QUARTER SESSIONS—Judge Allison.—A writ of habbas corpus was heard in the case of E. A. Sterling, who claimed the possession of his son, a lad of about ten years of age. The boy is at present in the custody of Mrs. Sterling, and as Mr. and Mrs. S. have soperated, Mr. S. desires to have the control of his son, and he alleged that at the time of the separation he had the boy, and placed him with a friend, but during his absence in the South Mrs. S. got possession of him.

The hearing on Saturday disolosed a curious state of affairs. Mr. Sterling commenced his story to the court by asserting that he was the father of the boy, while Mrs. Sterling in her answer to the writ, as well as in her statement made foccurt, denied the fact, and insisted that the boy was adopted, and that Mr. Sterling knew?. Her story was that she got the boy when he was about two weeks old, with the knowledge and consent of her husband. It was clear from the other testimony in the case that the ohild was produced to the belief that it was the offspring of Mr. and Mrs. Sterling. Even the mother of Mr. Sterling was deceived. The only point in dispute was whether or not Mr. Sterling was among the duped. He insisted that he knew nothing of this arrangement, while Mrs. Sterling as strongly asserted that he did, and she could prove it. In order to allow further testimony to be brought forward, the case was continued until Saturday next.

1st. The judges shall be selected by the corporators, and the old corporators have no right to interfere. 2d. All the timeses referred to in the resolutions and provided for by them, are entitled to vote sea though capital terests in the corporation. This is at the first election. The scale provides for subsequent elections. 2d. Fartier have a right to vote by proxy. 4th. The vote is to be scaled according to the old charter which provides as follows: For every, since not exceeding ten shares, one vote; for every since not exceeding ten shares, one vote; for every since not exceeding ten shares, one vote; for every first shares above ten, and not exceeding thirty, one vote; for every ten shares above thirty, and not exceeding one bundred, one vote; but no share of reminer of shares above to ne handred shall confer any editional right of white.

The candidates for president wore. T. Haskins Du Puv and M. P. Hutchinson. The New York interest, which is large, was voted for the theet headed by Mr. Du Puy, which was encosmit. The vote was counted, as we understend it arright, upon the principle that no stockholder could give more than seventeen votes, and when, say one stockholder became so from owning more than one kind of interest, the votes arising from the ownership of the first mortage bonds of the old conspany were recorded first. Thus its party hold enough, of those bonds to entitle him to seventeen votes, and owned besides second mortage, or chattel bonds, his vote was recorded as 17 under the first mortage votes, and no account made of his other interests in the vote. The annexed correspondence in regard to the State of Virginia loan we find in Thompson's Reporter. It will by interesting to all who intend todding for the loan: In order to comply strictly with the letter of the law, the Board of Public Works of Virginia have offered \$3,000,000 of the stock of that State for public bids, without, however, expecting to receive proposals which can be awaled under the laws.

The advertising of such an important loan has caused inquiries as to the laws of Virginia; and, in order to answer some of the most pertinent of the inquiries, we addressed the Secretary. Our letter and the Secretary's answer are as follows:

Frop. O. J. Wood: Dear Sir: In the latter part of the year 1853. while attending the State and Astional Law School of the State of New York, my hair, from a cause unknown to meater of six and the state of my scalp was almost entirely berefred its convertant, and unch of the remaining portion upon the side and back part of my head shortly after became gray; so that you will not be surprised when I tell you that, upon my return to the State of Indiana. my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to reacognise me at all.

I at once made application to the most skillid physicalans in the country, but, receiving no assurance from them that my hair could again be restored. I was forced to become accordised to my first, until fortunately, in the country of the state of the st

As a mark of my gratitude for your labor and skill in the production of so wonder ulg natitule, I have recommended its use to many of my friends and acquaintances, who, I sm happy to inform you, are using it with like effect.

Very respectfully, yours, LATTA.
