BRANCH, N. J.—The subcorber takes this method of informing his friends and the public, that on and after JUNE 28th his house will be open for the reception of guests, when every effort will be made to please those who may favor him. The house is pleasently situated on a fine bluf, with lawn in front. A full view of the ocean good roads, stablirg, do., make it as attractive as any house in the country. The communication is accessible by two daily lines from foot of Walnut-street wharf, vis.: 5 A. M., and 3 P. M.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       POLITICAL.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 FRANCIS HAVY, SECREMY.

FROM PROFESSOR BOOTH.—"In my opinion the HARTELL JAR combines more advantages than any others for Freserving, being wholy of slass, cleanly, strong, and durable lossing sir-tight, and opening and shutting with fact leading to the preservation of Fruit, and in comparing it with others previously employes for the purpose, I consider it highly preferable, and particularly so to metal large or jars with metal tops, I to perfectly sir tight, and resfrom all possibility of taint, as is the case with metal. It is secured with more case, rapidity, and certainty than by cement or solder, and opened readily, while the fruits kept in the most admirable manner. Having tosled the Jar well, I consider that it meets all the lindications that can be desired. To M. ATLEE, M. D., "Washinston L. ATLEE, M. D., "No. 1408 Arch Street."

Manufacturers under the Patent, "No. 1408 Arch Street."

And I ELL & LETCHWORTH, and I mile the first of the patent of the patent of the patent.
