letter from Senator Seward in reply to Greeley, and says: "Neither of the parties to the correspondence has, as yet, made any public avowal of it, but saide from internal evidence of its genuineness, the original has been so freely exhibited about the city as to justify the expectation that a vorrect copy would be in circulation by this time. Nor is there anything in the letter, considering the con-fidence in which it was uttered, that a statesman of Mr. Seward's prudence as a politician, or skill as a writer, might not have written. We should not print it if we did not think it genuine, and did not know that the seal of privacy had been so far removed from it as to make it in a measure public property.

ritories"---ack that it is both the right and duty of Congrest to exclude slavery therefrom by positive legislation." GENERAL KEIM ON THE PROPOSED FU-SION. Gon. Geo. M. Keim, an elector at large, on the State Democratic ticket, has written a long letter to Mr. Haldeman if reply to his circular. Gen. Keim says: "The plan recommonded by the State Commit-tee is wise and appropriate. All true Democratic concede that it is of the first importance that Mr. Linceln should be defeated. I can vote most cheerfully for either Mr. Donglas or Mr. Breckin-ridge in preference to Mr. Linceln, and know no other mode by which it can be done, but by a nulon of preferences upon one electoral ticket. If the insidious devices of those who prefer men to principles should prevail, and two electoral tickets are thrown into the field, it will not at least be the fault of the Democratics of fashity to time-honored principles. Would scorifice all at the shrine of person largerandissement. Thank Heaven ! that class of men have no weight with the conservative, sensible, thinking, and efficient portion of the com-munity, whose votes must decide the election. The battle must be fought in Pennsylvania, hu coral scores of the Compressional dele-gions of the State Committee would score the strumphant election of the Compressional dele-gation, a majority of the State Committee would score is all for the sake of the Union upon the suggestions of the State Committee would score is all to the score of the compressional dele-gation, a majority of the Senate and House of Re-presentatives, and, as a necessary consequence, a United States Benator. Are all these glorious re-sults to be geoparded for the sake of any one man? Is it to be done at the distict of a body, which can claim no shadow of authority for its inter-ference with our State organization, and which soms to have so little confidence in its own innate strength as to transfer all it possesses to the keep-ing of a single individual? I trust, however, that botter counsels will prev that "overt act" will never come. THE MERALD IN'A MERVORS PRVEN. The "ERRALD IN'A MERVORS PRVEN. The "ERRALD IN'A MERVORS PRVEN. The Sage syst," That the South can peed in the south. The rots of that section will be given to Breckinridge and Lame. "The Bouthern Senators and members of the House would go to Elebamond instead of Wascington. Congress being opened in regular form, MF. Breckinridge would be declared Presi-dent of the United Southern Republic, and the Government may be organized in a week after the result of the November election is made known. Theris is really nothing to prevent such action on the part of the South, and there is very reason to dread that's may take place." Theris is really nothing to prevent such action on the part of the Southern. The oran see, the Breckinridge movement at the North will avail nothing. Lincoln will be the Northern President, and Breckinridge the Southern. The confusion into which four commercial and monetary affairs will be thrown cannot be described. Trade will receive a blow compared to which the storm of 1857 was a mere flurry; stocks will go down to with a fraction of nothing; all kinds of property will depreciate in value, and the fortunes accumu-lased by years of toll will be the swept away in a mo-ment.

Ing or a single individual? I trust, however, that in better counsels will prevail. GEN. KEIN'S CONPLIMENTS TO THE EDITOR OF "THE PRESS." I find, too, that every movement which is made in this State by these who are sensitively regular in and critically punctillous is pressribed and heraided if forth by the editor of *The Press*, the manifest object of whose editorial labors is, not to elect Mr. Jocgis, but to defeat him so interly that he shall be powerless hereafter forever. From such chiconery and deception Berks county has resolved to independent of the principles or Democratic usages. She is this day as ready to manifest her lattachment and devolion to the principles as incul-lattachment and devolion to the principles as incul-ated by a Jefferson and practised by a Jackson as in the palmiest period of her success; and her abiding intelligence cannot be convinced how any party can be made strong by division. She holds in abhormence all who have caused such results; and, for my single self, I will not be linked with tapy of them. Lated by years of toil will be swept away in a mo-ment. THE HEBALD THINKS "SOMETHING MAY BE SAVED RROW THE WRECK." We advise our readers to prepare for the coming erisis. Between this time and November some-thing may be saved from the wrock. Meyohanis who have dealings with Southern traders will do well to close up such affairs as soon as possible. Holders of Southern State, railway, or city stocks, or securities of the General Government, should realize upon them at once. Bankers at home and abroad should prepare themelves for the inevita-ble paule in finamelal affairs. The orlisis is immi-ment. The dissolution of the Union is a fact already y determined upon. Let us be prepared to meet the doom which the trading politicians and crasy fa-matics of the day have precipitated upon the Re-public. "THE "BULLETIN" ON THE GATASTROPHE. In the profound calm with which people are awaiting the election of Lincoln, he once morè ilits up his voice, and appears before the world in a long document, declaring that the only homorable course for South Carolina to pursue is to secole from the Union as soon, as the success of the Republican party is known. Mr. W. L. Yancey writes a briefer letter, locking to the same remedy for the grierance of a Republican President. Sensible men in all sections are accustened to these little outbursts of folly from whot mes as Watt and Yancey, and they are net alarsied at them. The letter are not worth pub-lishing, and still less worth predicating revolutions upon. There is plastry of particulation conservation, and good sense at the South to submit to the con-stitutional election of a Republican President, and is try how he governs before thinking of secse-sion."

The following is the celebrated letter written by Mr. W. L. Yancey, of Alabama, to Mr. Slaughter, of the same State: Mowrooveny, June 15, 1860. Dman Sin; Your kind favor of the 15th is re-ceived. I' hardly agree with you that a general merement can be made that will clear out the Augean stable. If the Democracy were over-thrown it would result in giving place to a greater and huggrier awarm of files. The remedy of the South is not in moh a process; it is in a diligont organisation of her trae men for prompt resistance to the next aggreesion. It mats come in the nature of things.
