral ticket, and calling for a mass and delegate Convention, to be held in Har-risburg on Thursday, the 20th of this month, when the various Democratio organizations favorable to the election of Mr. Douglas will assemble and form a straight electoral ticket. State Politics. sus a disorimination may be made, so that the number of direct descendants of Irish, Gorman and other foreign emigrants, may be ascertained. It will not only be an interesting item, to show the value and importance of immigration in a po-litical and national economical sense, but ethnology and other branches of science will derive a great many benefits therefrom. Modical men will be interested to find out which of the various elements and nationalities, represented on our soil, tends most to natural increase. Do the American,
