If How to Turn National Williams. An ingentious French philosopher is maintaining the hypothesis that the feeding of the negro races continually or exclusively or an mal food would effect their conversion into white men. He grounds his belief mainty on the fact that in a me districts where a large quantity of such food is consumed, the peculiarities of the negro physiognomy are considerably reduced, just as very awkward people become elegant and graceful in manners and appear ance by wearing the handsome sarments made at the Brown-Stone Clothing Hall of Rockhilt & Wilson, Noz. 603 and 605 Chestaut street, above Sixth.

Mannerly Young Folks.—Young folks should be mannerly but how to be so is a question. Many good boys and gills feel that they cannot behave to suit themselves in the presence of company. They are awkward clownish, rough. They feel timid, bashful, self distrigutful the moment they are addressed by a stranger, or appear in company. There is but one way to get over this feeling, and acquire easy and graceful manners, and that is to do the beat they can all the time, at home, and purchased their clothing at the "Une Price Gift Clothing Emporium" of Granville Strongs, No. 667 Chestaut street, where the full value of the money is guarantied, and a valuable gift presented with each article sold. Taylor had it, and he proposed to saddle it upon the Lichtenant.

Officer Mages was present in court, and denied the story; admitting at the name time that he had visited the prison, but had said nothing about the loss of any mote.

Freeman, the other prisoner, corroborated the statement of Jackson, and at the conclusion Judge Allison-transferred the case to the Mayor for further investigation.

The floating debt and only debt of the company is about two hundred thousand dollars, which is now in bonds, all of which fail due in 1860. '81, '82, and '63.

The company are about to issue six per cent, bunds, secured by first mortgage, payable in 1890, so meet these improvement; and the floating debt above rentioned.

But one hundred thousand delilars of these bonds are to be issued at present, and the whole issue is limited to five hundred thousand delilars of these bonds are to be issued a hourand dollars. This amount is more than at present actually needed or will probably be used, but to avoid in any contingenor a secord mortgage, the Board of Directors deemed it expedient to adopt that amount.
